- A. A central location to view of all projects in a portfolio to prioritize work

The Project Workspace also enables users to collaborate with team members and stakeholders, track project progress, and generate reports.

The other options are incorrect because:

A: A central location to view of all projects in a portfolio to prioritize work: This describes the Portfolio Workbench, not the Project Workspace<sup>2</sup>.

C: A central location transform the navigation of lists and forms into an interactive graphical experience: This describes the Lens, not the Project Workspace<sup>3</sup>.

D: A central location for viewing and assessing business demands: This describes the Demand Workbench, not the Project Workspace.
