

# MTCNA Visual Cert Exam & MTCNA Reliable Exam Dumps

**MTCNA Visual Cert Exam**

**ISACA Certified Information Security Manager**

**CISM Visual Cert Exam**

**Providing You Marvelous CISM Visual Cert Exam with 100% Passing Guarantee**

To work in one hour and get half of what you deserve in your career, you must start with all the Accredit ISACA CISM Exam Questions that can help you study for the CISM certification exam and clear it with a brilliant score. You can easily get these CISM Certified Information Security Manager exam questions from our site. We have acquired the best and most experienced writers to work on the CISM Exam Questions. We have a great help to ensure you get well-lit time to prepare for the CISM certification exam which you cannot waste to make time for the CISM exam questions.

**ISACA Certified Information Security Manager Sample Questions (Q63-Q68):**

**NEW QUESTION # 63**  
Which of the following should be the PRIMARY outcome of an information security program?  
A. Cost reduction  
B. Risk reduction  
C. Strategic alignment  
D. Threat reduction

**Answer: C**

**NEW QUESTION # 64**  
An organization plans to contract with an outside service provider to host its corporate web site. The ISMS requirement indicates for the information security manager is to ensure that:  
A. An audit of the service provider shows no significant weakness.  
B. the contract includes a binding service agreement (CSA) to prevent the organization's information from being compromised.  
C. The outside service provider conducts regular penetration testing.  
D. the customer should measure that the service provider will comply with security policies.

**Answer: D**

**Explanation:**  
**Explanation:**  
It is critical to include the security requirements in the contract based on the company's security policy to ensure that the security controls are implemented by the service provider. This is often a normally a one-time effort and cannot provide ongoing existence of the security. A

By years of diligent work, our experts have collected the frequent-tested knowledge into our MTCNA practice materials for your reference. By resorting to our MTCNA study guide, we can absolutely reap more than you have imagined before. We have clear data collected from customers who chose our MTCNA Actual Exam, the passing rate is 98-100 percent. So your chance of getting success will be increased greatly by our MTCNA learning quiz.

Cease to struggle and you cease to live. Only by continuous learning can we not be surpassed by others. Many people do not like to study and think that learning is a very vexing thing. This kind of cognition makes their careers stagnate. MTCNA test question will change your perception. MTCNA learning dumps aim to help students learn easily and effectively that has been developed over many years by many industry experts. For the online version, unlike other materials that limit one person online, MTCNA learning dumps does not limit the number of concurrent users and the number of online users. You can practice anytime, anywhere, practice repeatedly, practice with others, and even purchase together with others. MTCNA learning dumps make every effort to help you save money and effort, so that you can pass the exam with the least cost.

## MTCNA Reliable Exam Dumps, Trustworthy MTCNA Dumps

The scoring system of our MTCNA exam torrent absolutely has no problem because it is intelligent and powerful. First of all, our researchers have made lots of efforts to develop the scoring system. So the scoring system of the MTCNA test answers can stand the test of practicability. Once you have submitted your practice. The scoring system will begin to count your marks of the MTCNA Exam guides quickly and correctly. At the same time, there is specific space below every question for you to make notes. So you can quickly record the important points or confusion of the MTCNA exam guides.

MikroTik MTCNA (MikroTik Certified Network Associate) Certification Exam is a globally recognized accreditation that validates the skills and knowledge of network engineers and IT professionals in MikroTik routers and networking technologies. MTCNA Exam is designed to assess the candidates' understanding of MikroTik RouterOS software and their ability to configure, troubleshoot, and manage network infrastructures.

## **MikroTik Certified Network Associate Exam Sample Questions (Q77-Q82):**

### **NEW QUESTION # 77**

What is necessary for PPPoE client configuration?

- A. Interface (on which PPPoE client is going to work)
- B. ip firewall nat masquerade rule
- C. Static IP address on PPPoE client interface

**Answer: A**

### **NEW QUESTION # 78**

MikroTik RouterOS is sending logs to an external syslog server. Which protocol and port is used by RouterOS for sending logs (by default)?

