

Microsoft PL-600 Questions - Try Our Real PL-600 Dumps [2025]

2025 Latest Real4dumps PL-600 PDF Dumps and PL-600 Exam Engine Free Share: https://drive.google.com/open?id=195kE9a0HciJPV1TrvjH51hudX_LcYNLd

For candidates who have little time to prepare for the exam, buying high-quality PL-600 exam materials is quite necessary. With the experienced professionals to edit, PL-600 exam materials of us are high-quality, and they will help you pass the exam and get the certificate just one time. You just need to spend about 48 to 72 hours on practicing, and you can pass the exam. We also pass guarantee and money back guarantee if you fail to pass the exam. We provide you with free update for 365 days if you purchase PL-600 Exam Materials from us.

Upon successful completion of the Microsoft PL-600 certification exam, individuals will be recognized as a Microsoft Certified: Power Platform Solution Architect Associate. Microsoft Power Platform Solution Architect certification demonstrates the individual's expertise in designing and implementing Power Platform solutions and adds value to their professional profile. It also opens up new opportunities for career advancement and helps individuals stand out in a competitive job market.

Schedule exam

Languages: English

Retirement date: none

This exam measures your ability to accomplish the following technical tasks: perform solution envisioning and requirement analyses; architect a solution; and implement the solution.

Microsoft Power Platform Solution Architect (PL-600) exam is a certification that validates the skills of individuals in designing and implementing solutions using the Microsoft Power Platform. The Power Platform consists of four main applications: Power Apps, Power BI, Power Automate, and Power Virtual Agents. The PL-600 Exam is designed for solution architects who have expertise in these applications and can design solutions for businesses and organizations.

Real4dumps is a website which can give much convenience and meet the needs and achieve dreams for many people participating PL-600 Certification exams. If you are still worrying about passing some Microsoft certification exams, please choose Real4dumps to help you. Real4dumps can make you feel at ease, because we have a lot of Microsoft certification exam related training materials with high quality, coverage of the outline and pertinence, too, which will bring you a lot of help. You won't regret to choose Real4dumps, it can help you build your dream career.

Microsoft Power Platform Solution Architect Sample Questions (Q204-Q209):

NEW QUESTION # 204

You are designing a model-driven app for a hospital. The app will be used to track teams at the hospital including:

Team	Comments
Cleaning	There are three predetermined cleaning teams. Tasks are assigned to a team. Anyone on the team can complete an assigned task.
Emergency room	These teams are formed as needed based on patient needs and staff availability.
Billing	These teams are assigned to specific hospital departments. Team members must only see data for the hospital department to which they are assigned.

You need to recommend the team types to use.

Which team types should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Team type
Cleaning teams	Access Owner
Emergency room teams	Access Owner
Billing teams	Access Owner

Answer:

Explanation:

Requirement

Team type

Cleaning teams

	▼
Access	
Owner	

Emergency room teams

	▼
Access	
Owner	

Billing teams

	▼
Access	
Owner	

Explanation:

Box 1: Owner team

Owner team: An owner team owns records and has security roles assigned to the team. A user's privileges can come from their individual security roles, those of the teams that they're part of or the ones they inherit. A team has full access rights on the records that the team owns. Team members are added manually to the owner team.

Box 2: Access team

Access team: An access team doesn't own records and doesn't have security roles assigned to the team. The team members have privileges defined by their individual security roles and by roles from the teams they're members of. These members share records with an access team, and the team is granted access rights to the records. Access rights include Read, Write, and Append.

Box 3: Owner team

NEW QUESTION # 205

You are implementing a Microsoft Power Platform solution for a customer to include data migration from multiple legacy systems. The data includes lead and contact data. The environment includes an assigned security group.

The following issues have occurred during a go-live deployment attempt:

- * Lookup values are not populated when data migration is complete.
- * Data is being added to the contacts table that is not part of the data migration.
- * Various users do not appear in the list of users available for record assignment.

You need to resolve the go-live deployment issues.

How should you resolve the issue? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Issue

Lookup values are not populated when data migration is complete.

Data is being added to the contacts table that is not part of the data migration.

Various users do not appear in the list of users available for record assignment.

Solution

Split the import data into smaller import batches.

Import the data by using an application user.

Split the import data into smaller import batches.

Disable all Power Automate flows, plug-ins, and workflows.

Run data migration in a specific order.

Disable all Power Automate flows, plug-ins, and workflows.

Disable auditing.

Import the data by using an application user.

Disable all Power Automate flows, plug-ins, and workflows.

Split the import data into smaller import batches.

Add to a security group.

Add to a security group.

Add a security role.

Add a Microsoft 365 role.

Add a field security profile.

Answer:

Explanation:

Answer Area

Add to a security group.

NEW QUESTION # 206

You are overseeing the data migration for a Microsoft Power Platform solution.

The migration team is performing a test migration with a subset of data. The migration team reports the following findings:

Users who own account rows are receiving system generated emails.

Data that is not part of the migration is being added to the Contact and Appointment tables.

The size of the log listed on the Power Platform admin center Capacity page has increased significantly.

You need to recommend strategies to resolve the reported issues.

What should you recommend? To answer, drag the appropriate resolution to the correct migration problem.

