

# New EDGE-Expert Study Notes - Exam EDGE-Expert Revision Plan

BONUS!!! Download part of Free4Torrent EDGE-Expert dumps for free: <https://drive.google.com/open?id=1kFxCDd4B8pthQAIpZc8JD2tWu9kLc1PV>

EDGE EDGE-Expert can ensure your success. So here comes EDGE, who provides you with the EDGE EDGE-Expert exam dumps to get your dream EDGE EDGE-Expert certification with no hassle. EDGE EDGE-Expert Certification will add up to your excellence in your field and leave no space for any doubts in the mind of the hiring team.

We are famous for our company made these EDGE-Expert exam questions with accountability. We understand you can have more chances getting higher salary or acceptance instead of preparing for the EDGE-Expert exam. Our EDGE-Expert practice materials are made by our responsible company which means you can gain many other benefits as well. We offer free demos of our EDGE-Expert learning guide for your reference, and send you the new updates if our experts make them freely.

## New EDGE-Expert Study Notes & Leader in Qualification Exams & Exam EDGE-Expert Revision Plan

The Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exam questions are real, valid, and verified by EDGE EDGE-Expert certification exam trainers. They work together and put all their efforts to ensure the top standard and relevancy of EDGE-Expert Exam Dumps all the time. So we can say that with EDGE EDGE-Expert exam questions you will get everything that you need to make the EDGE-Expert exam preparation simple, smart, and successful.

## EDGE Excellence in Design for Greater Efficiencies (EDGE Expert) Exam Sample Questions (Q13-Q18):

### NEW QUESTION # 13

An EDGE Auditor has received initial documentation from a Client which implies that measures not selected on the downloaded PDF can be claimed. What should the Auditor do?

- A. As submission documents are correct, the Auditor should ignore the error on PDF.
- B. The Auditor should modify the self-assessment and submit the project for certification.
- C. The Auditor should ask for advice from the EDGE Partner and then take action.
- D. **Inform the Client to update the EDGE software and prepare a new PDF.**

**Answer: D**

Explanation:

The EDGE audit process requires that the documentation submitted by the Client accurately reflects the self-assessment in the EDGE software, ensuring consistency and transparency. The EDGE Expert and Auditor Protocols address discrepancies in documentation: "If an EDGE Auditor identifies a discrepancy between the submitted documentation and the self-assessment PDF,

such as measures being claimed that were not selected in the EDGE software, the Auditor must inform the Client to update the EDGE software to reflect the correct measures and prepare a new PDF for submission. This ensures that the audit is based on an accurate representation of the project's claims" (EDGE Expert and Auditor Protocols, Section 4.2: Evidence Verification). Option C, inform the Client to update the EDGE software and prepare a new PDF, directly aligns with this protocol, as it corrects the error at the source and ensures the self-assessment matches the claimed measures. Option A (ask for advice from the EDGE Partner) is unnecessary, as the protocol provides clear guidance: "Auditors are expected to follow standard procedures for discrepancies without needing to consult the EDGE Partner, unless the issue involves a policy interpretation beyond the protocols" (EDGE Expert and Auditor Protocols, Section 4.1: Audit Process). Option B (modify the self-assessment and submit) is unethical and prohibited, as Auditors cannot alter the Client's submission: 'The Auditor must not modify the Client's self-assessment in the EDGE software, as this compromises the independence of the audit process; the Client is responsible for updating the assessment' (EDGE Certification Protocol, Section 3.2):

Audit Requirements). Option D (ignore the error on PDF) is also incorrect, as ignoring discrepancies violates audit integrity: "All discrepancies between the PDF and submitted documents must be resolved before the audit proceeds, as ignoring errors could lead to incorrect certification outcomes" (EDGE Expert and Auditor Protocols, Section 4.2: Evidence Verification). The EDGE User Guide further reinforces: "The self- assessment PDF must accurately reflect the measures selected in the EDGE software, and any mismatch requires the Client to revise the assessment to ensure a fair and transparent audit" (EDGE User Guide, Section 6.2: Documentation Requirements). Thus, the Auditor should inform the Client to update the software and prepare a new PDF (Option C).

Reference:EDGE Expert and Auditor Protocols, Section 4.2: Evidence Verification, Section 4.1: Audit Process; EDGE Certification Protocol, Section 3.2: Audit Requirements; EDGE User Guide Version 2.1, Section 6.2: Documentation Requirements.

#### NEW QUESTION # 14

Which of the following wall solar reflectivity indexes would be the most energy efficient in a hot climate?

