Die Microsoft SC-401 Dumps von ITZert haben die sagenhafte Hit-Rate. Diese Dumps beinhalten alle mögliche Fragen in den aktuellen Prüfungen. Deshalb können Sie Microsoft SC-401 Prüfungen sehr leicht bestehen, wenn Sie diese Dumps ernst lernen. Als eine sehr wichtige Microsoft SC-401 Prüfung Zertifizierung spielt heute eine übergreifende Rolle. Deswegen können Sie die Chance nicht verlieren, die Prüfung zu bestehen. ITZert verspricht Ihnen volle Rückerstattung wenn durchgefallen. Informieren Sie bitte mehr an ITZert, wenn Sie die SC-401 Zertifizierungsprüfung bestehen wollen.

Microsoft SC-401 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.
Thema 2	• Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.
Thema 3	• Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.
Thema 4	• Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.

SC-401 Trainingsunterlagen, SC-401 Antworten

Um jeder Microsoft SC-401 Prüfungsunterlagen Benutzer einen bequemen Prozess zu haben, bieten wir Ihnen 3 Versionen von Microsoft SC-401 Prüfungsunterlagen, nämlich PDF-, Online-, und Software-Version. Eine der Versionen kann für Sie taugen und Ihnen helfen, innerhalb der kürzesten Zeit Microsoft SC-401 zu bestehen und die autoritativste internationale Zertifizierung zu erwerben!

Microsoft Administering Information Security in Microsoft 365 SC-401 Prüfungsfragen mit Lösungen (Q42-Q47):

42. Frage

You have a Microsoft 365 E5 subscription that contains the data loss prevention (DLP) policies shown in the following table.

Name	Applied to
DLP1	Microsoft Exchange Online email
DLP2	Microsoft SharePoint Online sites
DLP3	Microsoft Teams chat and channel messages

You have a custom employee information form named Template1.docx.

You plan to create a sensitive info type named Sensitive1 that will use the document fingerprint from Template1.docx.

What should you use to create Sensitive1, and in which DLP policies can you use Sensitive1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Create Sensitive1 by using:

- The Microsoft Purview portal
- Security & Compliance PowerShell
- The Exchange admin center
- The Microsoft Purview portal**
- The SharePoint admin center

Use Sensitive1 in:

- DLP1, DLP2, and DLP3
- DLP1 only
- DLP2 only
- DLP1 and DLP2 only
- DLP1, DLP2, and DLP3**

Antwort:

Begründung:

Answer Area

Create Sensitive1 by using:

- The Microsoft Purview portal
- Security & Compliance PowerShell
- The Exchange admin center
- The Microsoft Purview portal**
- The SharePoint admin center

Use Sensitive1 in:

- DLP1, DLP2, and DLP3
- DLP1 only
- DLP2 only
- DLP1 and DLP2 only
- DLP1, DLP2, and DLP3**

Explanation:

Create Sensitive1 by using: The Microsoft Purview portal

Use Sensitive1 in: DLP1, DLP2, and DLP3

43. Frage

You have a Microsoft 365 E5 subscription that contains the groups shown in the following table.

Name	Type
Group1	Microsoft 365
Group2	Security

The subscription contains the resources shown in the following table.

Name	Type
Site1	Microsoft SharePoint Online site
Team1	Microsoft Teams team

You create a sensitivity label named Label1.

You need to publish Label1 and have the label apply automatically.

To what can you publish Label1, and to what can Label1 be auto-applied? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Microsoft

Publish to:

Site1 only

Group1 only

Group1 and Group2 only

Group1 and Site1 only

Site1 and Team1 only

Group1, Group2, Site1, and Team1

Auto-apply to:

Site1 only

Group1 only

Group1 and Group2 only

Group1 and Site1 only

Site1 and Team1 only

Group1, Group2, Site1, and Team1

Antwort:

Begründung:

Answer Area

Publish to:

- Site1 only
- Group1 only
- Group1 and Group2 only
- Group1 and Site1 only
- Site1 and Team1 only
- Group1, Group2, Site1, and Team1**

Auto-apply to:

- Site1 only**
- Group1 only
- Group1 and Group2 only
- Group1 and Site1 only
- Site1 and Team1 only
- Group1, Group2, Site1, and Team1

Topic 1, Contoso, Ltd

Instructions

This is a case study. Case studies are not timed separately from other exam sections. You can use as much exam time as you would like to complete each case study. However, there might be additional case studies or other exam sections. Manage your time to ensure that you can complete all the exam sections in the time provided. Pay attention to the Exam Progress at the top of the screen so you have sufficient time to complete any exam sections that follow this case study.

