

New 1Z0-1072-25 Test Braindumps, 1Z0-1072-25 High Passing Score

BONUS!!! Download part of Dupleader 1Z0-1072-25 dumps for free: <https://drive.google.com/open?id=19QwBuTliDrPA7rJETBvrBm2qoHqCBg7m>

Many customers may be doubtful about our price. The truth is our price is relatively cheap among our peer. The inevitable trend is that knowledge is becoming worthy, and it explains why good 1Z0-1072-25 resources, services and data worth a good price. We always put our customers in the first place. Thus we offer discounts from time to time, and you can get 50% discount at the second time you buy our 1Z0-1072-25 question dumps after a year. Lower price with higher quality, that's the reason why you should choose our 1Z0-1072-25 prep guide.

In order to make sure your whole experience of buying our 1Z0-1072-25 prep guide more comfortable, our company will provide all people with 24 hours online service. The experts and professors from our company designed the online service system for all customers. If you decide to buy the 1Z0-1072-25 study braindumps from our company, we can make sure that you will have the opportunity to enjoy the best online service provided by our excellent online workers. If you purchasing the 1Z0-1072-25 Test Practice files designed by many experts and professors from our company, we can promise that our online workers are going to serve you day and night during your learning period. If you have any questions about our study materials, you can send an email to us, and then the online workers from our company will help you solve your problem in the shortest time. So do not hesitate to buy our 1Z0-1072-25 prep guide.

1Z0-1072-25 High Passing Score | 1Z0-1072-25 Reliable Test Camp

The 1Z0-1072-25 study materials from our company are compiled by a lot of excellent experts and professors in the field. In order to help all customers pass the exam in a short time, these excellent experts and professors tried their best to design the study version, which is very convenient for a lot of people who are preparing for the 1Z0-1072-25 Exam. You can find all the study materials about the exam by the study version from our company.

Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q49-Q54):

NEW QUESTION # 49

Which TWO statements about the Oracle Cloud Infrastructure (OCI) File Storage Service are accurate?

- A. Customers can encrypt data in their file system using their own Vault encryption key.
- B. Customers can encrypt the communication to a mount target via export options.
- C. Communication with file systems in a mount target is encrypted via HTTPS.
- D. File systems use Oracle-managed keys by default.

Answer: A,D

Explanation:

Oracle Cloud Infrastructure (OCI) File Storage Service offers robust encryption capabilities to ensure data security.

B . Customer-Managed Encryption: Customers can choose to encrypt their data using their own keys stored in the OCI Vault service. This gives customers control over their encryption keys and enhances data security.

D . Oracle-Managed Encryption: By default, all data stored in OCI File Storage is encrypted using Oracle-managed keys. This ensures that data is encrypted at rest without requiring any action from the customer.

Incorrect Statements:

A . Communication is not encrypted via HTTPS when accessing file systems; instead, encryption in transit is typically managed via NFS over TLS.

C . Encryption of communication to a mount target is handled via network configurations, not through export options.

Reference:

Oracle Cloud Infrastructure Documentation: File Storage Encryption

NEW QUESTION # 50

Why is the Network Visualizer tool valuable for managing virtual network infrastructure on OCI?

- A. It provides detailed information about the physical network components.
- B. It visualizes the topology of all VCNS in a selected region and tenancy.
- C. It offers real-time monitoring of network traffic.
- D. It generates automated reports on network performance metrics.

Answer: B

Explanation:

The Network Visualizer tool in Oracle Cloud Infrastructure is valuable because it visualizes the topology of all Virtual Cloud Networks (VCNs) in a selected region and tenancy.

Topology Visualization: The Network Visualizer provides a graphical representation of the network components and their relationships within a VCN, including subnets, route tables, gateways, and security lists. This visualization helps users understand the network architecture and troubleshoot issues effectively.

Other Options:

Real-time monitoring of network traffic (B), detailed information about physical network components (C), and automated reports on network performance metrics (D) are not the primary functions of the Network Visualizer. These functionalities are typically handled by other OCI services or tools.

Relevant OCI Documentation:

Network Visualizer Overview

This documentation details the features and benefits of the Network Visualizer tool in OCI.

NEW QUESTION # 51

What would happen if you choose not to proactively reboot the instance before the scheduled maintenance due date?

- A. The instance is either reboot-migrated or rebuilt in place for you.
- B. The instance will get terminated.
- C. You will receive another notification to reboot within the next 14 days.
- D. You will receive another notification to reboot within the next 7 days.

Answer: A

Explanation:

In OCI, if you choose not to proactively reboot your instance before the scheduled maintenance due date, the system will handle the maintenance automatically to ensure that the instance remains operational.

Reboot-Migration or Rebuild in Place: If you don't reboot the instance yourself, OCI will automatically perform a reboot-migration or rebuild in place for the instance. This ensures that the instance is moved to new hardware or updated without your intervention, maintaining uptime and applying necessary updates or fixes.

Impact on Instance: The exact action taken (reboot-migration or rebuild in place) depends on the type of maintenance required.

However, either action will temporarily interrupt the instance, typically involving a reboot, but the instance's data and configuration will be preserved.

Relevant OCI Documentation:

Instance Maintenance

OCI Maintenance Events

These references discuss the procedures and options available for handling instance maintenance in OCI.

NEW QUESTION # 52

What is a key advantage of utilizing administrator roles for access control within OCI IAM identity domains?

