NIOS-DDI-Expert Braindump Free, Test NIOS-DDI-Expert Assessment

Whether you are at home or out of home, you can study our NIOS-DDI-Expert test torrent. You don't have to worry about time since you have other things to do, because under the guidance of our NIOS-DDI-Expert study tool, you only need about 20 to 30 hours to prepare for the exam. Sincere and Thoughtful Service Our goal is to increase customer's satisfaction and always put customers in the first place. As for us, the customer is God. We provide you with 24-hour online service for our NIOS-DDI-Expert Study Tool. If you have any questions, please send us an e-mail. We will promptly provide feedback to you and we sincerely help you to solve the problem.

Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q13-Q18):

NEW QUESTION # 13

What sends the email messages for Workflow Approval notifications in NIOS?

- A. NIOS SuperAdmin
- **B. NIOS Grid Master (GM)**
- C. NIOS Grid Master (GM) and the NIOS Grid Master Candidate (GMC)
- D. NIOS Grid Master Candidate (GMC)

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:Workflow Approval notifications:

* A:The Grid Master (GM) sends emails via its configured SMTP settings (Grid > Grid Properties > Email), as it manages Grid-wide tasks. Correct.

* B:GMC is a standby, not active unless promoted-doesn't send emails. Incorrect.

* C:Only GM sends, not both-GMC is passive. Incorrect.

* D:SuperAdmin is a role, not a process-no sending capability. Incorrect.

* Practical Example:In an INE lab, configure SMTP on the GM, test approval emails, and troubleshoot delivery from GM logs.References:Infoblox NIOS Administrator Guide - Workflow Notifications; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 14

What can an administrator do with an Option Filter in NIOS?

- **A. Match on any DHCP options provided by the client**
- B. Match only vendor-specific options such as Option 60
- C. Match only on device types
- D. Match on any DHCP options provided by the server

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:In NIOS, DHCP Option Filters allow administrators to define rules for matching DHCP client requests based on the options they send in their DHCP packets. These filters are highly flexible and can match any DHCP option provided by the client, such as Option 55 (Parameter Request List), Option 60 (Vendor Class Identifier), or custom options. This enables precise DHCP policy enforcement, like assigning specific IP ranges or options to certain devices. Option B is incorrect because filters apply to client requests, not server responses. Option C is too narrow-while Option 60 is common, filters aren't limited to vendor-specific options. Option D is vague and incorrect; device type matching is a subset of option matching. The INE course covers DHCP troubleshooting, including filter configuration.References:Infoblox NIOS Administrator Guide - DHCP Option Filters; INE Course Content: NIOS DDI DHCP Troubleshooting.

NEW QUESTION # 15

When DHCP Failover Status is degraded, the DHCP service is not functioning.

- **A. False**
- B. True

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:DHCP Failover in NIOS ensures redundancy, and its status reflects operational health:

* Degraded Status:Not an official NIOS failover state (e.g., NORMAL, COMMUNICATIONS- INTERRUPTED, PARTNER-DOWN). Likely a misnomer for a partial issue (e.g., COMMUNICATIONS-INTERRUPTED or high lease usage). Even in such states, DHCP service continues:

* Clients renew leases from the surviving peer.

- * New leases are issued within limits (e.g., MCLT).
- * Why False: "Not functioning" implies total failure, but failover design ensures partial service persists unless both peers are down (e.g., HARDWARE-FAILURE state). A degraded-like condition doesn't stop DHCP entirely.
- * Practical Example: In an INE lab, you'd simulate a peer losing sync (COMMUNICATIONS- INTERRUPTED), verify clients still get IPs, and troubleshoot via DHCP logs, proving service continuity. References: Infoblox NIOS Administrator Guide - DHCP Failover States; INE Course Content: NIOS DDI DHCP Troubleshooting.

NEW QUESTION # 16

How can an administrator access the NIOS Online Documentation through the Grid Manager UI?

- **A. From Help > Documentation > NIOS Online Documentation**
- B. From Administration > Logs > Toolbar > Download
- C. From Tools > Download Support bundle
- D. From Tools > Download Admin guide

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation: NIOS Online Documentation is accessible via Grid Manager:

- * D: Help > Documentation > NIOS Online Documentation opens a browser to the latest NIOS docs (e.g., Admin Guide) hosted online or locally. Correct.
- * A: Logs > Download is for syslog/support bundles, not docs. Incorrect.
- * B: Tools > Support Bundle is diagnostics, not documentation. Incorrect.
- * C: No "Download Admin guide" option exists under Tools. Incorrect.
- * Practical Example: In an INE lab, you'd access docs via Help to troubleshoot a Grid join issue, testing resource navigation. References: Infoblox NIOS Administrator Guide - UI Navigation; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 17

How many IP addresses are required to configure a High Availability (HA) pair?

- A. 0
- B. 1
- **C. 2**
- D. 3

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation: An HA pair in NIOS requires:

- * 1. Virtual IP (VIP): Shared address for services (e.g., 192.168.1.100).
- * 2. Active Node IP: Physical address (e.g., 192.168.1.101).
- * 3. Passive Node IP: Physical address (e.g., 192.168.1.102).
- * Total: 3 IPs.
- * Options:
- * A: 2 IPs insufficient - misses individual node IPs. Incorrect.
- * B: 3 IPs match HA design (VIP + 2 nodes). Correct.
- * C/D: Extra IPs (e.g., MGMT) are optional, not required. Incorrect.
- * Practical Example: In an INE lab, configure VIP 10.0.0.1, active 10.0.0.2, passive 10.0.0.3, test failover, and troubleshoot VRRP. References: Infoblox NIOS Administrator Guide - HA Configuration; INE Course Content: NIOS DDI Grid Deployment.

NEW QUESTION # 18

.....

When you buy things online, you must ensure the security of online purchasing, otherwise your rights will be harmed. Our NIOS-DDI-Expert study tool purchase channel is safe, we invite experts to design a secure purchasing process for our NIOS-DDI-Expert qualification test, and the performance of purchasing safety has been certified, so personal information of our clients will be fully

protected. We provide you with global after-sales service. If you have any questions that need to be consulted, you can contact our staff at any time to help you solve problems related to our NIOS-DDI-Expert qualification test. Our thoughtful service is also part of your choice of buying our learning materials. Once you choose to purchase our NIOS-DDI-Expert test guides, you will enjoy service.
