### NEW QUESTION # 55

A Consultant is asked to help design a solution which could aid a company in expanding their reach into the small and medium business (SMB) segment. This has traditionally been a challenge for a company in the direct-sales channel because the small and medium business greatly outnumber the Sales team.

What should the Consultant do in the design to allow for Advertiser/Agency to self-service their media plans?

- A. Build an Experience Cloud with the Customer Service template for the Advertiser to navigate the product catalog and configure the products in the site.
- B. Set up Web-to-Lead and have the Advertiser/Agency submit their media plan through a website so the Sales team can later take ownership of the record and follow up to finalize the media plan.
- C. Leverage the Advertising Sales Management Self-Care feature so that approved Advertiser/Agency can access an Experience Cloud portal where they can create and track their media plans.
- D. Set up a public user, which anyone can use to create their own media plan, and provide their company information in the record detail.

#### Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Advertising Sales Management (ASM) Self-Care is a built-in feature in Media Cloud that allows approved Advertisers and Agencies to use an Experience Cloud portal for creating and tracking media plans. This is the recommended solution to enable self-service while maintaining controlled access, which is critical for scaling SMB reach efficiently. Web-to-Lead or public users lack the robustness and security of the Self-Care portal.
