You can have general review of what you have learnt. Besides, Salesforce-Slack-Administrator Exam Braindumps offer you free demo to have a try before buying.

### Salesforce Certified Slack Administrator Sample Questions (Q113-Q118):

#### NEW QUESTION # 113

As an Org Admin at a healthcare company, you've been tasked with simplifying the experience for getting an upcoming communications project Slack-ready. A team of your organization's employees will work with a dozen rotating consultants at a communications agency to manage several communications campaigns over the next 6 to 8 months.

You'll manage this external collaboration using guests or Slack Connect.

What is the best method for managing this collaboration?

- A. Provide the communications agency with guest accounts so that they can invite additional external users to the channels as needed.
- B. Use Slack Connect in order to automatically sunset the external access to the shared Slack channels after the 8 months is completed.
- C. Provide the communications agency with guest accounts so that you can block file uploads/downloads for this work.
- D. Use Slack Connect to allow each organization to manage privacy settings, oversee channel naming, and add their own team members as project needs shift.

#### Answer: D

Explanation:

Slack recommends using Slack Connect for secure, flexible external collaboration:

"Slack Connect enables organizations to manage their own members, privacy settings, and security policies while sharing channels with external partners." Using guest accounts (B, D) would require you to manage all external users yourself, which is burdensome and inflexible. Option C incorrectly implies that Slack Connect automatically sunsets access - expiration must be manually managed. (Reference: Slack Administration Study Guide - Slack Connect External Collaboration)

#### NEW QUESTION # 114

You're a Workspace Owner and App Manager for your company's Slack Enterprise Grid instance. The Human Resources (HR) team at your company wants to pilot a Wellness app for all employees in your workspace.

As an App Manager, what are the two key considerations you should understand before installing the app in Slack?  
(Select the TWO best answers.)

Is this app available in the Slack App Directory?

- A. What are the external services or APIs the app is connecting to?
- B. Does the app connect with your HR system?
- C. Does the app have a valid business use case?
- D. Does the app meet data security policies for your organization?

**Answer: A,B**

#### **NEW QUESTION # 115**

You're the Org Admin for a company's Slack Enterprise Grid organization. Currently, Workspace Admins can decide how guest invitations are managed within their workspace. You want to lock this policy so that guest invitations can only be approved by Org Owners and Admins.

What action should you take to make this change?

(Select the best answer)

- A. Ask the Org Owner to make this change because only Org Owners can change org-level policies and settings.
- B. Lock guest invitations from each workspace's setting page.
- **C. Lock guest invitations from the org admin dashboard.**
- D. Notify users that guest Invitations must be submitted at the org level In the announcements channel.

**Answer: C**

#### **NEW QUESTION # 116**

Your team is planning to upgrade from the Pro plan to the Business+ plan.

The implementation team is drafting a vision for Slack to match the new season of working in Slack inspired by the upgrade.

As an admin, you're most concerned with how this statement can support end users.

What is the strongest benefit a vision statement provides for end users?

- **A. A user will understand the purpose of using Slack for their work in a new shared way.**
- B. A user will learn several Slack channels they should join.
- C. A user will know about newly released features.
- D. A user will be able to describe their permissions compared to admin permissions.

**Answer: A**

Explanation:

Slack's guidance on change management recommends:

"A vision statement defines the purpose of Slack in the organization's broader workflow. It helps end users align on why Slack is being used and how it supports their day-to-day work." It focuses on strategic understanding, not tactical elements like channel lists (B), permissions (C), or feature updates (D).

(Reference: Slack Administration Study Guide - Change Management and Slack Adoption Planning)

#### **NEW QUESTION # 117**

You're an Org Admin for an organization with an Enterprise Grid plan. You receive a list of several full members who will be leaving the organization in 5 days, with the instruction to deactivate their accounts after their departure.

What is the best way to do this?

- A. Deactivate the members in the Organization Settings 'Members' tab.
- B. Contact Slack via /feedback to get the members deactivated.
- C. Request the Primary Org Owner do this, as they are the only one who can perform this action.
- **D. Deactivate the members utilizing the SCIM API.**

**Answer: D**

Explanation:

Slack recommends:

"When using SCIM provisioning, admins can automate the deactivation of user accounts through the SCIM API, ensuring synchronization with identity provider (IdP) data." Deactivating manually through the Org Settings (A) is possible but less efficient and scalable. Contacting Slack via /feedback (B) is not appropriate for standard admin tasks. Deactivation is not limited to Primary Org Owners only (D).

(Reference: Slack Administration Study Guide - User Lifecycle Management with SCIM)

## NEW QUESTION # 118

.....

Our Salesforce-Slack-Administrator guide question dumps are suitable for all age groups.
