NCS-Core Exam Overview | NCS-Core Reliable Test Practice

God always helps those who help themselves. It is impossible to make great fortune overnight. Enough preparation and efforts are needed when you come across an opportunity. So we suggest that you learn our NCS-Core latest training material, which can help

broaden your knowledge. Nowadays, lifelong learning has got wide attention. The much knowledge you learn, the better chance you will have. Our NCS-Core practice material suits you best. You can elevate your ability in a short time. Then you can apply what you have learned on our NCS-Core test engine into practice. We warmly welcome you to purchase our study guide.

Nutanix Certified Services Core Infrastructure Professional Sample Questions (Q85-Q90):

NEW QUESTION # 85

A customer already has a Prism Central (PC) instance deployed in their environment and expects the consultant to unregister the old cluster before registering the new cluster What steps should the consultant take to safely and successfully unregister the customer's former cluster from PC?

- A. Login to the PC Web UI, locate the PE cluster and click Unregister from the Actions dropdown menu.
- B. Login to any CVM using SSH and use the multicluster command found within NCLi, followed by the unregistration_cleanup.py script on PE and PC.
- C. Login to the PC Web UI, navigate to Cluster Registrations found under settings in the Admin Center, check the box next to the desired PE. and click Remove
- D. Login to any PCVM using SSH and run the PE_unreglster.py script located in the Nutanix scripts directory, followed by the unregistratlon_cleanup.py script

Answer: C

Explanation:
To safely and successfully unregister the customer's former cluster from Prism Central (PC), the consultant should take the following steps as outlined in option D:
* Login to the Prism Central Web UI, which provides a user-friendly interface for managing multiple clusters.
* Navigate to the "Cluster Registrations" section found under the "Settings" in the "Admin Center" of the Prism Central interface.
* Check the box next to the desired Prism Element (PE) cluster that needs to be unregistered.
* Click the "Remove" button to unregister the cluster.
This method allows the consultant to cleanly and directly manage the cluster registration without needing to interact with command-line tools or scripts, making it a straightforward process that minimizes the risk of errors and ensures that the operation can be tracked and audited through the UI.
References: Nutanix Prism Central Guide, Nutanix Administration Documentation.

NEW QUESTION # 86

Anadministrator recently added VLAN 205 CRM in Prism Element. The workloads attached to the associated NICs are unable to establish network connectivity.
Which Layer 2 protocol allows the administrator to troubleshoot this issue from Prism Element?

- A. LLDP
- B. SUP
- C. LACP
- D. HDLC

Answer: A

Explanation:

NEW QUESTION # 87

A customer would like to re-image an existing cluster. The Foundation Applet and Foundation VM is unavailable to them.
How can the consultant access Foundation-as-a-Service (FaaS)?

- A. Through <CVM-IP> :9443
- B. Through <CVM-IP> :8000
- C. Through <cluster-IP> :9443
- D. Through <cluster-IP> :8000

Answer: B

NEW QUESTION # 88

Over the period of 2 to 3 weeks, a cluster displays the following:
*Periods where Warning Alerts of memory usage over 75% are asserted
*Periods where Critical Warnings of memory usage over 90% are asserted
*Periods of slow of frozen VDI desktops have caused work stoppage or slowdown
*VDI clones have periodically not powered up when called, causing work stoppage Which steps should be used to prioritize the administrator's troubleshooting efforts?

- A. *Review Analysis Page for memory use pattern
  *Alert with VDI workload demand
  *Analyze current and future workload in the Capacity Runaway tab for sufficient resources
- B. *Assess resource health on Hardware page
  *Review the Analysis page for memory usage demand
  *Determine the VDI workload-to-host affinity across the cluster
- C. *Check Analysis page for CPU demand
  *Verify VDI workload property for memory subscription
  *Review the Hardware page to determine if the cluster has sufficient RAM
- D. *Analyze Alert Pages for a root cause of memory problem
  *Analyze VM table page to access the VM functionality
  *Analyze the VDI Clone properties for possible VDI Workload stress

Answer: A

Explanation:
For the scenario with memory usage warnings and VDI performance issues, the best approach is to analyze and understand the memory usage patterns and demands on the system. Option D focuses on reviewing the Analysis page to monitor memory use trends and patterns, which is crucial for identifying peak usage times or processes consuming excessive memory. The mention of alerting with VDI workload demand implies the need to monitor and possibly adjust the VDI workload to better fit within available resources. Finally, analyzing current and future workload in the Capacity Runaway tab helps in understanding if the cluster resources are sufficient for the demand, which is critical in planning for capacity management and ensuring that such issues are mitigated moving

forward.References: Nutanix Prism User Guide, Nutanix Community resources, VDI performance troubleshooting practices.

NEW QUESTION # 89
A consultant is planning an installation and needs to collect configuration items to be used during the install.
The data needed from the customer are IP addresses, Gateway, DNS servers, and NTP Servers.
Which Cluster Deployment document must be completed with the customer?

- A. Questionnaire
- B. Technical Checklist
- C. Operations Guide
- D. Project Plan

Answer: B

Explanation:
The document that needs to be completed with the customer to collect configuration items such as IP addresses, Gateway, DNS servers, and NTP Servers is the Technical Checklist. This checklist is designed to ensure all necessary technical information is gathered prior to the installation, enabling a smooth and efficient setup process.References: Nutanix Cluster Deployment Guide, Pre-installation Planning Documentation.

NEW QUESTION # 90
......

What you can get from the NCS-Core certification? Of course, you can get a lot of opportunities to enter to the bigger companies. After you get more opportunities, you can make full use of your talents. You will also get more salary, and then you can provide a better life for yourself and your family. NCS-Core Exam Preparation is really good helper on your life path. Quickly purchase NCS-Core study guide and go to the top of your life!
