You must pay more attention to the NCLEX NCLEX-RN Study Materials. In order to provide all customers with the suitable study materials, a lot of experts from our company designed the NCLEX-RN training materials.

The Preparation Guide for NCLEX-RN Exam

NCLEX-RN Exam Study guide

There is a brief overview for the NCLEX-RN Exam

The NCLEX-RN® exam is the licensure examination administered by the National League for Nursing (NLN) for the purpose of determining the competency of nursing personnel. The test is based on the national core curriculum standards for nursing and requires a knowledge and application of basic nursing principles. The exam consists of three parts: Part 1: Multiple choice questions, Part 2: Essay, and Part 3: Clinical skills. The multiple-choice questions cover the four major categories: assessing, planning, implementing, and evaluating care; nursing diagnoses and evaluation; health promotion, maintenance, and illness prevention; and health assessment, planning, implementation, and evaluation. You'll need to know the difference between a nursing diagnosis and problem list, and why it's important to identify problems and interventions. **NCLEX-RN Dumps** are the preferred study tools for any nurse looking to pass the test.

NCLEX - Trustable NCLEX-RN - National Council Licensure Examination(NCLEX-RN) Sample Questions Pdf

The price of the NCLEX-RN test dumps is quite reasonable, no matter you are the students or the employees of the enterprise, you can afford it. NCLEX-RN test dumps are verified by the specialists of the business, therefore the quality is ensured. Pass guarantee and money back guarantee for purchasing the NCLEX-RN Test Dumps. Other questions or problem of the product can consult the live chat service staff or by email, we will reply you immediately.

What is the purpose of the NCLEX-RN® Exam?

Industry recognized credentials (BLS, ACLS, PALS) are also included in the exam. Ready to be a nurse, you need to pass the NCLEX-RN® exam. Demo testing is available. Fail the exam and your future career as a nurse is jeopardized. Weight gain and weight loss, pregnancy and labor, medical problems, and death all play a role in how you do on the NCLEX-RN® exam. Service staff has the ability to change the score for students who do not answer questions. Accurate answers to every question are necessary for passing the NCLEX-RN® exam. Sufficient to pass (50 percent or more) is not sufficient. You must receive a passing score to be licensed to practice as a nurse. Passing scores are different on each test date, so make sure you study!

NCLEX National Council Licensure Examination(NCLEX-RN) Sample Questions (Q417-Q422):

NEW QUESTION # 417

The nurse is assisting a 4th-day postoperative cholecystectomy client in planning her meals for tomorrow's menu. Which vitamin is the most essential in promoting tissue healing?

- A. Vitamin A
- **B. Vitamin C**
- C. Vitamin D
- D. Vitamin B1

Answer: B

Explanation:

Section: Questions Set D

Explanation:

(A) Vitamin C (ascorbic acid) is essential in promoting wound healing and collagen formation. (B) Vitamin B1 (thiamine) maintains normal gastrointestinal (GI) functioning, oxidizes carbohydrates, and is essential for normal functioning of nervous tissue. (C) Vitamin D regulates absorption of calcium and phosphorus from the GI tract and helps prevent rickets. (D) Vitamin A is necessary for the formation and maintenance of skin and mucous membranes. It is also essential for normal growth and development of bones and teeth.

NEW QUESTION # 418

A male client receives 10 U of regular human insulin SC at 9:00 AM. The nurse would expect peak action from this injection to occur at:

- A. 10:30 AM
- B. 9:30 AM
- **C. 12 noon**
- D. 4:00 PM

Answer: C

Explanation:

Section: Questions Set A

Explanation:

(A) This is too early for peak action to occur. (B) This is too early for peak action to occur. (C) Regular insulin peak action occurs 2-4 hours after administration. (D) This is too late for peak action to occur.

NEW QUESTION # 419

A 29-year-old client delivered her fifth child by the Lamaze method and developed a postpartal hemorrhage in the recovery room. What are the initial symptoms of shock that she may experience?

- A. No urinary output, tachycardia, and restlessness
- **B. Rapid pulse; narrowed pulse pressure; cool, moist skin**
- C. Decreased systolic pressure, cold skin, and anuria
- D. Marked elevation in blood pressure, respirations, and pulse

Answer: B

Explanation:

Explanation/Reference:

Explanation:

(A) Early shock does not exhibit the symptom of marked elevation in blood pressure. A narrowing of the pulse pressure is indicative of early shock. (B) Anuria is a clinical finding in late shock. (C) All of these clinical findings are congruent with early shock. (D) Absence of urinary output is a clinical finding in the late phase of shock.

NEW QUESTION # 420

A 23-year-old borderline client is admitted to an inpatient psychiatric unit following an impulsive act of self-mutilation. A few hours after admission, she requests special privileges, and when these are not granted, she stands up and angrily shouts that the people on the unit do not care, and she storms across the room.

The nurse should respond to this behavior by:

- **A. Communicating a desire to assist the client to regain control, offering a one-to-one session in a quiet area**
- B. Confronting the client, letting her know the consequences for getting angry and disrupting the unit
- C. Walking up to the client and touching her on the arm to get her attention
- D. Placing her in seclusion until the behavior is under control

Answer: A

Explanation:

Explanation/Reference:

Explanation:

(A) Threatening a client with punitive action is violating a client's rights and could escalate the client's anger. (B) Angry clients need respect for personal space, and physical contact may be perceived as a threatening gesture escalating anger. (C) Client lacks sufficient self-control to limit own maladaptive behavior; she may need assistance from staff. (D) Confronting an angry client may escalate her anger to further acting out, and consequences are for acting out anger aggressively, not for getting angry or feeling angry.

NEW QUESTION # 421

A male client is scheduled for a liver biopsy. In preparing him for this test, the nurse should:

- A. Practice with him so he will be able to hold his breath for 1 minute
- **B. Explain that his vital signs will be checked frequently after the test**
- C. Explain that he will be kept NPO for 24 hours before the exam
- D. Explain that he will be receiving a laxative to prevent a distended bowel from applying pressure on the liver

Answer: B

Explanation:

Explanation

(A) There is no NPO restriction prior to a liver biopsy. (B) The client would need to hold his breath for 5-10 seconds. (C) There is no pretest laxative given. (D) Following the test, the client is watched for hemorrhage and shock.
