

# New SC-401 Test Voucher | SC-401 Reliable Dumps Files

BONUS!!! Download part of Pass4sureCert SC-401 dumps for free: <https://drive.google.com/open?id=10HIXgoJqpCOM-Lg46PYdZOXNhHd1jtQy>

The Pass4sureCert wants to win the trust of Administering Information Security in Microsoft 365 (SC-401) exam candidates at any cost. To fulfill this objective the Pass4sureCert is offering top-rated and real SC-401 exam practice test in three different formats. These Microsoft SC-401 exam question formats are PDF dumps, web-based practice test software, and web-based practice test software. All these three Pass4sureCert exam question formats contain the real, updated, and error-free Microsoft SC-401 Exam Practice test.

The Microsoft SC-401 is a very prestigious certificate that is considered a guarantee of a well-paid job in a reputed tech firm. Most candidates attempting the Administering Information Security in Microsoft 365 test are nervous. Very few applicants can earn the Administering Information Security in Microsoft 365 SC-401 certificate on their first attempts because of the challenging level of topics included in the Microsoft SC-401 test. Pass4sureCert SC-401 actual dumps help applicants in clearing the test very easily.

## New SC-401 Test Voucher & Certification Success Guaranteed, Easy Way of Training & Microsoft Administering Information Security in Microsoft 365

Everybody wants success, but not everyone has a strong mind to persevere in study. If you feel unsatisfied with your present status, our SC-401 actual exam can help you out. Our SC-401 exam questions always boast a pass rate as high as 99%. Using our study materials can also save your time in the exam preparation. If you choose our SC-401 Test Engine, you are going to get the certification easily. Just make your choice and purchase our SC-401 study materials and start your study right now! Knowledge, achievement and happiness are waiting for you!

### Microsoft SC-401 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>• <b>Implement Information Protection:</b> This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Protect Data Used by AI Services:</b> This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Implement Data Loss Prevention and Retention:</b> This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Manage Risks, Alerts, and Activities:</b> This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.</li> </ul>

## Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q108-Q113):

### NEW QUESTION # 108

You have a Microsoft 365 E5 subscription.

You need to create static retention policies for the following locations:

- \*Teams chats
- \*Exchange email
- \*SharePoint sites
- \*Microsoft 365 Groups
- \*Teams channel messages

What is the minimum number of retention policies required?

- A. 0
- **B. 1**
- C. 2
- D. 3
- E. 4

**Answer: B**

Explanation:

In Microsoft Purview Data Lifecycle Management, different Microsoft 365 locations require separate retention policies because they fall under different storage and compliance models.

Teams Chats & Teams Channel Messages (1 Policy) require a separate retention policy because Teams messages are stored differently than Exchange and SharePoint content. One policy can cover both Teams chats and Teams channel messages. Exchange Email (1 Policy) requires its own separate policy since emails are managed differently than Teams or SharePoint content. SharePoint Sites & Microsoft 365 Groups (1 Policy) are both stored in SharePoint Online, so they can be managed under one policy.

### NEW QUESTION # 109

DRAG DROP

You need to create a trainable classifier that can be used as a condition in an auto-apply retention label policy.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

### Actions

0 Publish the trainable classifier.

0 Retrain the trainable classifier.

0 Create the trainable classifier.

0 Test the trainable classifier.

0 Create a terms of use (ToU) policy.

### Answer Area

0

0

0

Answer:

Explanation:

### Actions

0 Publish the trainable classifier.

0 Retrain the trainable classifier.

0 Create the trainable classifier.

0 Test the trainable classifier.

0 Create a terms of use (ToU) policy.

### Answer Area

0 Create the trainable classifier.

0 Test the trainable classifier.

0 Create a terms of use (ToU) policy.

Explanation:

### Actions

Retrain the trainable classifier.

Create a terms of use (ToU) policy.

### Answer Area

Create the trainable classifier.

Test the trainable classifier.

Publish the trainable classifier.

