## E-S4CPE-2405 Certification Exam Cost | E-S4CPE-2405 Reliable Exam Guide

It is not hard to know that E-S4CPE-2405 study materials not only have better quality than any other study materials, but also have better quality. On the one hand, we can guarantee that you will pass the E-S4CPE-2405 exam easily if you learn our E-S4CPE-2405 Study Materials; on the other hand, you will learn a lot of useful knowledge from our E-S4CPE-2405 learning braindump. Are you ready? You can free download the demo of our E-S4CPE-2405 study materials on the web first.

## SAP Certified Specialist - Implementation Consultant - SAP S/4HANA Cloud Private Edition Sample Questions (Q53-Q58):

### NEW QUESTION # 53

Where can an implementation consultant find configuration information for each level in the configuration hierarchy?

- A. In the SAP GUI
- B. In the SAP Fiori apps reference library
- C. In the SAP Help Portal
- D. In the SAP Signavio Process Manager

**Answer: C**

Explanation:

Implementation consultants can find configuration information for each level in the configuration hierarchy in the SAP Help Portal.

This resource provides comprehensive documentation and guidelines necessary for configuring SAP S/4HANA Cloud Private Edition systems.

Option A: SAP Signavio Process Manager

This option is incorrect. SAP Signavio Process Manager is primarily used for process modeling and analysis, not for accessing configuration hierarchy information.

Option B: SAP GUI

This option is incorrect. SAP GUI is the graphical user interface for interacting with SAP systems but does not provide direct access to configuration hierarchy documentation.

Option C: SAP Fiori apps reference library

This option is incorrect. The SAP Fiori apps reference library offers information about available Fiori applications but does not detail the configuration hierarchy.

Option D: SAP Help Portal

This option is correct. The SAP Help Portal is the central repository for SAP's documentation, including detailed information on configuration hierarchies for SAP S/4HANA Cloud Private Edition. Consultants can access implementation guides, configuration steps, and best practices through this portal.

In summary, the SAP Help Portal is the definitive source for configuration information across various levels of the configuration hierarchy in SAP S/4HANA.

### NEW QUESTION # 54

Which activity in situation handling is exclusively available for the extended framework?

- A. Adapt predelivered situation handling templates to business requirements
- **B. Develop custom situation handling templates**
- C. SAP Fiori application extensions
- D. Navigate from notification to the app where the situation occurred to get more info and resolve
- E. Collect situation data to prepare the automated response

**Answer: B**

Explanation:

Situation handling in SAP S/4HANA Cloud Private Edition provides a framework to proactively inform users about specific business situations requiring attention. Within this framework, certain activities are exclusive to the extended framework:

Option A: Adapt predelivered situation handling templates to business requirements This option is incorrect. Adapting predelivered templates is available in both the standard and extended frameworks.

Option B: Navigate from notification to the app where the situation occurred to get more info and resolve This option is incorrect. This navigation capability is a standard feature in situation handling.

Option C: Develop custom situation handling templates

This option is correct. The extended framework allows for the development of custom situation templates tailored to specific business needs, a feature not available in the standard framework.

Option D: Collect situation data to prepare the automated response

This option is incorrect. Data collection for automated responses is part of the standard framework.

In summary, the ability to develop custom situation handling templates is an activity exclusively available in the extended framework of situation handling in SAP S/4HANA Cloud Private Edition.

### NEW QUESTION # 55

What is in scope of Fit-to-Standard workshops in a new implementation? Note: There are 2 correct answers to this question.

- **A. Providing feedback if changes are necessary to make the process fit the customer's needs**
- B. Completing the user acceptance testing on the business processes
- C. Estimating relative effort of the planned changes
- **D. Teaching the customer LOB experts how to navigate end-to-end business processes**

**Answer: A,D**

Explanation:

Fit-to-Standard workshops are a cornerstone of the SAP Activate Methodology for a new implementation of SAP S/4HANA Cloud Private Edition. These workshops, conducted during the Explore phase, aim to align customer requirements with SAP's standard processes. Let's evaluate the options:

\* A. Teaching the customer LOB experts how to navigate end-to-end business processes: This is correct. A primary goal of Fit-to-

Standard workshops is to educate customer line-of-business (LOB) experts on SAP S/4HANA's standard end-to-end processes (e.g., order-to-cash, procure-to-pay).

Consultants demonstrate these processes in a sandbox system, enabling customers to understand the system's capabilities and how they align with their business needs.

\* B. Estimating relative effort of the planned changes: This is incorrect. While effort estimation for gaps or customizations may occur later (e.g., in backlog prioritization), it's not a core activity of Fit-to-Standard workshops. The focus is on exploring standard processes and identifying gaps, not detailed effort planning.

\* C. Completing the user acceptance testing on the business processes: This is incorrect. User acceptance testing (UAT) occurs in the Realize or Deploy phase, not during Fit-to-Standard workshops in the Explore phase. These workshops are about analysis and alignment, not formal testing.

\* D. Providing feedback if changes are necessary to make the process fit the customer's needs: This is also correct. During the workshops, customers and consultants collaboratively assess whether the standard processes meet requirements. If gaps are identified, feedback is provided to determine necessary changes (e.g., configuration, extensions), which are then documented for the Realize phase.

In summary, the scope of Fit-to-Standard workshops in a new implementation includes A (Teaching the customer LOB experts how to navigate end-to-end business processes) and D (Providing feedback if changes are necessary to make the process fit the customer's needs).
