- C. It's important to identify the stakeholder so the business analyst can help ensure the timely delivery of the requirements deliverables.
- D. It's important to identify the stakeholders so the business analyst knows who to report to.

Answer: C

NEW QUESTION # 383

A business analyst (BA) conducts a Business rules analysts exercise to identify the organizational rules constraining the project in addition to existing regulations and contracts. what else does the BA check?

- A. Policies
- B. Backlogs
- C. Permissions matrix
- D. Business case

Answer: A

Explanation:

Explanation

In addition to existing regulations and contracts, the BA also checks the policies of the organization that may constrain the project. Policies are the guidelines or principles that govern the decision making and actions of the organization. They reflect the values, vision, and mission of the organization and provide a framework for achieving its goals and objectives. Policies can also influence the scope, feasibility, and acceptance of the project and its solution. Therefore, the BA should identify and analyze the policies that are relevant to the project and ensure that they are aligned with the requirements and the solution. References:
