Get Help From Real College Admission ASVAB Exam Questions in Preparation

Prior to your decision on which ASVAB exam questions to buy, please inform us of your email address on the ASVAB study guide so that we can make sure that you can have a try on the free demos of our ASVAB practice materials. We hope that the ASVAB learning braindumps you purchased are the best for you. And you can free download all of the three versions to have a fully understanding and feeling.

College Admission Armed Services Vocational Aptitude Battery (ASVAB) Sample Questions (Q656-Q661):

NEW QUESTION # 656

A rectangle is $1\frac{1}{2}$ times as long as it is wide. The perimeter of the rectangle is 100 inches. What's the length of the rectangle?

- A. 45 inches
- B. 40 inches
- C. 30 inches
- D. 20 inches

Answer: C

Explanation:

The formula for the perimeter of a rectangle is $P = 2L + 2W$. In this case, $P = 100$ and $L = 1.5W$.

$$100 = 2(1.5W) + 2W$$

$$100 = 3W + 2W$$

$$100 = 5W$$

$$W = 100/5$$

$W = 20$. The width of the rectangle is 20 inches. Because the length is $1\frac{1}{2}$ the width, $1.5 \times 20 = 30$.

NEW QUESTION # 657

Pam cuts a pie in half in a straight line. She then cuts a line from the center to the edge, creating a 55-degree angle. What's the supplement of that angle?

- A. 55 degrees
- B. 130 degrees
- C. 125 degrees
- D. 70 degrees

Answer: C

Explanation:

When the sum of two angles is 180 degrees, the angles are said to be supplemental to each other. To find the supplement, subtract 55 from 180 ($180 - 55 = 125$).

NEW QUESTION # 658

Cloud seeding is accomplished by dropping particles of dry ice (solid carbon dioxide) from a plane onto super-cooled clouds. This process encourages condensation of water droplets in the clouds, which usually, but not always, results in rain or snow. From this passage, it's reasonable to assume that:

- A. Cloud seeding is rarely used.
- B. Cloud seeding can be accomplished by using regular ice.
- C. Cloud seeding could be used to end a drought.
- D. Cloud seeding is prohibitively expensive.

Answer: C

Explanation:

One can assume that causing rain or snow would end a drought. Nothing in the passage has to do with expense, so Choice B is incorrect. The passage says nothing about how frequently the process is used, so Choice C is incorrect. The passage specifies that dry ice (solid carbon dioxide) is used; solid water (regular ice) is a different chemical, so Choice D is wrong.

NEW QUESTION # 659

When a plant performs photo synthesis, it produces _____ as a byproduct.

- A. methane
- **B. oxygen**
- C. carbon dioxide
- D. water

Answer: B

Explanation:

When a plant performs photo synthesis, it produces oxygen as a byproduct.

NEW QUESTION # 660

Transistors contain at least three terminals called the:

- A. base and two gates
- B. base, positive terminal, and negative terminal
- C. emitter, amplifier, and collector
- **D. base, emitter, and collector**

Answer: D

Explanation:

The three terminals a transistor must have are the base, emitter, and collector.

NEW QUESTION # 661

.....

To be out of the ordinary and seek an ideal life, we must master an extra skill to get high scores and win the match in the workplace. Contemporarily, social competitions stimulate development of modern science, technology and business, which revolutionizes our society's recognition to ASVAB Exam and affect the quality of people's life. Our ASVAB exam question can help make your dream come true. What's more, you can have a visit of our website that provides you more detailed information about the ASVAB guide torrent.
