

New 1Z0-1122-25 Test Duration & New 1Z0-1122-25 Exam Test

There is no exaggeration that you can be confident about your coming exam just after studying with our 1Z0-1122-25 preparation materials for 20 to 30 hours. Tens of thousands of our customers have benefited from our 1Z0-1122-25 Exam Dumps and passed their exams with ease. The data showed that our high pass rate is unbelievably 98% to 100%. Without doubt, your success is 100% guaranteed with our 1Z0-1122-25 training guide.

Oracle 1Z0-1122-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Get started with OCI AI Portfolio: This section measures the proficiency of Cloud AI Specialists in exploring Oracle Cloud Infrastructure (OCI) AI services. It provides an overview of OCI AI and machine learning services, details AI infrastructure capabilities and explains responsible AI principles to ensure ethical and transparent AI development.
Topic 2	Intro to Generative AI & LLMs: This section tests the abilities of AI Developers to understand generative AI and large language models. It introduces the principles of generative AI, explains the fundamentals of large language models (LLMs), and discusses the core workings of transformers, prompt engineering, instruction tuning, and LLM fine-tuning for optimizing AI-generated content.

Topic 3	• Intro to AI Foundations: This section of the exam measures the skills of AI Practitioners and Data Analysts in understanding the fundamentals of artificial intelligence. It covers key concepts, AI applications across industries, and the types of data used in AI models. It also explains the differences between artificial intelligence, machine learning, and deep learning, providing clarity on how these technologies interact and complement each other.
Topic 4	• OCI Generative AI and Oracle 23ai: This section evaluates the skills of Cloud AI Architects in utilizing Oracle's generative AI capabilities. It includes a deep dive into OCI Generative AI services, Autonomous Database Select AI for enhanced data intelligence and Oracle Vector Search for efficient information retrieval in AI-driven applications.
Topic 5	• Intro to DL Foundations: This section assesses the expertise of Deep Learning Engineers in understanding deep learning frameworks and architectures. It covers fundamental concepts of deep learning, introduces convolutional neural networks (CNN) for image processing, and explores sequence models like recurrent neural networks (RNN) and long short-term memory (LSTM) networks for handling sequential data.
Topic 6	• Intro to ML Foundations: This section evaluates the knowledge of Machine Learning Engineers in understanding machine learning principles and methodologies. It explores the basics of supervised learning, focusing on regression and classification techniques, along with unsupervised learning methods such as clustering and anomaly detection. It also introduces reinforcement learning fundamentals, helping professionals grasp the different approaches used to train AI models.

New Oracle 1Z0-1122-25 Exam Test & 1Z0-1122-25 Authorized Pdf

They are committed to assisting you in Oracle 1Z0-1122-25 exam preparation and boosting the 1Z0-1122-25 exam candidate's confidence to pass it. The Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) exam questions are designed and verified by Oracle exam trainers. They check and ensure each 1Z0-1122-25 Practice Questions are real, updated, and accurate. So rest assured that with the Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) practice exams you can get success in challenging the 1Z0-1122-25 exam easily.

Oracle Cloud Infrastructure 2025 AI Foundations Associate Sample Questions (Q13-Q18):

NEW QUESTION # 13

How does Oracle Cloud Infrastructure Document Understanding service facilitate business processes?

- A. By analyzing sentiment in text documents
- B. By transcribing spoken language
- C. By generating lifelike speech from documents
- **D. By automating data extraction from documents**

Answer: D

Explanation:

Oracle Cloud Infrastructure (OCI) Document Understanding service facilitates business processes by automating data extraction from documents. This service leverages machine learning to identify, classify, and extract relevant information from various document types, reducing the need for manual data entry and improving efficiency in document processing workflows. Automation of these tasks enables organizations to streamline operations and reduce errors associated with manual data handling.

NEW QUESTION # 14

Which feature is NOT supported as part of the OCI Language service's pretrained language processing capabilities?

- A. Sentiment Analysis

- B. Text Generation
- C. Text Classification
- D. Language Detection

Answer: B

Explanation:

The OCI Language service offers several pretrained language processing capabilities, including Text Classification, Sentiment Analysis, and Language Detection. However, it does not natively support Text Generation as a part of its core language processing capabilities. Text Generation typically involves creating new content based on input prompts, which is a feature more commonly associated with models specifically designed for natural language generation.

NEW QUESTION # 15

What is the primary benefit of using Oracle Cloud Infrastructure Supercluster for AI workloads?

- A. It offers seamless integration with social media platforms.
- B. It provides a cost-effective solution for simple AI tasks.
- C. It delivers exceptional performance and scalability for complex AI tasks.
- D. It is ideal for tasks such as text-to-speech conversion.

Answer: C

Explanation:

Oracle Cloud Infrastructure Supercluster is designed to deliver exceptional performance and scalability for complex AI tasks. The primary benefit of this infrastructure is its ability to handle demanding AI workloads, offering high-performance computing (HPC) capabilities that are crucial for training large-scale AI models and processing massive datasets. The architecture of the Supercluster ensures low-latency networking, efficient resource allocation, and high-throughput processing, making it ideal for AI tasks that require significant computational power, such as deep learning, data analytics, and large-scale simulations.

NEW QUESTION # 16

In machine learning, what does the term "model training" mean?

- A. Establishing a relationship between input features and output
- B. Writing code for the entire program
- C. Analyzing the accuracy of a trained model
- D. Performing data analysis on collected and labeled data

Answer: A

Explanation:

In machine learning, "model training" refers to the process of teaching a model to make predictions or decisions by learning the relationships between input features and the corresponding output. During training, the model is fed a large dataset where the inputs are paired with known outputs (labels). The model adjusts its internal parameters to minimize the error between its predictions and the actual outputs. Over time, the model learns to generalize from the training data to make accurate predictions on new, unseen data.

NEW QUESTION # 17

Which AI Ethics principle leads to the Responsible AI requirement of transparency?

- A. Explicability
- B. Fairness
- C. Prevention of harm
- D. Respect for human autonomy

Answer: A

Explanation:

Explicability is the AI Ethics principle that leads to the Responsible AI requirement of transparency. This principle emphasizes the

importance of making AI systems understandable and interpretable to humans. Transparency is a key aspect of explicability, as it ensures that the decision-making processes of AI systems are clear and comprehensible, allowing users to understand how and why a particular decision or output was generated. This is critical for building trust in AI systems and ensuring that they are used responsibly and ethically.

Lead2Passed provides you with free demos of its Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 exam product. You can try a free demo to eliminate any confusion regarding the authenticity of our Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 PDF and practice tests (web-based & desktop software). It is also our policy to facilitate you with 1Z0-1122-25 free actual dumps updates in case of new Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 test changes within three months of your shopping. Contact us any time, if you need any guidance about our Oracle 1Z0-1122-25 exam product. There is only one way to get all these amazing 1Z0-1122-25 exam dumps offers and that is purchasing our product today.
