### Convenient and Accessible Network Appliance NS0-528 Exam Questions in PDF Format

Do you want to try our free demo of the NS0-528 study questions? Your answer must be yes. So just open our websites in your computer. You will have easy access to all kinds of free trials of the NS0-528 practice materials. You can apply for many types of NS0-528 Exam simulation at the same time. Once our system receives your application, it will soon send you what you need. Please ensure you have submitted the right email address. And you will have the demos to check them out.

## Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q176-Q181):

#### **NEW QUESTION #176**

You have a NAS volume that contains 250 GB of data with a daily change rate of 10%. You want to keep seven daily Snapshot copies.

In this scenario, what should the minimum copies of the volume be?

- A. 325 GB
- B. 550 GB
- C. 425 GB
- D. 250 GB

Answer: B

You want to use SnapCenter to restore an MS SQL database on iSCSI LUNs from a previous application-consistent snapshot. In this scenario, what is required to accomplish this task?

- A. Confirm multipathing for iSCSI is enabled on the host.
- B. Confirm that the database server is not running on the host.
- C. Confirm that the database server is running on the host.
- D. Confirm that the iSCSI service is disabled on the host.

#### Answer: C

#### **NEW QUESTION #178**

You need to upgrade to NetApp ONTAP 9.12.1 software on your source cluster in a SnapMirror relationship. The source cluster differs from the destination cluster and you want to take advantage of version-flexible SnapMirror replication. Which option should you choose?

- A. Delete the XDP-type relationship and create a new DP-type relationship.
- B. SnapMirror automatically converts existing DP-type relationships to XDP-type relationships.
- C. Delete the DP-type relationship and create a new XDP-type relationship.
- D. Run the command snapmirror resync and set the type to XDP.

#### Answer: C

#### Explanation:

To take advantage of version-flexible SnapMirror (introduced with XDP-type relationships), you must delete the existing DP-type relationship and create a new one using type XDP. DP-type relationships do not support version flexibility, which allows the source and destination clusters to run different ONTAP versions.

#### **NEW QUESTION #179**

You are the administrator of an ONTAP 9.7 cluster. You configured an hourly Snapshot schedule for all volumes. One of your users accidentally deleted an important spreadsheet file on an SMB share. This file must be restored within a minimum amount of time. Which two actions satisfy this requirement? (Choose two.)

- A. In Windows Explorer, right-click on the SMB share where the file was deleted, go to "Previous Versions" and select the file, then copy it to the original location.
- B. On the cluster CLI, issue the volume clone restore command.
- C. On the cluster CLI, issue the volume snapshot restore-file command.
- D. In ONTAP System Manager, navigate to the volume where the share resides, click on "Snapshot Copies" and restore the latest Snapshot copy.

#### Answer: A,C

#### **NEW QUESTION # 180**

A user has a NAS volume backed up with NetApp Snapshot copies. They have a large important database file that has been locked by a ransomware attack. The rest of the files on the volume seem completely fine so they only need to be able to restore this specific database. They are currently unable to restore this file, because of a lack of free space in the volume.

In this scenario, which action would allow the client to restore the file to a known good condition?

- A. Expand the FlexVol, then perform a single file SnapRestore.
- B. Expand the Aggregate, then perform a single file SnapRestore.
- C. Enable Autogrow on the volume, and perform a full SnapRestore.
- D. Create a FlexClone from a Snapshot copy, and manually copy the file back over the original.

#### Answer: A

#### **NEW QUESTION #181**

••••

The passing rate of our NS0-528 exam materials are very high and about 99% and so usually the client will pass the exam successfully. But in case the client fails in the exam unfortunately we will refund the client immediately in full at one time. The refund procedures are very simple if you provide the NS0-528 exam proof of the failure marks we will refund you immediately.
