New 1Z0-771 Test Experience & Complete 1Z0-771 Exam Dumps

DOWNLOAD the newest TestSimulate 1Z0-771 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=13cuUnPy_OSSIhfRswcz6NQu7eou-a9kq

May be there are many materials for Oracle practice exam, but the 1Z0-771 exam dumps provided by our website can ensure you the accuracy and profession. If you decided to choose us as your training tool, you just need to use your spare time preparing 1Z0-771 Free Download Pdf, and you will be surprised by yourself to get the certification.

Oracle 1Z0-771 Exam Syllabus Topics:

Topic	Details
Topic 1	• Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.
Topic 2	• Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.
Topic 3	• Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
Topic 4	• Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development.

Topic 5	• Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.
Topic 6	• Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications.
Topic 7	• Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.
Topic 8	• Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.
Topic 9	• Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.
Topic 10	• Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.
Topic 11	• Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.
Topic 12	• Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.
Topic 13	• Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.
Topic 14	• Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.
Topic 15	• Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.
Topic 16	• Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.

Complete 1Z0-771 Exam Dumps - Test 1Z0-771 Voucher

Even though our 1Z0-771 training materials have received quick sale all around the world, in order to help as many candidates for

the exam as possible to pass the exam and get the related certification at their first try, we still keep the most favorable price for our best 1Z0-771 test prep. In addition, if you keep a close eye on our website you will find that we will provide discount in some important festivals, we can assure you that you can use the least amount of money to buy the best product in here. We aim at providing the best 1Z0-771 Exam Engine for our customers and at trying our best to get your satisfaction.

Oracle APEX Cloud Developer Professional Sample Questions (Q23-Q28):

NEW QUESTION # 23
What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. Push Notifications will be disabled for the application.
- B. A new notification server must be created.
- C. Existing Push Subscriptions for the application will be invalidated.

Answer: C

NEW QUESTION # 24
Which search type in keywords do they represent in Oracle Text?

- A. Oracle Text
- B. Standard
- C. List

Answer: A

Explanation:
In Oracle APEX, when configuring search functionality (e.g., in reports or faceted search), "Oracle Text" refers to a specific search type leveraging the Oracle Text engine. This is a powerful full-text search capability built into Oracle Database, supporting keyword-based searches, fuzzy matching, and indexing.
Standard: A basic SQL-based search (e.g., LIKE), not tied to Oracle Text.
List: Not a search type; it might refer to a UI component or LOV, not a search mechanism.
Oracle Text: Explicitly uses the CONTAINS operator and text indexes (e.g., CONTEXT or CTXCAT) for advanced search features, ideal for large datasets or complex queries.
This choice impacts performance and accuracy, especially in text-heavy applications.

NEW QUESTION # 25
Which two actions does the Create Application Wizard allow?

- A. Adding or deleting application pages.
- B. Changing the application authorization.
- C. Uploading JavaScript or CSS files required for an application.
- D. Reordering application pages.

Answer: A,D

Explanation:
The Create Application Wizard streamlines app creation with:
Adding or deleting application pages: Allows users to define initial pages (e.g., Home, Reports) and remove unwanted ones during the wizard process.
Reordering application pages: Provides drag-and-drop or list-based reordering of pages to set the navigation sequence.
Uploading JavaScript or CSS: This occurs post-creation in Shared Components, not within the wizard.
Changing the application authorization: Authorization schemes are set after creation, not during the wizard.
This wizard is a time-saver for rapid prototyping, offering a guided yet flexible setup.

NEW QUESTION # 26
Which two layout modes are available for Page Designer under Utilities?

- A. Three Pane
- B. Four Pane
- C. Two Pane
- D. Single Pane

Answer: A,C

Explanation:
Page Designer's layout modes under Utilities adjust the workspace:
A . Two Pane: Splits into two vertical sections (e.g., tree and properties), ideal for focused editing.
B . Three Pane: Adds a third section (e.g., tree, grid, properties), offering a balanced view for complex pages.
C . Four Pane: Not available; APEX limits to three for usability.
D . Single Pane: Not an option; the minimum is two panes.
Developers toggle these via the Utilities menu to optimize screen real estate based on task complexity.

NEW QUESTION # 27
An APEX e-commerce application is being used by 50 users. You have a promotional offer, and you need to send a push notification to all the subscribed users on their devices. Which step must be performed in Oracle APEX to achieve this?

- A. Enable push notifications at the application level and let APEX handle the subscription and delivery process automatically.
- B. Create a Dynamic Action of Send Push Notification type to send push notifications to all the subscribed users.
- C. Create a PL/SQL block to fetch all the subscribed users and send push notifications by using APEX_APPL_PUSH_SUBSCRIPTIONS & APEX_PWA.SEND.
- D. Create a REST Data Source to send push notifications to all the subscribed users.

Answer: C

Explanation:
To send push notifications to all subscribed users, you must:
Enable push notifications at the application level (a prerequisite).
Use a PL/SQL block with APEX_APPL_PUSH_SUBSCRIPTIONS to fetch subscribers and APEX_PWA.SEND to send the notifications.
Option A is incorrect as there's no "Send Push Notification" Dynamic Action type. Option B is incomplete as enabling alone doesn't send notifications. Option C is unrelated to push notifications.

NEW QUESTION # 28
......

The Oracle 1Z0-771 certification exam is one of the hottest and career-oriented Oracle APEX Cloud Developer Professional (1Z0-771) exams. With the Oracle APEX Cloud Developer Professional (1Z0-771) exam you can validate your skills and upgrade your knowledge level. By doing this you can learn new in-demand skills and gain multiple career opportunities. To do this you just need to enroll in the Oracle 1Z0-771 Certification Exam and put all your efforts to pass this important Oracle 1Z0-771 Exam Questions.