To create a trainable classifier that can be used in an auto-apply retention label policy, you need to follow these key steps:

1. Create the trainable classifier

This is the first step where you define the classifier, specifying the types of content it should identify.

2. Test the trainable classifier

Before using the classifier in production, you need to validate its accuracy by testing it against sample documents to ensure it correctly classifies the intended data.

3. Publish the trainable classifier

Once testing is successful, you must publish the classifier so that it can be used in policies like auto-apply retention labels in Microsoft Purview.

### NEW QUESTION # 110

You have a Microsoft 365 E5 subscription that contains a Microsoft SharePoint Online site named Site1 and the data loss prevention (DLP) policies shown in the following table.

Name	Priority	Rule
DLP1	0	Rule1
DLP2	1	Rule2
DLP3	2	Rule3
DLP4	3	Rule4

The DLP rules are configured as shown in the following table.

Rule	User notifications	Policy tip	If there's a match for this rule, stop processing additional DLP policies and rules
Rule1	On	Tip 1	Enabled
Rule2	On	Tip 2	Disabled
Rule3	On	Tip 3	Enabled
Rule4	On	Tip 4	Disabled

All the policies are assigned to Site1.

You need to ensure that if a user uploads a document to Site1 that matches all the rules, the user will be shown the Tip 2 policy tip. What should you do?

- A. Change the priority of DLP2 to 3.
- B. Enable additional processing of the policies if there is a match for Rule1.
- C. Change the priority of DLP2 to 0.
- **D. Prevent additional processing of the policies if there is a match for Rule2**

**Answer: D**

### NEW QUESTION # 111

You have a Microsoft 365 E5 subscription that has a sensitivity label named Sensitivity1.

You plan to create an auto-labeling policy that will apply Sensitivity1 to Microsoft Exchange Online mailboxes.

On February 1, you create the auto-labeling policy and enable simulation mode by using the default settings.

No modifications are made to the policy in simulation mode.

When will the policy first be turned on?

- A. February 6
- B. February 2
- C. never
- **D. February 15**

**Answer: D**

### NEW QUESTION # 112

You need to meet the technical requirements for the Site1 documents.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Create a sensitivity label.
Wait 24 hours and then turn on the policy.
Create a sensitive info type.
Create a retention label.
Create an auto-labeling policy.

Answer Area

**Answer:**

Explanation:

Actions

Create a sensitivity label.
Wait 24 hours and then turn on the policy.
Create a sensitive info type.
Create a retention label.
Create an auto-labeling policy.

Answer Area

Create a sensitive info type.
Create a retention label.
Create an auto-labeling policy.

Explanation:

Actions	Answer Area
	Create a sensitive info type.
Wait 24 hours and then turn on the policy.	Create a sensitivity label.
Create a retention label.	Create an auto-labeling policy.

The goal is to automatically label documents in Site1 that contain credit card numbers. To achieve this, we need a sensitivity label with an auto-labeling policy based on a sensitive info type that detects credit card numbers.

Step 1: Create a Sensitive Info Type

# A sensitive info type is needed to detect credit card numbers in documents.

# Microsoft Purview includes built-in sensitive info types for credit card numbers, but we can also create a custom one if necessary.

Step 2: Create a Sensitivity Label

# A sensitivity label is required to classify and protect documents containing sensitive information.

# This label can apply encryption, watermarking, or access controls to credit card data.

Step 3: Create an Auto-Labeling Policy

# An auto-labeling policy ensures that the sensitivity label is applied automatically when credit card numbers are detected in Site1.

# This policy is configured to scan files and automatically apply the correct sensitivity label.

## NEW QUESTION # 113

.....

We offer you free update for one year for SC-401 study guide, namely, in the following year, you can obtain the latest version for free. And the latest version for SC-401 exam dumps will be sent to your email automatically. In addition, SC-401 exam materials are high quality, since we have experienced experts to compile and verify them, therefore the quality and accuracy can be guaranteed, so you can use them at ease. We have online and offline chat service, and if you have any questions about SC-401 Exam Dumps, you can consult us, and we will give you reply as quickly as possible.
