Valid OCPE - New Category-7A-General-and-Household-Pest-Control Study Plan

GuideTorrent is a leading platform that is committed to offering to make the OCPE Exam Questions preparation simple, smart, and

successful. To achieve this objective GuideTorrent has got the services of experienced and qualified Category-7A-General-and-Household-Pest-Control Exam trainers. They work together and put all their efforts and ensure the top standard of GuideTorrent OCPE Category-7A-General-and-Household-Pest-Control exam dumps all the time.

OCPE Pesticide Applicator Category 7A General and Household Pest Control Exam Sample Questions (Q65-Q70):

NEW QUESTION # 65

The yellow jacket is a:

- A. Social wasp usually nesting in the ground
- B. Solitary wasp nesting in the ground
- C. Ant with wings
- D. Social bee usually nesting in trees

Answer: A

Explanation:

Yellow jackets are social wasps that typically nest in the ground, often in abandoned rodent burrows or other cavities. They live in colonies with a queen and workers, as described in the General Pest Management: Guide for Commercial Applicators - Category 7A(Chapter 7: Wasps). Option B (social bee) is incorrect, as yellow jackets are wasps, not bees, and they do not typically nest in trees. Option C (solitary wasp) is incorrect, as yellow jackets are social. Option D (ant with wings) is incorrect, as yellow jackets are distinct from ants.

NEW QUESTION # 66

A pesticide applicator business service vehicle that carries pesticides to an application site is required to have the ____ on the vehicle.

- A. Commercial pesticide applicator license number
- B. Owner's name
- C. Business license/registration number

Answer: C

Explanation:

According to NJDEP regulations (N.J.A.C. 7:30-9.10), a pesticide applicator business service vehicle must display the business license/registration number on two sides of the vehicle. This ensures the vehicle can be identified as belonging to a licensed pesticide applicator business. Option A (commercial pesticide applicator license number) is incorrect because the individual applicator's license number is not required on the vehicle. Option B (owner's name) is also not a requirement under New Jersey law.

NEW QUESTION # 67

Bait stations confine toxic substances to removable units. Their successful use depends on their:

- A. Placement
- B. Application as a dab of material
- C. Harborage

Answer: A

Explanation:

Bait stations are effective for controlling pests like roaches or rodents when placed in areas where pests are active, such as near food sources or nesting sites. The General Pest Management: Guide for Commercial Applicators - Category 7A(Chapter 5: Pesticide Application) emphasizes that placement is critical for success, as improper placement reduces pest contact with the bait. Option A (harborage) refers to pest hiding spots, not bait station use. Option B (application as a dab) applies to gel baits, not bait stations.

NEW QUESTION # 68

Pesticide labels often specify the type of respirator to be used by its TC designation. Which of the following is the chemical cartridge respirator designation?

- A. TC-84
- B. TC-23
- C. TC-19

Answer: B

Explanation:

The TC designation is assigned by the National Institute for Occupational Safety and Health (NIOSH) to classify respirators. TC-23 designates chemical cartridge respirators, which are used to protect against specific gases and vapors, as specified on pesticide labels for Category 7A applications. The General Pest Management: Guide for Commercial Applicators - Category 7A (Chapter 3: Pesticide Safety) notes that TC-23 respirators are commonly required for pesticide applications involving volatile chemicals. Option A (TC-84) refers to particulate respirators (e.g., N95 masks). Option C (TC-19) is not a valid designation for pesticide use.

NEW QUESTION # 69

When used in integrated bed bug elimination programs, TEMPRID:

- A. Efficacy is affected by heat treatments
- B. Efficacy is not affected by heat treatment; therefore TEMPRID can be applied before heat treatments
- C. Applications cannot be made prior to heat treatments

Answer: B

Explanation:

TEMPRID SC's efficacy is not affected by heat treatments, as its active ingredients (imidacloprid and beta-cyfluthrin) remain stable under high temperatures used in bedbug heat treatments. The TEMPRID SC label and the General Pest Management: Guide for Commercial Applicators - Category

7A (Chapter 7: Bedbugs) confirm that TEMPRID can be applied before heat treatments as part of an integrated approach, as heat drives bedbugs out of hiding, increasing their contact with the pesticide.

Option A (cannot be made prior to heat treatments) is incorrect, as the label allows this. Option B (efficacy affected by heat) is incorrect, as TEMPRID's performance is not diminished by heat.

NEW QUESTION # 70

.....

One of the key factors for passing the exam is practice. Candidates must use OCPE Category-7A-General-and-Household-Pest-Control practice test material to be able to perform at their best on the real exam. This is why GuideTorrent has developed three formats to assist candidates in their OCPE Category-7A-General-and-Household-Pest-Control Preparation. These formats include desktop-based OCPE Category-7A-General-and-Household-Pest-Control practice test software, web-based practice test, and a PDF format.

Category-7A-General-and-Household-Pest-Control Test Dumps: <https://www.guidetorrent.com/Category-7A-General-and-Household-Pest-Control-pdf-free-download.html>

Let's say, Category-7A-General-and-Household-Pest-Control pdf practice material can make your life much easier, According to our data, our pass rate of the Category-7A-General-and-Household-Pest-Control practice engine is high as 98% to 100%, Category-7A-General-and-Household-Pest-Control new study training provides you test preparation information with everything you need, There is no purpose in attempting the OCPE Category-7A-General-and-Household-Pest-Control certification exam if you have not prepared with GuideTorrent's Free OCPE Category-7A-General-and-Household-Pest-Control PDF Questions, Category-7A-General-and-Household-Pest-Control will solve your confuse and free your mind and body.
