2025 Latest ITFAS-Level-1 – 100% Free Valid Mock Exam | Inspection and Testing of Fire Alarm Systems Level I Exam Exam Pattern

The DumpsValid offers desktop NICET ITFAS-Level-1 Practice Exam software for students to practice for the ITFAS-Level-1 exam. This software mimics the actual Inspection and Testing of Fire Alarm Systems Level I Exam (ITFAS-Level-1) exam and tracks the student's progress, records grades, and compares results. Available for Windows computers, it requires an internet connection only for license validation.

NICET Inspection and Testing of Fire Alarm Systems Level I Exam Sample Questions (Q78-Q83):

NEW QUESTION # 78

When testing a room temperature switch, below what temperature does the off-normal signal occur?

- A. 40 °F (4.4 °C)
- B. 32 °F (0.0 °C)
- C. 50 °F (10.0 °C)
- D. 45 °F (7.2 °C)

Answer: A

Explanation:

Room temperature switches are used to detect freezing conditions in environments such as sprinkler valve rooms. An off-normal (supervisory) condition is triggered if the temperature drops below 40 °F (4.4 °C).

NFPA 72 (2022), Section A.17.16.1.1:

"Low-temperature supervisory signals shall be initiated when the temperature falls below 40 °F (4.4 °C) unless otherwise specified." This signal helps prevent system damage or failure due to freezing.

Correct answer: B. 40 °F (4.4 °C)

NEW QUESTION # 79

A single open fault, in a Class A pathway, shall result in the annunciation of which of the following signals?

- A. Alarm
- B. Supervisory
- C. Trouble
- D. Pre-alarm

Answer: C

Explanation:

In a Class A fire alarm circuit, a single open condition does not affect communication but must still be annunciated as a trouble signal.

NFPA 72 (2022), Section 12.3.1.1.4:

"A single open condition on a Class A pathway shall result in a trouble signal." This maintains system operation while alerting of a wiring fault.

Correct answer: D. Trouble

NEW QUESTION # 80

After 15 years from initial installation, all fixed-temperature, nonrestorable heat detectors shall be replaced or have how many detectors per 100 laboratories tested?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

Heat detectors that are nonrestorable must either be replaced after 15 years or undergo sample testing. If testing is chosen, at least 4 detectors per 100 of the same model and environment must be tested in an approved lab.

NFPA 72 (2022), Section 14.4.4.1:

"After 15 years from the date of installation, all fixed-temperature, nonrestorable heat detectors shall be replaced or tested using a laboratory method... A minimum of 4 detectors shall be tested for each 100 detectors installed." This ensures detector reliability over time.

Correct answer: B. 4

NEW QUESTION # 81

Which NFPA standard regulates how to perform the test of engine driven generator?

- A. NFPA 101
- B. NFPA 110
- C. NFPA 70
- D. NFPA 72

Answer: B

Explanation:

Engine-driven generators used for emergency power are not governed directly by NFPA 72. Instead, their installation and testing requirements are found in:

NFPA 110 - Standard for Emergency and Standby Power Systems

NFPA 110 (2022), Chapter 8 details how engine-driven generators must be tested, including runtime, load testing, and maintenance intervals.

NFPA 72 references NFPA 110 whenever standby/emergency power is used for fire alarm systems.

Correct answer: D. NFPA 110

NEW QUESTION # 82

How often are manual fire alarm boxes inspected?

- A. Quarterly
- B. Monthly
- C. Annually
- D. Semiannually

Answer: B

Explanation:

Manual fire alarm boxes (pull stations) must be visually inspected monthly to ensure accessibility, visibility, and no physical damage.

NFPA 72 (2022), Table 14.3.1 - Inspection Frequencies:

"Manual fire alarm boxes" # Monthly

The inspection verifies the handle is not blocked and the device is clearly labeled.

Correct answer: A. Monthly

NEW QUESTION # 83

.....

DumpsValid's experts have simplified the complex concepts and have added examples, simulations and graphs to explain whatever could be difficult for you to understand. Therefore even the average ITFAS-Level-1 exam candidates can grasp all study questions without any difficulty. Additionally, the ITFAS-Level-1 Exam takers can benefit themselves by using our testing engine and get numerous real ITFAS-Level-1 exam like practice questions and answers. They will help them revising the entire syllabus within no time.
