100% Pass 2025 Microsoft Marvelous New GH-100 Exam Simulator

We are dedicated to help you pass the exam and gain the corresponding certificate successful. GH-100 exam cram is high-quality, and you can pass your exam by using them. In addition, GH-100 exam braindumps cover most of knowledge points for the exam, and you can also improve your ability in the process of learning. You can obtain the download link and password within ten minutes, so that you can begin your learning right away. We have free update for 365 days if you buying GH-100 Exam Materials, the update version for GH-100 exam cram will be sent to your email automatically.

Microsoft GH-100 Exam Syllabus Topics:

Topic	Details

Topic 1	• Manage GitHub Packages:This section of the exam measures skills of GitHub Enterprise Administrators and focuses on managing GitHub Packages, their use in workflows, and how they differ from releases. It involves accessing, writing, and sharing packages across teams while ensuring integration into CI • CD pipelines.
Topic 2	• Support GitHub Enterprise for users and key stakeholders: This section of the exam measures skills of GitHub Enterprise Administrators and covers supporting users, identifying issues that can be resolved internally versus those needing GitHub Support, and generating support bundles and diagnostics. It also involves recognizing underutilized features, managing workflows like branching and pull requests, understanding CI • CD strategies, recommending tooling, and extending capabilities through APIs or Marketplace apps.
Topic 3	• Manage access and permissions based on membership: This section of the exam measures skills of DevOps Engineers and reviews how to manage organizations, teams, and repository permissions. It includes default permission settings, team synchronization through AD, scripting across multiple organizations, and aligning enterprise policies with trust requirements. It also contrasts roles such as organization members, owners, collaborators, and billing managers.
Topic 4	• Manage GitHub Actions: This section of the exam measures skills of DevOps Engineers and emphasizes managing workflows, reusable actions, and distribution strategies within the enterprise. It explains configuring organization-level policies, managing self-hosted and GitHub-hosted runners, controlling access through IP allow lists, handling encrypted secrets, and integrating third-party vaults for workflow security.

Microsoft GitHub Administration Sample Questions (Q29-Q34):

NEW QUESTION # 29

You need GitHub to automatically notify a third-party service any time a new repository is created. You want to avoid writing custom code. The vendor has told you that they have a tool in the GitHub Marketplace. Which type of tool do you need?

- A. GitHub Models
- B. GitHub Copilot Extension
- **C. GitHub App**
- D. GitHub Action

Answer: C

Explanation:

You need a GitHub App. Marketplace integrations that listen for events like repository.created and send notifications are delivered as GitHub Apps, since they can subscribe to organization-level webhooks without you writing custom code.

NEW QUESTION # 30

Why is a GitHub App preferred over a PAT for machine authentication?

- A. GitHub Apps are required to pass SAML assertions
- **B. GitHub Apps have time-limited installation tokens with scoped access**
- C. PATs cannot be used in GitHub Actions
- D. PATs support fewer GitHub APIs than Apps

Answer: B

Explanation:

GitHub Apps issue short-lived installation tokens that you scope to only the permissions and repositories your automation needs, reducing blast radius and automatically rotating credentials.

NEW QUESTION # 31

What benefit does GitHub Advanced Security provide?

- A. helps organization administrators manage security tokens
- B. helps enterprise administrators improve and maintain network security for their GitHub Enterprise Server instances
- **C. helps developers improve and maintain the security and quality of code**
- D. helps organization administrators analyze and configure permissions to the least privilege required

Answer: C

Explanation:

GitHub Advanced Security equips developers with built-in code scanning (CodeQL), secret scanning, dependency review, and other AppSec tools - helping them find, fix, and prevent security vulnerabilities while maintaining code quality.

NEW QUESTION # 32

Which GitHub feature is responsible for tracking dependencies and known vulnerabilities in those dependencies from an advisory database?

- A. Repository Insights
- B. Security Policy
- **C. Dependency Graph**
- D. CodeQL

Answer: C

Explanation:

The Dependency Graph continuously analyzes your repository's manifest and lock files to build an inventory of direct and transitive dependencies and flags any that match entries in the GitHub Advisory Database, surfacing known vulnerabilities.

NEW QUESTION # 33

You discover that a secret (e.g., a token or password) was accidentally committed to a GitHub repository. What is the first step you should take to mitigate the risk?

- **A. Revoke and/or rotate the secret to render it unusable, then assess whether history rewriting is necessary.**
- B. Contact GitHub Support to remove the secret from all forks and clones of the repository.
- C. Delete the repository and create a new one to ensure the secret is no longer accessible.
- D. Rewrite the repository history using git filter-repo or BFG Repo-Cleaner to remove the secret from all commits.

Answer: A

Explanation:

The immediate priority is to revoke or rotate the exposed credential so it can no longer be used; once it's invalidated, you can safely proceed with history-rewriting or other cleanup steps.

NEW QUESTION # 34

.....

Now we live in a highly competitive world. If you want to find a decent job and earn a high salary you must own excellent competences and rich knowledge. Under this circumstance, owning a GH-100 guide torrent is very important because it means you master good competences in certain areas and can handle the job well. The GH-100 exam prep we provide can help you realize your dream to pass exam and then own a GH-100 exam torrent. VCEdumps provide high pass rate materials that are compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value. Please firstly try out our GH-100 Exam Materials demo before you decide to buy our product. It is worthy for you to buy our GH-100 exam preparation not only because it can help you pass the exam successfully but also because it saves your time and energy.
