MTCNA Training Online & MTCNA Practice Guide

P.S. Free 2025 MikroTik MTCNA dumps are available on Google Drive shared by BraindumpsPass: https://drive.google.com/open?id=1YMM-hMqO98kZUqNMdH7ZnqWZIkI5kHtC

Because the MikroTik Certified Network Associate Exam (MTCNA) test has a restricted time constraint, time management must be exercised to get success. Only with enough practice one can answer real MikroTik MTCNA Exam Questions in a given amount of time. It has created three formats to aid MikroTik MTCNA applicants in practicing and organizing their time for this aim.

MikroTik Certified Network Associate (MTCNA) Exam Certification Path

MTCNA is the first Level Certification that provides access to any MTCRE, MTCWE, MTCTCE, MTCUME, MTCSE, MTCSWE, MTCEWE, or MTCIPv6E second-level certification. MTCRE is required for MTCINE certification to be achieved. Hence the certification path is simple as MTCNA is the basic level certification. As a prerequisite of the exam, the students should have a strong knowledge of TCP/IP and subnet.

MTCNA Practice Guide - MTCNA Study Guide

In today's society, many enterprises require their employees to have a professional MTCNA certification. It is true that related skills serve as common tools frequently used all over the world, so we can realize that how important an MTCNA certification is, also understand the importance of having a good knowledge of it. The rigorous world force us to develop ourselves, thus we can't let the opportunities slip away. Being more suitable for our customers the MTCNA Torrent question complied by our company can help you improve your competitiveness in job seeking, and MTCNA exam training can help you update with times simultaneously.

To obtain the MTCNA certification, candidates must pass a comprehensive exam that covers a range of topics related to networking and MikroTik routers. MTCNA exam is available in multiple languages and can be taken online or at a testing center. Once certified, MTCNA holders can demonstrate their expertise in MikroTik networking, which can lead to better job opportunities and higher salaries. Overall, the MTCNA certification is a valuable credential for any IT professional who works with MikroTik routers and wants to improve their skills and knowledge.

MikroTik Certified Network Associate (MTCNA) is one of the certifications offered by MikroTik. MikroTik Certified Network Associate Exam certification is intended for individuals who have a basic understanding of computer networking and want to learn more about MikroTik's technology. The MTCNA Certification covers topics such as network architecture, routing, wireless networking, and network security. It is designed to help individuals become proficient in using MikroTik's RouterOS software to build and manage networks.

MikroTik Certified Network Associate Exam Sample Questions (Q200-Q205):

NEW QUESTION # 200
Using wireless connect-list it's possible to prioritize connection to one Access Point over another Access Point by changing the order of the entries.

- A. False
- B. True

Answer: A

NEW QUESTION # 201
Router has wireless and ethernet client interfaces, all client interfaces are bridged. To create a DHCP service for all clients, DHCP server must be configured on:

- A. Every bridge port
- B. DHCP service is not possible in this setup
- C. Ethernet and wireless interfaces
- D. Only on the bridge interface

Answer: D

Explanation:
When you place multiple interfaces (ethernet, wlan) into a bridge, the bridge interface becomes the logical Layer 3 interface. Any IP-related services (e.g., DHCP server, firewall rules) must be applied to the bridge interface, not the individual ports.
* A.#Incorrect - IP services are not bound to physical ports in a bridged setup.
* B.#Incorrect - DHCP works perfectly in this setup.
* C.#Incorrect - The bridge ports are Layer 2; DHCP must bind to the Layer 3 bridge interface.
* D.#Correct - Configure the DHCP server on the bridge interface.
Extract from Official MTCNA Course Material - Bridging and DHCP:
"When using a bridge interface with multiple ports, IP services (like DHCP) must be bound to the bridge itself." Extract from Rene Meneses MTCNA Study Guide - Bridging Concepts:
"DHCP server should be created on the bridge interface if it includes both wireless and ethernet clients." Extract from MikroTik Wiki - DHCP Server:
"Always assign the DHCP server to the bridge interface when clients are behind bridged ports."

NEW QUESTION # 202
[VLAN Management - VTP and Cisco Switching] Which one of the following is true regarding VLANs?

- A. Two VLANs are configured by default on all Cisco switches.
- B. VLANs only work if you have a complete Cisco switched internetwork. No off-brand switches are allowed.
- C. You should not have more than 10 switches in the same VTP domain.
- D. VTP is used to send VLAN information to switches in a configured VTP domain.

Answer: D

Explanation:
VTP (VLAN Trunking Protocol) is a Cisco proprietary protocol used to manage and propagate VLAN information throughout a switch fabric. It helps maintain consistency across switches by distributing VLAN configurations from a VTP server to client switches in the same domain.
Cisco Switching Guide - VTP Concepts:
"VTP advertises VLAN definitions on a LAN to ensure consistency. It reduces misconfigurations by centralizing VLAN management." Rene Meneses MTCNA Study Guide - VLAN and VTP Notes:
"VTP sends VLAN updates across switches in the same VTP domain. Switches must be compatible and share the domain name."
Breakdown:
* A: Only VLAN 1 exists by default
* B: VLANs are not Cisco-exclusive
* C: There is no limit of 10 switches in a VTP domain
* D:#Correct

NEW QUESTION # 203
When sending out an ARP request, an IP host is expecting what kind of address for an answer?

- A. IP address
- B. MAC Address
- C. 802.11g
- D. VLAN ID

Answer: B

NEW QUESTION # 204
You have a router with configuration
- Public IP :202.168.125.45/24
- Default gateway:202.168.125.1
- DNS server: 248.115.148.136, 248.115.148.137
- Local IP: 192.168.2.1/24
Mark the correct configuration on client PC to access to the Internet

- A. IP:192.168.0.1/24 gateway:192.168.2.1
- B. IP:192.168.2.253/24 gateway:202.168.0.1
- C. IP:192.168.1.223/24 gateway:248.115.148.136
- D. IP:192.168.2.115/24 gateway: 192.168.2.1
- E. IP:192.168.2.2/24 gateway:202.168.125.45

Answer: D
