Entering a strange environment, we will inevitably be very nervous. And our emotions will affect our performance. That is why some of the candidates fail in their real exam. But if you buy our CSA exam questions, then you won't worry about this problem. Our CSA study guide has arranged a mock exam to ensure that the user can take the exam in the best possible state. We simulated the most realistic examination room environment so that users can really familiarize themselves with the examination room. And our CSA Practice Engine can give you 100% pass guarantee.

Do you want to try our free demo of the CSA study materials? Your answer must be yes. So just open our websites in your computer. You will have easy access to all kinds of free trials of the CSA study materials. You can apply for many types of CSA study materials at the same time. Once our system receives your application, it will soon send you what you need. Please ensure you have submitted the right email address. The free demo has three versions. We only send you the PDF version of the CSA Study Materials.

ServiceNow Certified System Administrator Sample Questions (Q485-Q490):

NEW QUESTION # 485

A subject matter expert routinely receives tasks which have been worked by first level support, before receiving the assignment. What could you suggest, to make it easier for the expert to read only the work notes in the Activity log?

- A. Click Context menu > History
- B. Click Context menu > Work Notes View
- C. Click Funnel icon and select only work notes
- D. Right click form header > Form Layout > Add Work Notes Section
- E. Click Personalize icon and select Activity Stream

Answer: C

NEW QUESTION # 486

Which term refers to application menus and modules which you may want to access quickly and often?

- A. Breadcrumb
- B. Favorite
- C. Bookmark
- D. Tag

Answer: B

NEW QUESTION # 487

What role enables someone to authorize a request, with no other permissions on the platform?

- A. Verification [verify_user]
- B. Approver Group [approval_group]
- C. Approver [approver-user]
- D. Reviewer [reviewer_user]
- E. Authorize [authorize-user]

Answer: C

Explanation:

In ServiceNow, the Approver [approver-user] role is specifically designed for users who need to authorize requests but should not have any other permissions or administrative access to the platform.

Can approve or reject requests (e.g., Change Requests, Service Catalog Requests).

No additional platform permissions (cannot create, modify, or view records beyond approvals).

Assigned automatically to users designated as approvers in approval workflows.

An IT Manager receives an approval request for a new laptop.

The manager logs in and sees only the approval request (no other system access).

They approve/reject the request without modifying any records.

Key Features of the Approver Role: Example Use Case:

B: Authorize [authorize-user] #Incorrect

No such role exists in ServiceNow.

C: Reviewer [reviewer_user] #Incorrect

No such role exists in ServiceNow.

D: Approver Group [approval_group] #Incorrect

Approval groups allow multiple users to approve a request collectively, but it is not a standalone role.

The approver-user role is the correct answer for individual approvals.

E: Verification [verify_user] #Incorrect

No such role exists in ServiceNow.

Why Other Options Are Incorrect?
