

Newest Reliable FCSS_SDW_AR-7.4 Exam Price & Leading Offer in Qualification Exams & Unparalleled FCSS_SDW_AR-7.4: FCSS - SD-WAN 7.4 Architect

2025 Latest PassSureExam FCSS_SDW_AR-7.4 PDF Dumps and FCSS_SDW_AR-7.4 Exam Engine Free Share:
<https://drive.google.com/open?id=1MThkm8bK3HGLPICVqKbMOPQDWCF-fgua>

If you use our FCSS_SDW_AR-7.4 practice test software, you can prepare for the exam in an atmosphere that is quite similar to the FCSS_SDW_AR-7.4 real test, which will greatly aid in your preparation. The Fortinet FCSS_SDW_AR-7.4 desktop practice exam software keeps track of your previous tries. This feature will help you identify where you need the most improvement so you can focus your efforts and boost your score the next time you take the FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) practice test.

Fortinet FCSS_SDW_AR-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	Advanced IPsec: Intended for security engineers, this section covers the deployment of advanced IPsec topologies for SD-WAN, including hub-and-spoke models, ADVPN configurations, and complex multi-hub or multi-region deployments. Candidates need to demonstrate expertise in securing wide-area networks using IPsec technologies.
Topic 2	Rules and Routing: Targeted at network engineers, this section assesses the ability to configure SD-WAN rules and routing policies. Candidates will be tested on managing traffic flow and prioritization across the SD-WAN infrastructure.
Topic 3	Centralized Management: This domain evaluates network administrators' competence in deploying and managing SD-WAN configurations centrally using FortiManager. It includes tasks such as implementing branch configurations and utilizing overlay templates to streamline network management.

Exam FCSS_SDW_AR-7.4 Guide | New FCSS_SDW_AR-7.4 Test Voucher

PassSureExam is the website that has been known to learn IT technology. PassSureExam gets high praise from our customers in real test questions and answers. It is the real website that can help you to pass Fortinet FCSS_SDW_AR-7.4 certificate. Why is PassSureExam very popular? Because PassSureExam has a group of IT elite which is committed to provide you with the best test questions and test answers. Therefore, PassSureExam will provide you with more and better certification training materials to satisfy your need.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q44-Q49):

NEW QUESTION # 44

Which three characteristics apply to provisioning templates available on FortiManager? (Choose three.)

- A. Each template group can contain up to three IPsec tunnel templates.
- B. CLI templates are applied in order, from top to bottom
- C. A CLI template group can contain CLI templates of both types.
- D. A template group can include a system template and an SD-WAN template.
- E. A CLI template can be of type CLI script or Perl script.

Answer: B,C,D

NEW QUESTION # 45

You are tasked with configuring ADVPN 2.0 on an SD-WAN topology already configured for ADVPN. What should you do to implement ADVPN 2.0 in this scenario?

- A. Update the SD-WAN configuration on the branches.
- B. Update the IPsec tunnel configurations on the hub.
- C. Delete the existing ADVPN configuration and configure ADVPN 2.0.
- D. Update the IPsec tunnel configuration on the branches.

Answer: A

NEW QUESTION # 46

Refer to the exhibit.

BGP configuration

```
config router bgp
  set as 65000
  set router-id 10.200.99.253
  set ibgp-multipath enable
  set additional-path enable
  set additional-path-select 3
  config neighbor-group
    edit "VPN1"
      set soft-reconfiguration enable
      set remote-as 65000
    next
    edit "VPN2"
      set soft-reconfiguration enable
      set remote-as 65000
    next
    edit "VPN3"
      set soft-reconfiguration enable
      set remote-as 65000
    next
  end
  config neighbor-range
    edit 1
      set prefix 192.168.1.0 255.255.255.192
      set neighbor-group "VPN1"
    next
    edit 2
      set prefix 192.168.1.64 255.255.255.192
      set neighbor-group "VPN2"
    next
    edit 3
      set prefix 192.168.1.128 255.255.255.192
      set neighbor-group "VPN3"
    next
  end
  ...
end
```

The exhibit shows the BGP configuration on the hub in a hub-and-spoke topology. The administrator wants BGP to advertise prefixes from spokes to other spokes over the IPsec overlays, including additional paths. However, when looking at the spoke routing table, the administrator does not see the prefixes from other spokes and the additional paths. Which three settings must the administrator configure inside each BGP neighbor group so spokes can learn the prefixes of other spokes and their additional paths? (Choose three.)

- A. Set additional-path to send
- B. Set adv-additional-path to the number of additional paths to advertise.
- C. Enable route-reflector-client.
- D. Set additional-path to forward
- E. Enable route-reflector-server

Answer: A,B,C

Explanation:

The hub must send additional paths to spokes (set additional-path send).

The hub must treat each spoke as a route-reflector client so spoke routes are reflected to other spokes.

The hub must specify how many additional paths to advertise (set adv-additional-path <n>).

NEW QUESTION # 47

As an MSSP administrator, you are asked to configure ADVPN on an existing SD-WAN topology.

FortiManager manages the customer devices in a dedicated ADOM. The previous administrator used the SD-WAN overlay topology.

Which two statements apply to this scenario? (Choose two.)

- A. When auto-discovery VPN is enabled, FortiManager updates the IPsec and BGP templates in the hub.
- B. After you enable auto-discovery VPN in the overlay template, you must select between ADVPN 2.0 and ADVPN 1.0.
- C. You can activate auto-discovery VPN in the SD-WAN overlay template only if it is a single hub topology.
- D. You can activate auto-discovery VPN in the SD-WAN overlay template for any type of topology, including a primary-primary dual-hub topology.

Answer: A,D

Explanation:

When you enable ADVPN (auto-discovery VPN) in the overlay template, FortiManager automatically updates both the IPsec and BGP templates on the hub so that shortcut tunnels can be established dynamically.

ADVPN can be activated in the SD-WAN overlay template for any supported topology, including dual-hub primary-primary, not just single hub.

NEW QUESTION # 48

Refer to the exhibits.

Exhibit A

☐	#	Name	From	To	Source	Destination
☒	1	DIA	☒ D-LAN ☒ LAN	☒ Underlay	LAN-net	all
☐	Implicit (2/2 Total:1)					
☐	2	Implicit Deny	any	any	all all	all all

Exhibit B

```
View Install Log

Copy device global objects
validation error on firewall policy 1, by dynamic interface check

Vdom copy failed:
error 42 - entry not exist. detail: Dynamic interface "LAN" mapping undefined for device branch2_fgt

Copy objects for vdom root
```

Exhibit A shows a policy package definition. Exhibit B shows the install log that the administrator received when he tried to install the policy package on FortiGate devices.

Based on the output shown in the exhibits, what can the administrator do to solve the issue?

- A. Dynamic mapping should be done automatically. Review the LAN interface configuration for branch2_fgt.
- B. Policies can refer to only one LAN source interface. Keep only the D-LAN, which is the dynamic LAN interface.
- C. Use a metadata variable instead of a dynamic interface to define the firewall policy.

- D. Create dynamic mapping for the LAN interface for all devices in the installation target list.

Answer: D

NEW QUESTION # 49

• • • • •

n modern society, whether to obtain FCSS_SDW_AR-7.4 certification has become a standard to test the level of personal knowledge. Many well-known companies require the FCSS_SDW_AR-7.4 certification at the time of recruitment. Whether you're a student or a white-collar worker, you're probably trying to get the certification in order to get more job opportunities or wages. If you are one of them, our FCSS_SDW_AR-7.4 Exam Guide will effectively give you a leg up.