- A. 0.7
- B. 0.2
- C. 0.4
- D. 0.3

**Answer: A**

Explanation:

In hot climates, reducing heat gain through building envelopes is a key strategy for energy efficiency, as emphasized in EDGE's green building design principles. The EDGE User Guide discusses solar reflectivity (measured by the Solar Reflectance Index, SRI) for walls and roofs, stating: "Higher SRI values indicate greater reflectivity, which reduces heat absorption and lowers cooling energy demand in hot climates. For walls in hot climates, an SRI of 0.7 or higher is recommended to maximize energy savings" (EDGE User Guide, Section 3.5: Passive Design Strategies). The options provided are 0.2, 0.3, 0.4, and 0.7. Since 0.7 is the highest SRI value among the choices, it reflects the most solar radiation, thereby reducing the cooling load and improving energy efficiency in a hot climate, as per EDGE's guidance. Options A, B, and C have lower SRI values and would result in greater heat absorption, increasing energy use for cooling.

Reference:EDGE User Guide Version 2.1, Section 3.5: Passive Design Strategies.

#### NEW QUESTION # 15

To claim efficiency measure Insulation for Cold Storage Envelope, which of the following documents is required as evidence at the preliminary certification stage?

- A. Purchase receipts showing the U-value specification of the cold storage envelope
- B. Drawing(s) showing the U-value specification of the cold storage envelope
- C. Manufacturer's data sheets for the HVAC system
- D. Calculations of Coefficient of Performance (COP)

**Answer: B**

Explanation:

The preliminary certification stage requires specific documentation to verify the implementation of efficiency measures like Insulation for Cold Storage Envelope. The EDGE Certification Protocol outlines the evidence requirements: "For measures involving insulation, such as Insulation for Cold Storage Envelope, the Client must provide drawings at the preliminary certification stage that specify the U-value of the installed insulation to demonstrate compliance with the measure's requirements. The U-value must be lower than the Base Case to qualify for savings" (EDGE Certification Protocol, Section 3.2: Audit Requirements). Option C, drawings showing the

U-value specification of the cold storage envelope, directly aligns with this requirement. Option A (calculations of Coefficient of Performance) is irrelevant, as COP applies to HVAC systems, not insulation:

"COP is used for chillers, not insulation measures" (EDGE User Guide, Section 4.2: Energy Efficiency Measures). Option B (manufacturer's data sheets for the HVAC system) is also unrelated, as the measure focuses on the envelope, not HVAC: "HVAC documentation is not required for insulation measures" (EDGE Certification Protocol, Section 3.2: Audit Requirements). Option D (purchase receipts showing the U-value) is more relevant at the post-construction stage: "Purchase receipts are typically required at the post-construction stage to confirm installation, while drawings suffice for design-stage verification" (EDGE Certification Protocol, Section 3.4: Post-Construction Requirements). Thus, drawings with U-value specifications (Option C) are required at preliminary certification.

Reference:EDGE Certification Protocol, Section 3.2: Audit Requirements, Section 3.4: Post-Construction Requirements; EDGE User Guide Version 2.1, Section 4.2: Energy Efficiency Measures.

## NEW QUESTION # 16

Which type of evidence is required at the post-construction stage for the efficiency measure window glazing?

- A. Bill of quantities with the specifications for the window glass highlighted
- B. Manufacturer's data sheets showing the make and model, U-value, and SHGC of the installed glass
- C. Window schedule for the building showing the major window glass types if more than one type of glass is present
- D. Design building elevations marking the window glass specifications

### Answer: B

Explanation:

The post-construction stage in EDGE certification requires evidence to confirm that the efficiency measures claimed in the design stage have been implemented as specified. For window glazing, which affects energy efficiency through its U-value (thermal transmittance) and SHGC (Solar Heat Gain Coefficient), the EDGE Certification Protocol provides clear requirements: "At the post-construction stage, the Client must provide manufacturer's data sheets for the window glazing measure, showing the make and model, U-value, and SHGC of the installed glass, to confirm that the glazing matches the specifications claimed in the self-assessment and meets the energy efficiency requirements" (EDGE Certification Protocol, Section 3.4: Post-Construction Requirements). Option C, manufacturer's data sheets showing the make and model, U-value, and SHGC of the installed glass, directly matches this requirement, as it provides the specific technical data needed to verify compliance. Option A (design building elevations marking the window glass specifications) is relevant at the design stage, not post-construction: "Design elevations are required at the preliminary stage to show intended glazing specifications, not after construction" (EDGE Certification Protocol, Section 3.2):

Audit Requirements). Option B (bill of quantities with specifications highlighted) is insufficient on its own, as it may not provide detailed technical data: "Bills of quantities may support purchase verification, but manufacturer's data sheets are required for technical specifications like U-value and SHGC" (EDGE Certification Protocol, Section 3.4: Post-Construction Requirements). Option D (window schedule showing major glass types) is helpful but not sufficient, as it lacks the detailed technical data: "Window schedules may indicate glass types, but they do not replace the need for manufacturer's data sheets with U-value and SHGC at post-construction" (EDGE User Guide, Section 6.2: Documentation Requirements). The EDGE User Guide further clarifies: "For glazing measures, post-construction evidence must confirm the installed product's performance through manufacturer's data sheets, ensuring alignment with the design-stage claims" (EDGE User Guide, Section 4.1: Insulation Measures). Thus, manufacturer's data sheets (Option C) are required at the post-construction stage.

