## Microsoft MS-721 Materials - Reliable MS-721 Real Exam

All contents of the MS-721 exam questions are masterpieces from experts who imparted essence of the exam into our MS-721 study prep. So our high quality and high efficiency MS-721 practice materials conciliate wide acceptance around the world. By incubating all useful content MS-721 training engine get passing rate from former exam candidates of 98 which evince our accuracy rate and proficiency.

## Microsoft Collaboration Communications Systems Engineer Sample Questions (Q119-Q124):

### NEW QUESTION # 119

You have a Microsoft Teams Phone deployment.

You need to implement Local Media Optimization for Direct Routing users at a site.

Users at the site frequently perform the following actions:

Park calls.

Place calls on hold.

Transfer calls to other users.

Escalate calls to conference calls

Which action will be affected by implementing Local Media Optimization?

- A. Place calls on hold.
- B. Escalate calls to conference calls.
- C. Park calls.
- D. Transfer calls to other users.

**Answer: B**

Explanation:

### NEW QUESTION # 120

You are replacing the on-site PBX at the Georgia warehouse with Teams.

You need to maintain the functionality of the PBX after migrating to Teams.

Which sequence of steps should you perform? To answer, drag the appropriate steps to the correct locations.

Each step may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Steps	Answer Area
Assign the emergency calling policy to the resource account.	Step 1: Configure Direct Routing to the onsite SBC.
Assign the emergency calling policy to the Georgia warehouse.	Step 2:
Associate the PA system with an SBC and assign the PA system an extension of 123456.	Step 3: Create a voice route for 123456 to the SBC.
Create an emergency calling policy that has Numbers to dial for emergency calls notifications set to 123456.	Step 4:
	Step 5:

### Answer:

Topic 3, Contoso, Ltd. (NEW)Contoso, Ltd. is an international manufacturing company that has 2,000 employees.

Contoso currently uses a third-party meeting service. The company plans to migrate the meeting service to Microsoft Teams and replace all legacy video teleconferencing [VTC] devices.

Contoso has offices in Toronto, New York, Rome, and London. The company has a global sales team that works remotely.

The on-premises network contains an Active Directory Domain Services (AD DS) forest named contoso.com

Contoso has a Microsoft 365 subscription. All users are licensed for Microsoft 365 E5 and Teams Premium.

All users are enabled for Teams Phone by using Operator Connect.

The contoso.com domain syncs to Microsoft 365 by using Azure AD Connect cloud sync. All users use the Microsoft Authenticator app for multi-factor authentication (MFA) to cloud services.

A Microsoft Surface Hub device is deployed to the boardroom in each office.

The reception area at the Toronto office is configured to use a phone number of +14165555555 in Teams.

Contoso identifies the following issues:

- \* A user in the London office cannot locate the recorded files from a recurring Teams meeting.
- \* Executives in the New York office report having to use Microsoft Authenticator to access their Microsoft OneDrive files from the Surface Hub.
- \* A user in the Toronto office reports receiving incoming calls while attending Teams meetings instead of having calls sent automatically to voicemail.

Contoso plans to implement the following changes:

- \* Deploy a new Teams-certified endpoint to all the boardrooms and huddle spaces in all the offices.
- \* Start a pilot project to deploy an Intelligent Speaker to the boardroom in the Rome office and evaluate transcription and voice attribution capabilities.

\* Deploy a Teams shared device to the lunchroom in the Toronto office. Calls placed to +14165555555 must ring in both the reception area and the lunchroom.

Contoso identifies the following technical requirements:

- \* The endpoint deployed to each boardroom must include a console on the table. The endpoint must automatically invite the existing Surface Hub when joining a Teams meeting.
- \* The sales team must be able to temporarily sign in to the endpoints deployed to the huddle spaces to respond to Teams messages and attend video calls.
- \* The endpoints deployed to the huddle spaces must allow only outbound emergency calls when a user is NOT signed in.
- \* During Teams meetings, the sales team must have a watermark displayed on shared content.

#### NEW QUESTION # 121

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the groups shown in the following table.

Name	Type
Research	Security
Marketing	Distribution

A user named User1 is a member of both Research and Marketing.

You have the meeting policies shown in the following table.

Name	Custom
Global (Org-wide default)	No
Policy1	Yes
Policy2	Yes

You have group policy assignments for the meeting policies as shown in the following table.

Rank	Group	Assigned policy
1	Marketing	Policy2
2	Research	Policy1

Which policies are assigned to User1?

- A. Policy2 and Global (Org-wide default)
- B. Global (Org-wide default) only
- C. Policy1 and Global (Org-wide default)
- D. Policy1 only
- E. Policy2 only

**Answer: E**

Explanation:

<https://learn.microsoft.com/en-us/microsoftteams/assign-policies-users-and-groups>

### NEW QUESTION # 122

You have a Microsoft Teams Phone deployment.

You need to implement Local Media Optimization for Direct Routing users at a site.

Users at the site frequently perform the following actions:

Park calls.

Place calls on hold.

Transfer calls to other users.

Escalate calls to conference calls.

Which action will be affected by implementing Local Media Optimization?

- A. Place calls on hold.
- B. Transfer calls to other users.
- C. Escalate calls to conference calls
- D. Park calls.

**Answer: B**

Explanation:

### NEW QUESTION # 123

Your company has an office in Seattle.

The default dial-in number for the company's Microsoft Teams meetings has an area code of 425.

The company does NOT have an office in New York. However, most of the company's customers are in New York.

You need to get a new default dial-in number that has a local 718 area code.

You will NOT define additional location information in Teams.

Which two actions should you perform before you assign the bridge? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Search for new numbers by using New York.
- B. Get a Dedicated conference bridge (Toll) number.
- C. Search for new numbers by using a 718 area code.
- D. Get a Dedicated conference bridge (Toll Free) number.
- E. Get an auto attendant toll-free number.

**Answer: B,C**

Explanation:

A: Change the default phone number of your conference bridge (optional).

The default phone number of your conference bridge defines the caller ID that will be used when an outbound call is placed by a participant or the organizer from within a meeting.

Only a service toll number can be set as the default number for your conferencing bridge; service toll-free numbers can't be set as the default number of your conferencing bridge. If you are assigning a service toll number and you would like to set it as the new default number for your audio conferencing bridge, perform these steps:

1. On the left navigation pane, go to Meetings > Conference bridges.
2. Highlight the service toll number that you want to configure as the default.
3. Select Set as default.

B: Note: In addition to getting phone numbers for your users, you can get toll or toll-free phone numbers for services such as Audio Conferencing (for conference bridges), Auto Attendants, and Call Queues (also called service numbers). Service phone numbers have a higher concurrent calling capacity than user or subscriber phone numbers. For example, a service number can handle hundreds of calls simultaneously, whereas a user's phone number can only handle a few calls simultaneously. To get service numbers, contact your operator.