- A. Can be used to grant access to resources outside the identity domain
- B. Provide granular control over user access to specific compartments
- C. Simplify access management by eliminating policy creation
- D. Offer a wider range of permission combinations

Answer: C

Explanation:

In Oracle Cloud Infrastructure (OCI) Identity and Access Management (IAM), administrator roles play a significant role in managing access:

Simplification of Access Management: Utilizing administrator roles allows you to simplify access management by eliminating the need to create complex IAM policies manually. These roles come with predefined permissions that cover common administrative tasks, reducing the effort needed to manage access controls.

Granular Control: While administrator roles provide a broad range of permissions, they may not offer the same level of granularity as custom policies.

Other Benefits:

Offer a wider range of permission combinations (A): While custom policies can offer more specific combinations, administrator roles are designed to cover a broad range of tasks.

Granting Access Outside Identity Domain (C): Administrator roles are generally scoped to their identity domain and do not provide cross-domain access.

Granular Control (D): Although administrator roles simplify management, custom policies are typically used when granular control over specific compartments or resources is needed.

Relevant OCI Documentation:

OCI IAM Roles Overview

This resource provides detailed information on how roles and policies are used in OCI to manage access.

NEW QUESTION # 53

Which components are required for establishing remote peering between two Virtual Cloud Networks (VCNs) in Oracle Cloud Infrastructure (OCI)?

- A. Two VCNs with nonoverlapping CIDRS in different regions, a dynamic routing gateway (DRG) attached to each VCN, a remote peering connection (RPC) on each DRG, and a connection established between the RPCs.
- B. Two VCNs with nonoverlapping CIDRS in the same region, a dynamic routing gateway (DRG) attached to each VCN,

and a direct connection between the DRGs.

- C. A single VCN with nonoverlapping CIDRS in each region, a dynamic routing gateway (DRG) attached to each VCN, and a direct connection between the DRGS.
- D. Two VCNs with overlapping CIDRS in different regions, a virtual private network (VPN) gateway attached to each VCN, and a direct connection between the VPN gateways.

Answer: A

Explanation:

Remote peering in Oracle Cloud Infrastructure allows two VCNs in different regions to communicate securely. To establish remote peering, the following components are required:

Two VCNs with Nonoverlapping CIDRs:

The CIDR blocks of the two VCNs must not overlap. This is crucial to avoid routing conflicts and ensure that traffic is correctly routed between the VCNs.

Dynamic Routing Gateway (DRG) Attached to Each VCN:

A DRG is a virtual router that provides a path for traffic between the VCN and networks outside the VCN, such as other VCNs via remote peering, on-premises networks, or other cloud services. Each VCN needs its own DRG.

Remote Peering Connection (RPC):

An RPC is a specialized connection on the DRG used specifically for remote peering. You need to create an RPC on each DRG associated with the VCNs you wish to peer.

Connection Between RPCs:

Finally, a connection must be established between the RPCs of the two DRGs. This connection facilitates the secure and private exchange of traffic between the VCNs over Oracle's backbone network.

Incorrect Options:

Option A involves a single VCN, which does not fulfill the requirement of remote peering between two VCNs.

Option B involves overlapping CIDRs and VPN gateways, which are incorrect for remote peering.

Option C suggests peering within the same region, which would be considered local peering rather than remote peering.

Relevant OCI Documentation:

OCI Remote VCN Peering

Dynamic Routing Gateway (DRG) Overview

These resources provide a detailed guide on configuring remote peering in OCI, ensuring secure and effective communication between VCNs across regions.

NEW QUESTION # 54

.....

Once you submit your practice, the system of our 1Z0-1072-25 exam quiz will automatically generate a report. The system is highly flexible, which has short reaction time. So you will quickly get a feedback about your exercises of the 1Z0-1072-25 preparation questions. For example, it will note that how much time you have used to finish the 1Z0-1072-25 Study Guide, and how much marks you got for your practice as well as what kind of the questions and answers you are wrong with.

1Z0-1072-25 High Passing Score: https://www.dumpleader.com/1Z0-1072-25_exam.html

Are you afraid of failing the 1Z0-1072-25 exam, Many people worry about that they have no time for practice the 1Z0-1072-25 exam dumps and the cost of test is high, It means all users get the latest and updated Oracle 1Z0-1072-25 practice material to clear the Oracle Cloud Infrastructure 2025 Architect Associate 1Z0-1072-25 certification test on the first try, In addition, 1Z0-1072-25 learning materials are edited and verified by professional experts who possess the professional knowledge for the exam, and the quality can be guaranteed.

Code Injection Attacks, Performing the right-click 1Z0-1072-25 acrobatics is barely acceptable for a single digital image, Are you afraid of failing the 1Z0-1072-25 exam, Many people worry about that they have no time for practice the 1Z0-1072-25 Exam Dumps and the cost of test is high.

2025 New 1Z0-1072-25 Test Braindumps Pass Certify | Pass-Sure 1Z0-1072-25 High Passing Score: Oracle Cloud Infrastructure 2025 Architect Associate

It means all users get the latest and updated Oracle 1Z0-1072-25 practice material to clear the Oracle Cloud Infrastructure 2025 Architect Associate 1Z0-1072-25 certification test on the first try, In addition, 1Z0-1072-25 learning materials are edited and verified by professional experts who possess the professional knowledge for the exam, and the quality can be guaranteed.

Many candidates ask us if your 1Z0-1072-25 exam resources are really valid, if our exam file is really edited based on first-hand information & professional experts and if your 1Z0-1072-25 practice test materials are really 100% pass-rate.