To answer the case study questions, you will need to reference information that is provided in the case. Case studies and associated questions might contain exhibits or other resources that provide more information about the scenario described in the case.

Information provided in an individual question does not apply to the other questions in the case study.

A Review Screen will appear at the end of this case study. From the Review Screen, you can review and change your answers before you move to the next exam section. After you leave this case study, you will NOT be able to return to it.

To start the case study

To display the first question in this case study, select the "Next" button. To the left of the question, a menu provides links to information such as business requirements, the existing environment, and problem statements. Please read through all this information before answering any questions. When you are ready to answer a question, select the "Question" button to return to the question.

Overview

Contoso, Ltd. is a consulting company that has a main office in Montreal and three branch offices in Seattle, Boston, and Johannesburg.

Existing Environment

Microsoft 365 Environment

Contoso has a Microsoft 365 E5 tenant. The tenant contains the administrative user accounts shown in the following table.

Name	Microsoft Role
Admin1	Global Reader
Admin2	Compliance Data Administrator
Admin3	Compliance Administrator
Admin4	Security Operator
Admin5	Security Administrator

Users store data in the following locations:

- *SharePoint sites
- *OneDrive accounts
- *Exchange email
- *Exchange public folders
- *Teams chats
- *Teams channel messages

When users in the research department create documents, they must add a 10-digit project code to each document. Project codes that start with the digits 999 are confidential.

SharePoint Online Environment

Contoso has four Microsoft SharePoint Online sites named Site1, Site2, Site3, and Site4.

Site2 contains the files shown in the following table.

Name	Number of SWIFT codes in the file
File1.docx	1
File2.bmp	4
File3.txt	3
File4.xlsx	7

Two users named User1 and User2 are assigned roles for Site2 as shown in the following table.

User	Role
User1	Site owner
User2	Site visitor

Site3 stores documents related to the company's projects. The documents are organized in a folder hierarchy based on the project.

Site4 has the following two retention policies applied:

*Name: Site4RetentionPolicy1

*Locations to apply the policy: Site4

*Delete items older than: 2 years

*Delete content based on: When items were created

*Name: Site4RetentionPolicy2

*Locations to apply the policy: Site4

*Retain items for a specific period: 4 years

*Start the retention period based on: When items were created

*At the end of the retention period: Do nothing

Problem Statements

Management at Contoso is concerned about data leaks. On several occasions, confidential research department documents were leaked.

Requirements

Planned Changes

Contoso plans to create the following data loss prevention (DLP) policy:

*Name: DLPpolicy1

*Locations to apply the policy: Site2

*Conditions:

*Content contains any of these sensitive info types: SWIFT Code

*Instance count: 2 to any

*Actions: Restrict access to the content

Technical Requirements

Contoso must meet the following technical requirements:

*All administrative users must be able to review DLP reports.

*Whenever possible, the principle of least privilege must be used.

*For all users, all Microsoft 365 data must be retained for at least one year.

*Confidential documents must be detected and protected by using Microsoft 365.

*Site1 documents that include credit card numbers must be labeled automatically.

*All administrative users must be able to create Microsoft 365 sensitivity labels.

*After a project is complete, the documents in Site3 that relate to the project must be retained for 10 years.

44. Frage

You have a new Microsoft 365 E5 tenant.

You need to create a custom trainable classifier that will detect product order forms. The solution must use the principle of least privilege.

What should you do first? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Microsoft

Action to perform:

- Create an Exact Data Match (EDM) schema.
- Import a data loss prevention (DLP) rule package.
- Start the opt-in process.

