

Network Appliance Latest NS0-005 Examprep & Prep4cram - Leader in Qualification Exams

The NetApp Technology Solutions Professional Exam (NS0-005) Exam Questions offered by Prep4cram provide you with a good idea of what you can expect in the NS0-005 exam from Network Appliance. All the NS0-005 exam topics and objectives are well covered by our product. Thus, Prep4cram Network Appliance NS0-005 Practice Questions are considered a very good resource that will help you in your practicing by focusing on your weak points and strengthening them to easily pass the NS0-005 exam.

In order to help customers solve problems, our company always insist on putting them first and providing valued service. We deeply believe that our NS0-005 question torrent will help you pass the exam and get your certification successfully in a short time. Maybe you cannot wait to understand our NS0-005 Guide questions; we can promise that our products have a higher quality when compared with other study materials. At the moment I am willing to show our NS0-005 guide torrents to you, and I can make a bet that you will be fond of our products if you understand it.

Network Appliance NS0-005 Reliable Test Braindumps - New NS0-005 Test Voucher

As we all know, HR form many companies hold the view that candidates who own a NS0-005 professional certification are preferred, because they are more likely to solve potential problems during work. And the NS0-005 certification vividly demonstrates the fact that they are better learners. As for candidates who possessed with a NS0-005 professional certification are more competitive. The current word is a stage of science and technology, social media and social networking has already become a popular means of NS0-005 Exam Materials. As a result, more and more people study or prepare for exam through social networking. By this way, our NS0-005 learning guide can be your best learn partner.

Network Appliance NetApp Technology Solutions Professional Exam Sample Questions (Q21-Q26):

NEW QUESTION # 21

What are two NetApp on-premises data storage systems that can be discovered and managed in NetApp BlueXP? (Choose two.)

- A. Astra Data Store
- B. Element clusters
- C. StorageGRID
- D. E-Series

Answer: C,D

Explanation:

A). E-Series: NetApp E-Series is a line of high-performance storage systems that are known for their reliability and efficiency, especially in data-intensive environments. These systems can be managed and monitored through NetApp BlueXP, allowing for centralized management and visibility.

D). StorageGRID: NetApp StorageGRID is an object storage solution designed for managing large-scale unstructured data. It is suitable for hybrid cloud environments and can be integrated with NetApp BlueXP for management and monitoring, providing a comprehensive view of data across various storage environments.

NEW QUESTION # 22

What are two benefits of configuring Advanced Disk Partitioning (ADP) on an AFF or FAS system? (Choose two.)

- A. increased deduplication efficiencies
- B. optimized storage capacity
- C. decreased disk failure rate
- D. reduced RAID parity overhead
- E. increased disk performance

Answer: B,D

Explanation:

Advanced Disk Partitioning (ADP) is a feature that enables ONTAP to partition a disk into multiple logical units and use them for different purposes.

ADP has two main benefits for AFF or FAS systems:

- It optimizes storage capacity by reducing the number of disks required for the root aggregates, which store the system and configuration data. By using ADP, the root aggregate can share the same disk with a data aggregate, which stores the user data. This frees up more disks for data aggregates and increases the usable space for data.
- It reduces RAID parity overhead by creating smaller RAID groups with partitions instead of whole disks. This reduces the amount of parity data that needs to be written and read, which improves the performance and efficiency of the system.

References = What are the rules for Advanced Disk Partitioning?, Considerations for automatic drive assignment and ADP systems in ONTAP 9.4 and later, NetApp AFF and Advanced Drive Partition v2, part 1

NEW QUESTION # 23

A customer wants to modernize the SAN environment and transition iSCSI-based workloads to NVMe-over-TCP. Which NetApp storage systems should be used to meet these requirements?

- A. ONTAP software
- B. Element software
- C. SANtricity OS
- D. StorageGRID

Answer: A

Explanation:

ONTAP software is a NetApp storage system that supports NVMe-over-TCP, which is a protocol that allows remote direct memory access for data using an Ethernet TCP link. ONTAP software enables customers to upgrade their iSCSI-based workloads to NVMe-over-TCP without requiring any special hardware or network changes. ONTAP software also provides other benefits such as data protection, efficiency, and scalability for SAN environments.

References = Announcing NVMe/TCP for ONTAP, NetApp brings NVMe over TCP to ONTAP via the iSCSI upgrade path, What Is NVMe? - Benefits & Use Cases

NEW QUESTION # 24

A company has a large data set that is used at many branch offices worldwide. An administrator needs a solution to save frequently used data locally and centrally lock files for real-time collaboration.

Which two NetApp solutions can be used to meet these requirements? (Choose two.)

- A. BlueXP copy and sync
- B. BlueXP edge caching
- C. Cloud Volumes Service
- D. SnapLock Enterprise
- E. FlexCache

Answer: B,E

Explanation:

B). BlueXP edge caching: Similar to FlexCache, BlueXP edge caching is designed to extend data fabric by caching data from a centralized data store to edge locations, such as branch offices. It allows for efficient access to frequently used data and can help improve performance for users at remote sites by caching data closer to where it's used.

C). FlexCache: FlexCache is a feature in NetApp ONTAP that enables the creation of a cache volume on a secondary system to provide faster access to a subset of data. This is particularly useful for scenarios where there is a need to access frequently used data across multiple locations. FlexCache can help in reducing latency and bandwidth costs by caching data locally at each branch office while maintaining a central source of truth.

NEW QUESTION # 25

A company wants to protect the files on their NetApp ONTAP based storage system from ransomware using an external process. If an attack is detected, a Snapshot copy is created, and the Microsoft Active Directory (AD) user access is blocked.

Which ONTAP feature enables this functionality?

- A. TLS
- B. Vscan
- C. IPsec
- **D. FPolicy**

Answer: D

Explanation:

FPolicy is an ONTAP feature that enables this functionality. FPolicy is a file access notification framework that allows external applications to monitor and control file access on ONTAP storage systems¹. FPolicy can be used to protect files from ransomware by integrating with third-party solutions that use user behavioral analytics (UBA) to detect abnormal activity and trigger actions such as creating a Snapshot copy and blocking the AD user access²³. FPolicy can also be activated with a single click from BlueXP or ONTAP System Manager to protect against common ransomware extensions⁴.

References = 1: FPolicy overview - NetApp, 2: Prevent ransomware spread with ONTAP automatic ransomware protection, 3: Fighting Ransomware, Part Six: Remediation, 4: Proactive ransomware protection-automated with ONTAP - NetApp.

NEW QUESTION # 26

.....

We committed to providing you with the best possible NetApp Technology Solutions Professional Exam (NS0-005) practice test material to succeed in the Network Appliance NS0-005 exam. With real NS0-005 exam questions in PDF, customizable Network Appliance NS0-005 practice exams, free demos, and 24/7 support, you can be confident that you are getting the best possible NS0-005 Exam Material for the test. Buy today and start your journey to NetApp Technology Solutions Professional Exam (NS0-005) exam success with Prep4cram!

NS0-005 Reliable Test Braindumps: https://www.prep4cram.com/NS0-005_exam-questions.html

Great working can be done for the NS0-005 Network Appliance NetApp NCTS updated audio lectures by using Prep4cram's NS0-005 online audio training and Prep4cram's NS0-005 latest exam questions and answers and if you give these products proper chance then they will surely support and guide you in the right manner, Network Appliance Latest NS0-005 Exam prep If you are a training school, it is suitable for your teachers to present and explain casually.

Are you handing them a release form with that CD because you need to control how they are using those images, If you still hesitate about choosing which company's NS0-005 latest exam dumps file, we Prep4cram will be an excellent choice.