Each resolution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Resolution strategies

Disable auditing.

Disable duplicate detection.

Disable all custom JavaScript functions.

Disable all workflows, plug-ins, and Power Platform admin center

Migration issue

Users who own account rows are receiving system generated emails.

Data that is not part of the migration is being added to the Contact and Appointment tables.

The size of the log listed on the Power Platform admin center Capacity page has increased significantly.

Resolution strategy**Answer:**

Explanation:

Resolution strategies

Disable auditing.

Disable duplicate detection.

Disable all custom JavaScript functions.

Disable all workflows, plug-ins, and Power Platform admin center

Migration issue

Users who own account rows are receiving system generated emails.

Data that is not part of the migration is being added to the Contact and Appointment tables.

The size of the log listed on the Power Platform admin center Capacity page has increased significantly.

Resolution strategy

Disable duplicate detection.

Disable all workflows, plug-ins, and Power Platform admin center

Disable auditing.

Explanation

Graphical user interface, application Description automatically generated

Migration issue	Resolution strategy
Users who own account rows are receiving system generated emails.	Disable duplicate detection.
Data that is not part of the migration is being added to the Contact and Appointment tables.	Disable all workflows, plug-ins, and Power Platform admin center
The size of the log listed on the Power Platform admin center Capacity page has increased significantly.	Disable auditing.

Box 1: Disable duplicate detection

Duplicate detection has rules for sending emails.

Box 2: Disable all workflows, plug-ins, and Power Platform admin center Box 3: Disable auditing Auditing affects the size of the log file.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/set-up-duplicate-detection-rules-keep-data-clean>**NEW QUESTION # 207**

You need to recommend solutions for the organization's technical challenges.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Solution
Provide workers a self-service option for viewing personal and skills information.	▼ Power Automate QnA Maker Azure Cognitive Services
Authenticate workers who use the self-service option for updating skills information.	▼ Azure Active Directory B2B Azure Active Directory B2C Dynamics 365 owner team
Plan routes for audit teams.	▼ Azure traffic routing Address input component Dynamics 365 Field Service

Answer:

Explanation:

Requirement	Solution

Plan routes for audit teams.	▼ Azure traffic routing Address input component Dynamics 365 Field Service

Explanation:

Graphical user interface, text, application, chat or text message Description automatically generated

Requirement	Solution
Provide workers a self-service option for viewing personal and skills information.	Power Automate QnA Maker Azure Cognitive Services
Authenticate workers who use the self-service option for updating skills information.	Azure Active Directory B2B Azure Active Directory B2C Dynamics 365 owner team
Plan routes for audit teams.	Azure traffic routing Address input component Dynamics 365 Field Service

Box 1: Power Automate

Self-service purchase is available for Power Platform (Power BI, Power Apps, and Power Automate), Project, and Visio.

Box 2: Azure Active Directory B2B

Scenario: First Up Consulting recruits information technology (IT) workers for temporary or permanent positions at client companies.

Azure Active Directory (Azure AD) business-to-business (B2B) collaboration is a feature within External Identities that lets you invite guest users to collaborate with your organization. With B2B collaboration, you can securely share your company's applications and services with guest users from any other organization, while maintaining control over your own corporate data. Work safely and securely with external partners, large or small, even if they don't have Azure AD or an IT department. A simple invitation and redemption process lets partners use their own credentials to access your company's resources.

Note, Scenario:

* Workers must be able to sign into a portal by using their own email address. Workers must be required to use a secure method of authentication to be able to view their data.

* User security roles must be customized to ensure that users are able to interact only with the specific data in which they need access.

Box 3: Dynamics 365 Field Service

Dynamics 365 Field Service functionality include:

An interactive schedule board helps dispatchers assign work orders to the best resources based on location, availability, skill set, priority, and more. This is done via a manual drag-and-drop method, a semi-automated scheduling assistant, or fully automated with Resource Scheduling Optimization.

The schedule board displays each resource--whether an employee, contractor, or equipment--and their scheduled work orders.

Resources and their assigned jobs are also displayed on a map along with routes and traffic patterns in real time.

NEW QUESTION # 208

You need to design a Power Platform solution that meets the following requirements:

Capture data from a row during deletion to be used in an automated process.

Use AI to process forms and automate data entry from paper-based forms.

Which requirements can be met by using out-of-the box Power Platform components?

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

	Yes	No
Capture data from a row during deletion to be used in an automated process.	☐	☐
Use AI to process forms and automate data entry from paper-based forms.	☐	☐

Answer:

Explanation:

	Yes	No
Capture data from a row during deletion to be used in an automated process.	☒	☐
Use AI to process forms and automate data entry from paper-based forms.	☒	☐

NEW QUESTION # 209

.....

Now on the Internet, a lot of online learning platform management is not standard, some web information may include some viruses, cause far-reaching influence to pay end users and adverse effect. If you purchase our PL-600 test torrent this issue is impossible. We hire experienced staff to handle this issue perfectly. We are sure that our products and payment process are surely safe and anti-virus. If you have any question about downloading and using our PL-600 Study Tool, we have professional staff to remotely handle for you immediately, let users to use the Microsoft Power Platform Solution Architect guide torrent in a safe environment, bring more comfortable experience for the user.
