in three formats: Oracle 1z0-591 pdf questions formats, Web-based and desktop 1z0-591 practice test software are the three best formats of Itcertking 1z0-591 Valid Dumps. 1z0-591 pdf dumps file is the more effective and fastest way to prepare for the 1z0-591 exam. Oracle PDF Questions can be used anywhere or at any time. You can download 1z0-591 dumps pdf files on your laptop, tablet, smartphone, or any other device.

Oracle Business Intelligence Foundation Suite 11g Essentials Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which variable does not use initialization blocks to initialize its values?

- A. Dynamic Repository Variable
- B. System Variable
- C. Static Repository Variable
- D. Non System Variable

Answer: C

Explanation:

Explanation

The value of a static repository value is initialized in the Variable dialog box. This value persists, and does not change until an Oracle BI Administrator decides to change it.

NEW QUESTION # 12

Why is it necessary to join multiple source tables to a single dimension?

- A. Because a single source table often contains all the dimensions needed
- B. Because transactional source systems are often denormalized
- C. Because the dimensions tables are built in the transactional systems
- D. Because transactional source systems are often normalized

Answer: D

Explanation:

Denormalized data in the transactional system could be divided into different tables to increase performance.

NEW QUESTION # 13

Content that is saved in personal and shared folders can be browsed by using which view?

- A. New -> Analysis
- B. Home
- C. Dashboard
- D. Catalog
- E. Favorites

Answer: D

Explanation:

Explanation

The Catalog Manager workspace enables you to view and work with catalog objects. It displays the following folders for an open catalog:

The shared folder- Contains content that is shared among catalog users. This includes the preconfigured dashboards and analyses that are distributed with prebuilt applications, and other objects such as shared filters.

The system folder - Contains administrative elements of Presentation Services. Some of these elements are distributed with the product, and others are configured by you as the administrator, such as privileges. Avoid modifying any files in this folder.

Presentation Services uses these files internally and modifying them might cause unexpected results.

The users folder - Contains content that catalog users with the appropriate permissions have saved to their personal folders, such as individual analyses.

NEW QUESTION # 14

When Exporting an Analysis from a Dashboard, which of the following is NOT an option?

- A. MS Word
- B. CSV
- C. MS Excel
- D. PDF

Answer: A

NEW QUESTION # 15

The administration tool is the developer's interface to the repository file. It allows the development of and changes to the metadata repository file. Which statement is true?

- A. All aspects of security are being held in the repository file.
- B. Opening the rpd file in online mode results in performance Issues for the application user.
- C. Multiple developers can work on one repository at the same time. Results can be merged later on.
- D. Changes to the repository can only be carried out in offline mode.

Answer: C

Explanation:

The Oracle BI repository development process adheres to the classic Software Configuration Management (SCM) process, which utilizes a three-way merge to manage concurrent development.

The merge process involves three repositories:

In a multiuser environment (MUDE), Developers check out the file and make changes locally.

Then, these changes are automatically reconciled and merged into the master repository.

NEW QUESTION # 16

.....
