TestKingIT Peoplecert AIOps-Foundation practice exam support team cooperates with users to tie up any issues with the correct equipment. If DevOps Institute AIOps Foundation V1.0 (AIOps-Foundation) certification exam material changes, TestKingIT also issues updates free of charge for 1 year following the purchase of our DevOps Institute AIOps Foundation V1.0 (AIOps-Foundation) exam questions.

Up to now, we have successfully issued three packages for you to choose. They are PDF version, online test engines and windows software of the AIOps-Foundation practice prep. The three packages can guarantee you to pass the exam for the first time. Though the content is the same with all versions of the AIOps-Foundation Study Materials, the displays are totally different. And every display has its advantage to cater to different people according to their interest and hobbies. You may choose the right version of our AIOps-Foundation exam questions.

Exams AIOps-Foundation Torrent & AIOps-Foundation Most Reliable Questions

We believe that all students who have purchased AIOps-Foundation practice materials will be able to successfully pass the professional AIOps-Foundation qualification exam as long as they follow the content provided by our AIOps-Foundation study materials, study it on a daily basis, and conduct regular self-examination through mock exams. Of course, before you buy, our AIOps-Foundation Study Materials offer you a free trial service, as long as you log on our website, you can download our trial questions bank for free. I believe that after you try AIOps-Foundation test engine, you will love them.

Peoplecert DevOps Institute AIOps Foundation V1.0 Sample Questions (Q30-Q35):

NEW QUESTION # 30

Which pattern requires Big Data?

- A. Both a and b
- B. ITOA
- C. None of the above
- D. AIOps

Answer: A

Explanation:

Both AIOps (Artificial Intelligence for IT Operations) and ITOA (IT Operations Analytics) require the utilization of big data to

function effectively.

AIOps and Big Data AIOps combines big data and machine learning to automate IT operations processes, including event correlation, anomaly detection, and causality determination. By analyzing large volumes of data from various IT operations sources, AIOps provides real-time insights and alerts, enabling IT teams to identify and address issues proactively.

IT Operations Analytics (ITOA) and Big Data ITOA involves gathering, processing, analyzing, and interpreting data from various IT operations sources to guide decisions and predict potential issues. It applies big data analytics to large datasets to produce business insights, enhancing the ability to manage complex IT environments.

Conclusion Both AIOps and ITOA leverage big data to enhance IT operations by providing deeper insights and enabling proactive management of IT systems. Therefore, the correct answer is C. Both a and b.

NEW QUESTION # 31

How do SLAs relate To AIOps?

- A. AIOps automates the generation of SLA documentation
- **B. AIOps reduces the risk and improves SLA targets by overall improving IT Operations speed and capabilities.**
- C. AIOps indicates which SLOs to define in an SLA
- D. There is no relationship between AIOps and SLAs

Answer: B

Explanation:

Service Level Agreements (SLAs) define the expected performance and availability standards for IT services.

AIOps enhances the ability to meet and exceed these SLA targets by improving IT operations' speed and capabilities. Through the integration of big data analytics and machine learning, AIOps enables real-time monitoring, rapid issue detection, and automated responses, reducing downtime and enhancing service reliability. This proactive approach minimizes risks associated with SLA breaches and ensures that IT services consistently meet agreed-upon performance standards.

NEW QUESTION # 32

Data that does not have a predefined structure or format and is usually in the form of text-heavy content is usually described as:

- A. Time-series data
- **B. Unstructured data**
- C. Structured data
- D. Semi-structured data

Answer: B

Explanation:

Unstructured data lacks a predefined structure or format and is often text-heavy, including documents, emails, social media posts, and multimedia content. Unlike structured data, which resides in fixed fields within databases, unstructured data does not fit neatly into relational databases. The DevOps Institute's AIOps Foundation course highlights the challenges and importance of processing unstructured data in IT operations, as it contains valuable insights that can enhance decision-making and operational efficiency.

NEW QUESTION # 33

What impact on incident related metrics is the desired outcome from AIOps implementation?

- A. Increase in MTTA, Increase in MTTR and Decrease in MTBF
- B. Decrease in MTTA, Decrease in MTTR and Decrease in MTBF
- C. Decrease in MTTA, Increase in MTTR and Decrease in MTBF
- **D. Decrease in MTTA, Decrease in MTTR and Increase in MTBF**

Answer: D

Explanation:

AIOps aims to improve incident-related metrics by:

* Decreasing Mean Time to Acknowledge (MTTA): Faster detection and acknowledgment of issues.

* Decreasing Mean Time to Resolve (MTTR): Quicker resolution through automation and actionable insights.

* Increasing Mean Time Between Failures (MTBF): Enhanced system reliability and reduced frequency of failures.

These improvements lead to more reliable IT operations, as highlighted in the DevOps Institute's AIOps Foundation course.

NEW QUESTION # 34

A system that, given consistent input, may produce different outputs is called:

- A. Deterministic
- B. Algorithmic
- C. Probabilistic
- D. Random

Answer: C

Explanation:

A probabilistic system is one that may produce different outputs even with consistent input, due to inherent randomness or probabilistic decision-making mechanisms.

This behavior contrasts with deterministic systems, which always produce the same output for the same input.

Probabilistic systems are common in AI/ML models, where outcomes are based on statistical probabilities and training data.

NEW QUESTION # 35

.....

Customers of TestKingIT will also receive updates for 1 year after purchase. A lot of students have prepared from the for the DevOps Institute AIOps Foundation V1.0 (AIOps-Foundation) certification test and passed it in a single try. They have rated the DevOps Institute AIOps Foundation V1.0 (AIOps-Foundation) as one of the best in the market to prepare for the AIOps-Foundation exam in minimum time. Try a free demo now and start your journey towards your dream certification!