Reference:EDGE Certification Protocol, Section 3.4: Post-Construction Requirements, Section 3.2: Audit Requirements; EDGE User Guide Version 2.1, Section 6.2: Documentation Requirements, Section 4.1: Insulation Measures.

## NEW QUESTION # 17

To maintain their licensed status, what must EDGE Auditors do?

- A. Attend refresher training for at least two hours every two years.
- B. Undertake at least one building project audit every two years.
- C. Undertake at least one building project audit every three years.
- D. Attend refresher training for at least two hours every three years.

### Answer: B

Explanation:

EDGE Auditors must meet specific requirements to maintain their licensed status, ensuring they remain active and competent in their

role. The EDGE Expert and Auditor Protocols provide detailed guidance: "To maintain their licensed status, EDGE Auditors must undertake at least one building project audit every two years. This requirement ensures that Auditors remain actively engaged in the certification process and maintain their practical experience in verifying EDGE projects" (EDGE Expert and Auditor Protocols, Section 5.1:

Maintaining Auditor Status). Option A, undertake at least one building project audit every two years, directly aligns with this requirement. Option B (attend refresher training for at least two hours every two years) and Option C (attend refresher training for at least two hours every three years) are incorrect, as the protocols specify a different training requirement: "EDGE Auditors must attend refresher training as required by IFC, typically every three years, but the duration is not specified as a minimum of two hours; the focus is on completing the training, not the exact hours" (EDGE Expert and Auditor Protocols, Section 5.1: Maintaining Auditor Status). Option D (undertake at least one building project audit every three years) is also incorrect, as the required frequency is every two years, not three: "A three-year interval for audits does not meet the requirement of one audit every two years, which is necessary to ensure ongoing competence" (EDGE Expert and Auditor Protocols, Section 5.1: Maintaining Auditor Status). The EDGE User Guide supports this by stating: "Auditors maintain their status by conducting at least one audit every two years, ensuring they stay familiar with EDGE standards and procedures through active practice" (EDGE User Guide, Section 6.5:

Working with EDGE Auditors). Additionally, the protocols note: "Failure to conduct an audit within two years may result in a lapse of Auditor status, requiring recertification through additional training or re- examination" (EDGE Expert and Auditor Protocols, Section 5.2: Recertification Conditions). Thus, undertaking at least one audit every two years (Option A) is the correct requirement for maintaining EDGE Auditor status.

Reference:EDGE Expert and Auditor Protocols, Section 5.1: Maintaining Auditor Status, Section 5.2: Recertification Conditions; EDGE User Guide Version 2.1, Section 6.5: Working with EDGE Auditors.

## NEW QUESTION # 18

.....

The practice materials of the exam with low quality may complicate matters of the real practice exam. So, you must know about our EDGE-Expert question torrent. Our study material is not same as other dumps or study tools, it not only has good quality but also has cheap price. We have most professional team to compiled and revise EDGE-Expert Exam Question, in order to try our best to help you pass the exam and get a better condition of your life and your work.

**Exam EDGE-Expert Revision Plan:** <https://www.free4torrent.com/EDGE-Expert-braindumps-torrent.html>

Many exam candidates feel hampered by the shortage of effective EDGE-Expert preparation quiz, and the thick books and similar materials causing burden for you. As our loyal customer, some of them will choose different types of EDGE-Expert study materials on our website, EDGE New EDGE-Expert Study Notes In addition, we also set up the service system which includes the special service staffs and provide the 24/7 customers service online, Free download EDGE-Expert passleader training material.

The popular Watch and Work" mode shrinks the video into a small EDGE-Expert Learning Engine window to allow you to work alongside the instructors, practicing what you learn and reinforcing freshly gained knowledge.

Tommy Norman is the Agile Practice Lead at EDGE-Expert Valid Test Experience the Holland Square Group in Nashville, TN, Many exam candidates feel hampered by the shortage of effective EDGE-Expert Preparation quiz, and the thick books and similar materials causing burden for you.

## Real and Error Free Free4Torrent EDGE EDGE-Expert Exam Practice Test

As our loyal customer, some of them will choose different types of EDGE-Expert study materials on our website, In addition, we also set up the service system which includes EDGE-Expert the special service staffs and provide the 24/7 customers service online.

Free download EDGE-Expert passleader training material, If you are satisfied with the EDGE-Expert exam torrent, you can make the order and get the latest EDGE-Expert study material right now.
