

NCP-US Real Dumps Free - Latest NCP-US Learning Material

P.S. Free & New NCP-US dumps are available on Google Drive shared by TestkingPDF: <https://drive.google.com/open?id=1zYGDHRPVybay8qTlkdT0e8gwniTPrciG>

To meet the different and specific versions of consumers, and find the greatest solution to help you review, we made three versions for you. Three versions of NCP-US prepare torrents available on our test platform, including PDF version, PC version and APP online version. The trait of the software version is very practical. It can simulate real test environment, you can feel the atmosphere of the NCP-US Exam in advance by the software version, and install the software version several times. PDF version of NCP-US exam torrents is convenient to read and remember, it also can be printed into papers so that you are able to write some notes or highlight the emphasis. PC version of our NCP-US test braindumps only supports windows users and it is also one of our popular types to choose.

The NCP-US certification exam is highly recognized in the industry and is a valuable asset for IT professionals seeking to advance their career in the field of storage administration. Nutanix Certified Professional - Unified Storage v6.5 certification exam is designed to assess the candidate's ability to manage Nutanix storage solutions in real-world scenarios, including data protection, performance tuning, and troubleshooting. NCP-US Exam is also designed to validate the candidate's knowledge of Nutanix storage architecture, features, and functionality.

Latest Nutanix NCP-US Learning Material, NCP-US Online Version

Once you browser our official websites, you are bound to love our NCP-US practice questions. All our NCP-US study materials are displayed orderly on the web page. Also, you just need to click one kind; then you can know much about it. There have detailed introductions about the NCP-US learnign braindumps such as price, version, free demo and so on. As long as you click on it, all the information will show up right away. It is quite convenient.

Nutanix Certified Professional - Unified Storage v6.5 Sample Questions (Q86-Q91):

NEW QUESTION # 86

An administrator would like to get notified by email of unusual behavior related to permission changes on their corporate file shares. How would the administrator configure File Analytics to receive notifications in a timely fashion?

- A. Create an Alert Policy
- B. Configure Events Quotas
- **C. Define Anomaly Rules**
- D. Set Ransomware Email Recipient

Answer: C

NEW QUESTION # 87

During a Windows 2019 Failover Cluster deployment, an administrator is unable to deploy a Nutanix Files witness share.

The Nutanix Files cluster environment is as follows:

SMB shares need to be highly available

DFS is enabled for the cluster

Three FSVMs are deployed

General share type is used

WORM is disabled

What should the administrator do to resolve the issue?

- A. Enable WORM.
- B. Use homes as the share type.
- **C. Disable DFS on the share.**
- D. Use NFS for shares.

Answer: C

NEW QUESTION # 88

An administrator needs to deploy a Files cluster, create shares and make sure that users cannot upload any infected files to the shares.

Which configuration will fulfill this requirement?

- A. NFS share with File Analytics deployed.
- B. SMB share with ICAP server integration
- C. SMB share with File Analytics deployed.
- **D. NFS share with ICAP server integration.**

Answer: D

Explanation:

Nutanix Files is a file storage service that supports SMB and NFS protocols. Access Based Enumeration (ABE) is a Windows feature that filters the list of available files and folders on the file server to include only those that the requesting user can access. Nutanix Files also supports replication to a DR site using Async DR.

NEW QUESTION # 89

An administrator has deployed a new Files cluster within a Windows Environment.

After some days, the Files environment is not able to synchronize users with the Active Directory server anymore. The administrator observes a large time difference between the Files environment and the Active Directory Server that is responsible for the behavior. How should the administrator prevent the Files environment and the AD Server from having such a time difference in future?

- A. Use 0.pool.ntp.org as the NTP Server for the AD Server.
- **B. Use the same NTP Servers for the File environment and the AD Server.**
- C. Connect to every FSVM and edit the time manually.
- D. Use 0.pool.ntp.org as the NTP Server for the Files environment.

Answer: B

NEW QUESTION # 90

Which two network requirements must an administrator take into consideration for a new scale-out Files cluster when configuring and defining separate client and storage networks? (Choose two.)

- A. Ensure there is one IP address available for the storage network.
- B. The client and storage networks must have different subnet.
- C. Ensure the client and storage networks use a tagged VLAN.
- D. Ensure there is one IP address available for client network.

Answer: A,B

Explanation:

These are two essential requirements that an administrator must take into consideration when configuring separate client and storage networks.

these are some of the network requirements that an administrator must take into consideration for a new scale-out Files cluster when configuring and defining separate client and storage networks:

The client and storage networks must have different subnets¹². This is because FSVMs use IP addresses from both networks, so they must be distinct to avoid conflicts.

Ensure there are enough IP addresses available for both networks¹². This is because each FSVM requires one IP address from each network, plus one virtual IP address (VIP) per network per cluster. For example, if you have a three-node cluster with three FSVMs, you need six IP addresses for the client network (three for FSVMs and three for VIPs) and six IP addresses for the storage network (three for FSVMs and three for VIPs).

Ensure the client and storage networks use tagged VLANs if they share physical interfaces¹. This is because VLAN tagging allows multiple logical networks to coexist on a single physical interface without interfering with each other.

Ensure there are no firewall rules or port blocking that prevent communication between clients, FSVMs, CVMs and Prism

Element¹. This is because Nutanix Files uses various ports for different protocols and services such as SMB, NFS, NTP, DNS etc.

NEW QUESTION # 91

.....

The web-based Nutanix Certified Professional - Unified Storage v6.5 NCP-US practice exam is also compatible with Chrome, Microsoft Edge, Internet Explorer, Firefox, Safari, and Opera. If you want to assess your NCP-US Test Preparation without software installation, the NCP-US web-based practice exam is ideal for you. And Nutanix offers 365 days updates.
