As long as you are willing to exercise on a regular basis, the exam will be a piece of cake, because what our CCII practice materials include are quintessential points about the exam.

McAfee Certified Cyber Intelligence Investigator (CCII) Sample Questions (Q72-Q77):

NEW QUESTION # 72

You should always take screen captures of a suspect's profile online to preserve it as potential evidence.

- A. True
- B. False

Answer: A

Explanation:

Digital evidence can change rapidly due to user modifications or platform restrictions. Screen captures provide a legally defensible record of information at a given point in time. Tools like Hunchly, Maltego, and OSINT Capture are often used to authenticate screenshots and ensure chain-of-custody compliance.

NEW QUESTION # 73

A legal factor of computer-generated evidence is that it is considered hearsay.

- A. True
- B. False

Answer: A

Explanation:

Computer-generated evidence, such as log files, metadata, and automated reports, is often classified as hearsay because it lacks a human declarant. However, exceptions exist under:

Business records exception- If logs are kept in the regular course of business.

Public records exception- If data is collected by government agencies.

Forensic investigators use hash verification and timestamp validation to ensure evidence reliability.

NEW QUESTION # 74

Operational intelligence is considered:

- A. Information that can be used for military operations
- B. Actionable intelligence about long-term threats that is used to develop and implement preventive responses

Answer: B

Explanation:

Operational intelligence is real-time or near-term intelligence used for ongoing operations. It helps:

Law enforcement agencies prevent crimes through surveillance and monitoring.

Businesses and governments detect cybersecurity threats before they escalate.

Counterterrorism teams assess risks and respond rapidly to threats.

Operational intelligence is different from strategic intelligence, which focuses on long-term analysis of trends and threats.

NEW QUESTION # 75

Which technique is used for profiling individuals during an investigation?

- A. IP Tracking
- B. Social Media Analysis
- C. All of the above

- D. Facial Recognition

Answer: C

Explanation:

Investigators use multiple techniques to build profiles on suspects:

Social Media Analysis- Reviewing posts, connections, and activities.

IP Tracking- Identifying locations and internet usage patterns.

Facial Recognition- Matching images to known identities in databases.

These techniques help in cybercrime investigations, fraud detection, and counterterrorism. However, privacy laws govern their ethical and legal use.

NEW QUESTION # 76

You do not need a subpoena to request user information from Facebook.

- A. False
- B. True

Answer: A

Explanation:

Facebook requires legal documentation such as:

Subpoenas for user metadata (IP addresses, email, basic profile info).

Search warrants for private messages, photos, and posts.

Emergency disclosure requests for imminent threats (e.g., terrorism).
