- A. Integration scenarios via the Business Accelerator Hub
- **B. The Digital Discovery Assessment**
- **C. Existing WBS structures**
- D. Joule studio

Antwort: B,C

Begründung:

Estimating effort for an SAP S/4HANA Cloud Public Edition implementation requires tools and references to ensure accuracy. Validation of these estimates leverages specific SAP accelerators and project management artifacts.

* Option A: The Digital Discovery AssessmentCorrect. The Digital Discovery Assessment (DDA) provides insights into project scope, complexity, and requirements, serving as a baseline for effort estimation. TheSAP S/4HANA Cloud Implementation Guidestates, "The Digital Discovery Assessment is a key tool for validating effort estimates, as it outlines the project scope, integration needs, and timelines, enabling accurate resource planning."

* Option B: Joule studioIncorrect. SAP Joule is a generative AI assistant for user support, not a tool for effort estimation. TheSAP S/4HANA Cloud Study Guidenotes, "SAP Joule provides digitalassistance, not project management or estimation capabilities."

* Option C: Integration scenarios via the Business Accelerator HubIncorrect. The Business Accelerator Hub provides integration content but is not used for effort estimation. TheSAP Business Accelerator Hub Guideclarifies, "The Business Accelerator Hub supports integration planning, not effort estimation validation."

* Option D: Existing WBS structuresCorrect. Work Breakdown Structures (WBS) from previous projects provide a reference for task durations and resource needs. TheSAP Activate Methodology Guide explains, "Existing WBS structures from similar projects can be used to validate effort estimates, offering a proven framework for task and resource planning." Extract from Official

Documentation:

* SAP S/4HANA Cloud Implementation Guide(SAP Help Portal,<https://help.sap.com>): "The Digital Discovery Assessment provides a comprehensive view of project requirements, serving as a critical tool for validating effort estimates during SAP S/4HANA Cloud implementation planning."
