NEW QUESTION # 188
Which of the following is included in the purpose of the 'continual improvement' practice?

- A. The reduction of the likelihood and impact of incidents
- B. The establishment of links between the organization and its stakeholders at strategic and tactical levels
- C. The alignment of the organization's practices and services with changing business needs
- D. The restoration of normal service operation as quickly as possible

Answer: C

Explanation:
Continual improvement encompasses all elements of the ITIL SVS. It involves aligning an organization's practices and services with changing business needs, through the ongoing assessment and improvement of each element involved in the management of products and services. Continual improvement applies to the SVS in its entirety, as well as to all of the organization's products, services, service components, and relationships, and is the responsibility of every individual involved in service management.
