

New Exam OGEE-101 Braindumps & Updated OGEE-101 Demo

What's more, part of that SurePassExams OGEE-101 dumps now are free: <https://drive.google.com/open?id=1VtqqXs5OboT7NYKJCxh5hevhmEPnamAd>

No matter how old you are, no matter what kind of job you are in, as long as you want to pass the professional qualification exam, OGEE-101 exam dump must be your best choice. All the materials in OGEE-101 test guide is available in PDF, APP, and PC versions. If you are a student, you can take the time to simulate the real test environment on the computer online. If you are an office worker, OGEE-101 practice materials provide you with an APP version that allows you to transfer data to your mobile phone and do exercises at anytime, anywhere. If you are a middle-aged person and you don't like the complex features of cell phones and computers, OGEE-101 practice materials also provide you with a PDF mode so that you can print out the materials and learn. At the same time, OGEE-101 test guide involve hundreds of professional qualification examinations. No matter which industry you are in, OGEE-101 practice materials can meet you.

Do you want to spend the least time to pass your exam? If you do, then we will be your best choice. OGEE-101 training materials are compiled by experienced experts who are quite familiar with the exam center, so the quality can be guaranteed. In addition, OGEE-101 exam materials contain most of the knowledge points for the exam, and you can have a good command of these knowledge points through practicing. In order to strengthen your confidence for the OGEE-101 Exam Braindumps, we are pass guarantee and money back guarantee if you fail to pass the exam. The money will be returned to your payment account.

Quiz 2025 The Best OGEE-101: New Exam TOGAF Enterprise Architecture Part 1 Exam Braindumps

The SurePassExams supports The Open Group OGEE-101 exam candidates by listening to their worries, resolving their problems, and offering them actual exam questions. The exam candidate has several concerns before choosing any platform. They want a platform that satisfies them and promises to help them prepare for the OGEE-101 test successfully on the first time.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51

Which one of the following classes of information within the Architecture Repository would typically contain a list of the applications in use within the enterprise?

- A. Governance Log
- B. Architecture Metamodel
- C. Reference Library

- **D. Architecture Landscape**

Answer: D

Explanation:

The Architecture Landscape is a class of information within the Architecture Repository that shows an architectural view of the building blocks that are in use within the organization today (the Baseline Architecture), as well as those that are planned for the future (the Target Architecture). The Architecture Landscape typically contains a list of the applications in use within the enterprise, along with their relationships and dependencies, as well as other relevant architectural information. The Architecture Landscape helps to identify opportunities for re-use, consolidation, or retirement of existing applications, as well as gaps or overlaps in the current or future architecture.

The TOGAF Standard, Version 9.2, Part IV: Architecture Content Framework, Chapter 34: Architecture Landscape : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 47: Architecture Repository

NEW QUESTION # 52

Refer to the table below:

Phase	Output & Outcome	Essential Knowledge
?	Sufficient documentation to get permission to proceed. Permission to proceed to develop a Target Architecture to prove out a summary target.	The scope of the problem being addressed. Those who have interests that are fundamental to the problem being addressed. (Stakeholders & Concerns) What summary answer to the problem is acceptable to the stakeholders? Stakeholder priority and preference. What value does the summary answer provide?

Which ADM Phase does this describe?

- A. Phase A
- B. Phase C
- **C. Phase B**
- D. Preliminary Phase

Answer: C

Explanation:

Phase B of the ADM cycle is the Business Architecture phase. It describes the development of a Business Architecture to support an agreed Architecture Vision. The objectives of this phase are to describe the baseline and target Business Architecture, identify candidate Architecture Roadmap components based on gaps between the baseline and target, and determine whether an incremental approach is required. Reference:

The TOGAF Standard | The Open Group Website, Section 3.2.2 Phase B: Business Architecture.

NEW QUESTION # 53

Which of the following best summarizes the purpose of Enterprise Architecture?

- A. Governing the Stakeholders.
- B. Taking major improvement decisions.
- C. Controlling the bigger changes.
- **D. Guiding effective change.**

Answer: D

Explanation:

EA applies architecture principles and practices to analyze, design, plan, and implement enterprise analysis that supports digital transformation, IT growth, and the modernization of IT2. EA also helps organizations improve the efficiency, timeliness, and reliability of business information, as well as the alignment, agility, and adaptability of the architecture to the changing needs and requirements3. Therefore, the best summary of the purpose of EA is to guide effective change.

NEW QUESTION # 54

Consider the following ADM phases objectives.

	Objective
1	Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders
2	Ensure conformance with the Target Architecture by implementation projects
3	Ensure that the architecture development cycle is maintained
4	Ensure that the Architecture Governance Framework is executed

Which phase does each objective match?

- A. 1G-2H-3H-4F
- B. 1H-2F-3F-4G
- C. 1F-2G-3G-4H
- D. 1F-2G-3H-4H

Answer: B

Explanation:

* According to the TOGAF Standard, Version 9.2, the ADM phases and their objectives are as follows¹:

* Preliminary Phase: To prepare and initiate the architecture development cycle, including defining the architecture framework, principles, and governance.

* Phase A: Architecture Vision: To define the scope, vision, and stakeholders of the architecture initiative, and to obtain approval to proceed.

* Phase B: Business Architecture: To describe the baseline and target business architecture, and to identify the gaps between them.

