## How to study the PDI Exam

There are two main types of resources for preparation of certification exams first there are the study guides and the books that are detailed and suitable for building knowledge from ground up then there are video tutorial and lectures that can somehow ease the pain of through study and are comparatively less boring for some candidates yet these demand time and concentration from the learner. Smart Candidates who want to build a solid foundation in all exam topics and related technologies usually combine video lectures with study guides to reap the benefits of both but there is one crucial preparation tool as often overlooked by most candidates the practice exams. Practice exams are built to make students comfortable with the real exam environment. Statistics have shown that most students fail not due to that preparation but due to exam anxiety the fear of the unknown. Freed4Torrent expert team recommends you to prepare some notes on these topics along with it don't forget to practice [Salesforce PDI exam dumps](#) which been written by our expert team, Both these will help you a lot to clear this exam with good marks.

**NEW QUESTION # 66**

You want to plan transports with driver assignment. Where can you assign a driver? Note: There are 2 correct answers to this question.

- **A. Vehicle resource**
- B. Transportation lane
- **C. Freight order**
- D. Freight booking

**Answer: A,C**

Explanation:

In SAP S/4HANA Transportation Management, driver assignment is part of the transportation planning process to ensure that specific drivers are allocated to transports. According to the SAP documentation, drivers can be assigned in:

\* Freight order (C): Drivers can be assigned directly to a freight order during planning or execution, specifying who will operate the vehicle for the transport.

\* Vehicle resource (D): Drivers can be assigned to a vehicle resource in the master data, linking a driver to a specific vehicle for planning purposes.

The other options are incorrect:

\* Transportation lane (A) defines routes and costs but does not include driver assignments.

\* Freight booking (B) is used for ocean or air transport and typically does not involve driver assignments, which are more relevant to road transport (freight orders).