- A. TCP 110
- B. UDP 21
- C. UDP 514
- D. UDP 113

**Answer: C**

Explanation:

RouterOS uses the industry-standard syslog protocol for remote logging. By default, syslog uses UDP port 514.

MTCNA Course Material - Logging Section:

"For sending logs to a remote syslog server, RouterOS uses the syslog protocol on UDP port 514 by default." Rene Meneses MTCNA Guide - Monitoring & Logging:

"External logging is done using UDP port 514, which is the standard syslog protocol port." MikroTik Wiki - Logging Configuration: "To send logs to a remote server, configure an action of type remote with a remote address and use UDP port 514 unless otherwise changed."

Other ports:

- \* UDP 21 = FTP (not logging)
- \* UDP 113 = Ident protocol
- \* TCP 110 = POP3

Only UDP 514 is correct.

### **NEW QUESTION # 79**

You have 10 users plugged into a hub running 10 Mbps half-duplex. There is a server connected to the switch running 10 Mbps half-duplex as well. How much bandwidth does each host have to the server?

- A. 2 Mbps
- B. 100 kbps
- C. 1 Mbps
- D. 10 Mbps

**Answer: D**

#### Explanation:

When using a hub, all connected devices share the total bandwidth. Since it's a 10 Mbps half-duplex hub, all 10 users share the same collision domain and 10 Mbps. However, when calculating potential access to the server from any single host, each host can use the full 10 Mbps - as long as no other users are transmitting simultaneously.

More importantly, the connection to the server is also 10 Mbps half-duplex, so regardless of the internal collisions, each client could use the full 10 Mbps to the server - just not concurrently with others.

#### Cisco CCNA Curriculum - Hubs and Bandwidth Sharing:

"In a hub, all ports share bandwidth. However, each host is capable of utilizing the full bandwidth if no contention exists." Rene Meneses MTCNA Study Guide - Hub Limitations:

"A hub provides shared bandwidth, but each device can use the full rate momentarily, assuming no collisions." Hence, the correct answer is based on potential - not divided bandwidth.

#### NEW QUESTION # 80

Domain name system (DNS) requests can use protocol/port:

- A. TCP port 53
- B. UDP

**Answer: A,B**

#### NEW QUESTION # 81

Mark the queue types that are available in RouterOS

- A. SFQ - Stochastic Fairness Queueing
- B. DRR - Deficit Round Robin
- C. FIFO - First In First Out (for Bytes or for Packets)
- D. PCQ - Per Connection Queueing
- E. RED - Random Early Detect (or Drop)
- F. LIFO - Last In First Out

**Answer: A,C,D,E**

#### Explanation:

MikroTik RouterOS offers several queuing types under /queue type. These queuing algorithms manage how packets are buffered and sent, affecting fairness, delay, and throughput.

Available queue types in RouterOS:

- \* SFQ (Stochastic Fairness Queueing) #
- \* FIFO (First In First Out - for bytes or packets) #
- \* PCQ (Per Connection Queueing) #
- \* RED (Random Early Detection/Drop) #

Unavailable queue types:

- \* DRR# - Not supported by RouterOS
- \* LIFO# - Not supported; not suitable for networking queues

Extract from Official MTCNA Course Material - Queue Types:

"RouterOS supports PCQ, SFQ, RED, FIFO, and more. DRR and LIFO are not implemented." Extract from Rene Meneses MTCNA Study Guide - Traffic Management:

"Only PCQ, FIFO, SFQ, RED are listed under /queue type. DRR and LIFO do not appear in the supported list." Extract from MikroTik Wiki - Queue Types:

"Supported types include FIFO, PCQ, RED, and SFQ. Each has specific use cases for latency or fairness."

#### NEW QUESTION # 82

.....

However, you should keep in mind that to get success in the MTCNA certification exam is not a simple and easy task. A lot of effort, commitment, and in-depth MikroTik Certified Network Associate Exam (MTCNA) exam questions preparation is required to pass this MTCNA Exam. For the complete and comprehensive MikroTik Certified Network Associate Exam (MTCNA) exam dumps preparation you can trust valid, updated, and MTCNA Questions which you can download from the TestkingPass platform

quickly and easily.