* Phase C: Information Systems Architectures: To describe the baseline and target data and application architectures, and to identify the gaps between them.

* Phase D: Technology Architecture: To describe the baseline and target technology architecture, and to identify the gaps between them.

* Phase E: Opportunities and Solutions: To identify and evaluate the opportunities and solutions for implementing the target architecture, and to define the work packages and transition architectures.

* Phase F: Migration Planning: To finalize the implementation and migration plan, and to ensure alignment with the enterprise portfolio and project management.

* Phase G: Implementation Governance: To provide architecture oversight and guidance for the implementation projects, and to manage any architecture change requests.

* Phase H: Architecture Change Management: To monitor the changes in the business and technology environment, and to assess the impact and performance of the architecture.

* Requirements Management: To manage the architecture requirements throughout the ADM cycle, and to ensure alignment with the business requirements.

* Based on the above definitions, we can match each objective with the corresponding phase as follows:

* Objective 1: Ensure that the business value and cost of work packages and transition architectures is understood by key stakeholders. This objective is achieved in Phase H: Architecture Change Management, where the value realization and cost-benefit analysis of the architecture are performed².

* Objective 2: Ensure conformance with the Target Architecture by implementation projects. This objective is achieved in Phase F: Migration Planning, where the conformance requirements and criteria for the implementation projects are defined³.

* Objective 3: Ensure that the architecture development cycle is maintained. This objective is achieved in Phase F: Migration Planning, where the architecture roadmap and iteration cycle are maintained³.

* Objective 4: Ensure that the Architecture Governance Framework is executed. This objective is achieved in Phase G: Implementation Governance, where the architecture governance processes and procedures are applied to the implementation projects⁴.

NEW QUESTION # 55

Which of the following describes how the Enterprise Continuum is used when developing an enterprise architecture?

- A. To coordinate with the other management frameworks in use
- **B. To classify architecture and solution assets**
- C. To identify and understand business requirements
- D. To describe how an architecture addresses stakeholder concerns

Answer: B

Explanation:

The Enterprise Continuum consists of two complementary concepts: the Architecture Continuum and the Solutions Continuum¹. The Architecture Continuum provides a consistent way to describe and understand the generic and reusable architecture building blocks, such as models, patterns, and standards, that can be applied and tailored to specific situations². The Solutions Continuum provides a consistent way to describe and understand the specific and implemented solution building blocks, such as products, services, and components, that realize the architecture building blocks³. The Enterprise Continuum enables the reuse and integration of architecture and solution assets across different levels of abstraction, scope, and detail, ranging from foundation architectures to organization-specific architectures¹.

The Enterprise Continuum is used when developing an enterprise architecture to support the following activities¹:

*Selecting relevant architecture and solution assets from the Architecture Repository or other sources, based on the business drivers, goals, and requirements

*Adapting and customizing the architecture and solution assets to suit the specific needs and context of the enterprise

*Defining and developing the target architecture and the architecture roadmap, based on the gaps and opportunities identified between the baseline and the target states

*Defining and developing the implementation and migration plan, based on the architecture roadmap and the solution building blocks

*Governing and managing the architecture and solution assets throughout the architecture lifecycle, ensuring their quality, consistency, and compliance

NEW QUESTION # 56

.....

Failure in the OGEEA-101 test of the TOGAF Enterprise Architecture Part 1 Exam credential leads to loss of time and money. Therefore preparing with TOGAF Enterprise Architecture Part 1 Exam actual test questions matters a lot to save time and money. The prep material of SurePassExams comes in three different formats so that users with different study styles can prepare with ease. We have made this TOGAF Enterprise Architecture Part 1 Exam product after taking feedback of experts so that applicants can prepare for the The Open Group OGEEA-101 Exam successfully.

Updated OGEEA-101 Demo: <https://www.surepassexams.com/OGEEA-101-exam-bootcamp.html>

We are not just only certificated but also have a strong team which pays close attention to trends of our fields to make sure that our OGEEA-101 study guide are latest, The Open Group New Exam OGEEA-101 Braindumps The average preparing time of our candidates is 20-30 hours, which means you only need about two days to get yourself prepared for the exam, The SurePassExams is committed to making the The Open Group OGEEA-101 exam practice test question the ideal study material for quick and complete TOGAF Enterprise Architecture Part 1 Exam (OGEEA-101) exam preparation.

And, the team reasoned, visitors would already be on the OGEEA-101 lookout for the entry information, since they got to the site by clicking an ad promoting the sweepstakes.

Meeting the Requirements Challenge Iteratively, We are not just only certificated but also have a strong team which pays close attention to trends of our fields to make sure that our OGEEA-101 Study Guide are latest.

Free PDF 2025 OGEEA-101: TOGAF Enterprise Architecture Part 1 Exam High Hit-Rate New Exam Braindumps

The average preparing time of our candidates is 20-30 OGEEA-101 Formal Test hours, which means you only need about two days to get yourself prepared for the exam, The SurePassExams is committed to making the The Open Group OGEEA-101 exam practice test question the ideal study material for quick and complete TOGAF Enterprise Architecture Part 1 Exam (OGEEA-101) exam preparation.

Our study material contain the most up-to-date OGEEA-101 questions answers and explanations which cover the all syllabus completely, It is convenient for you to see the answers to the questions and remember them.