To perform the action, assign the role of:

- Compliance Administrator
- Global Administrator
- Security Administrator

Antwort:

Begründung:

Answer Area

Microsoft

Action to perform:

- Create an Exact Data Match (EDM) schema.
- Import a data loss prevention (DLP) rule package.
- Start the opt-in process.

To perform the action, assign the role of:

- Compliance Administrator
- Global Administrator
- Security Administrator

Explanation:

Answer Area

Microsoft

Action to perform:

- Create an Exact Data Match (EDM) schema.
- Import a data loss prevention (DLP) rule package.
- Start the opt-in process.

To perform the action, assign the role of:

- Compliance Administrator
- Global Administrator
- Security Administrator

To create a custom trainable classifier in Microsoft Purview (formerly Microsoft Compliance Center), you must first opt into the trainable classifier feature.

Before using custom trainable classifiers, Microsoft requires manual opt-in through the Microsoft Purview compliance portal.

Without this step, you cannot create a new classifier.

The Compliance Administrator role has the necessary permissions to configure data classification, DLP policies, and trainable classifiers. Global Administrator has higher privileges but is not required for this task, violating the principle of least privilege. Security Administrator is focused on security-related settings but does not manage compliance features like classifiers.

45. Frage

You have a Microsoft 365 ES subscription that uses Microsoft Teams and contains the users shown in the following table.

Name	Team membership
User1	Team1, Team2
User2	Team2

You have the retention policies shown in the following table.

Name	Location	Included	Retain items for	Start retention period	At the end of retention period
Policy1	Microsoft Teams channel messages	All teams	7 years	When items are created	Delete items automatically
	Microsoft Teams chats	User1			
Policy2	Microsoft Teams channel messages	Team1	5 years	When items are created	Delete items automatically
	Microsoft Teams chats	User2			

The users perform the actions shown in the following table.

User	Location	Action
User1	Team1 channel	Edits a message
User2	Private 1:1 chat with User1	Sends a message to User1
User3	Microsoft 365 Groups	Deletes a message

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point

Answer Area

Statements

Yes

No

The message edited by User1 will be deleted after five years.

☐
☐

User1 can see the message sent by User2 for up to seven years.

☐
☐

The message deleted by User1 will be moved to the SubstrateHolds folder.

☐
☐

Antwort:

No

The message edited by User1 will be deleted after five years.

☐
☒

User1 can see the message sent by User2 for up to seven years.

☒
☐

The message deleted by User1 will be moved to the SubstrateHolds folder.

☒
☐

46. Frage

You have a Microsoft 365 E5 subscription.

You need to create static retention policies for the following locations:

- *Teams chats
- *Exchange email
- *SharePoint sites
- *Microsoft 365 Groups
- *Teams channel messages

What is the minimum number of retention policies required?

- A. 0
- B. 1
- C. 2
- D. 3
- E. 4

Antwort: A

Begründung:

In Microsoft Purview Data Lifecycle Management, different Microsoft 365 locations require separate retention policies because they

fall under different storage and compliance models.

Teams Chats & Teams Channel Messages (1 Policy) require a separate retention policy because Teams messages are stored differently than Exchange and SharePoint content. One policy can cover both Teams chats and Teams channel messages. Exchange Email (1 Policy) requires its own separate policy since emails are managed differently than Teams or SharePoint content. SharePoint Sites & Microsoft 365 Groups (1 Policy) are both stored in SharePoint Online, so they can be managed under one policy.

47. Frage

.....

Probieren Sie vor dem Kauf! Wir ITZert sind verantwortlich für jeder Kunde. Wir bieten Ihnen kostenfreie Demos der Microsoft SC-401, somit können Sie nach der Probe unbesorgt kaufen. Außerdem können wir Ihnen garantieren, dass Sie keine Reue empfinden werden, nachdem Sie unsere Microsoft SC-401 Prüfungssoftware gekauft haben. Denn Sie können durch die Benutzung ihre Zuverlässigkeit empfinden. Dadurch bekommen Sie mehr Konfidenz angesichts der Microsoft SC-401 Prüfung.
