Latest Real NIOS-DDI-Expert Exam - Exam NIOS-DDI-Expert Introduction

Our NIOS-DDI-Expert test material is known for their good performance and massive learning resources. In general, users pay great attention to product performance. After a long period of development, our NIOS-DDI-Expert research materials have a lot of innovation. And we also take the feedback of users who use the Infoblox Qualified NIOS DDI Expert - INE exam guide materials seriously. Once our researchers find that these recommendations are possible to implement, we will try to refine the details of the NIOS-DDI-Expert Quiz guide. Our NIOS-DDI-Expert quiz guide has been seeking innovation and continuous development.

Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q13-Q18):

NEW QUESTION # 13
What is the correct order of a NIOS upgrade?

- A. Upload > Distribute > Test > Upgrade
- B. Test Upload > Distribute > Upgrade
- C. Distribute > Upload > Test > Upgrade
- D. Upload > Distribute > Upgrade > Test

Answer: B

Explanation:
Comprehensive and Detailed In-Depth Explanation:A NIOS software upgrade follows a structured process in Grid Manager (Grid > Upgrade):
* Correct Order:
* Test Upload:Upload the .upgrade file (e.g., NIOS 8.6.2) and test it for integrity/compatibility (checks file checksum, version support).
* Distribute:Push the file to all Grid members, ensuring each has the update locally.
* Upgrade:Execute the upgrade, rebooting members per the schedule (e.g., passive nodes first).
* Why A:"Test Upload" combines the upload and initial validation steps, followed by distribution and execution. NIOS documentation uses this sequence for clarity.
* Options:
* B:Splits Test and Upload, but Test occurs with Upload in practice. Incorrect flow.
* C:Distribute before Upload is impossible-members need the file first. Incorrect.
* D:Test after Upgrade defeats the purpose of pre-validation. Incorrect.
* Practical Example:In an INE lab, you'd upload/test NIOS 8.6.2, distribute to an HA pair, upgrade the passive node, and troubleshoot sync issues, mastering Grid deployment.References:Infoblox NIOS Administrator Guide - Upgrade Process; INE Course Content: NIOS DDI Grid Deployment.

NEW QUESTION # 14
How are Workflow Approval notifications delivered in NIOS?

- A. Via email
- B. Via SMS
- C. Via in-app notifications
- D. Via push notifications

Answer: A

Explanation:
Comprehensive and Detailed In-Depth Explanation:Workflow Approval in NIOS enforces change control with notifications:
* Mechanism:When a requester submits a change (e.g., new DNS record), approvers are notified via email, configured in Grid Properties (Grid > Grid Manager > Grid Properties > Email).
* Details:SMTP server settings (e.g., IP, port, credentials) must be defined for delivery. No other methods are natively supported.
* Options:
* A:SMS isn't supported-requires external integration. Incorrect.
* B:Push notifications aren't part of NIOS GUI or mobile app (none exists). Incorrect.
* C:Email is the documented, sole method. Correct.
* D:In-app notifications don't exist-Grid Manager relies on email. Incorrect.
* Practical Example:In an INE lab, you'd configure an SMTP server, request a zone change, and troubleshoot email delivery failures for approval, testing Grid management.References:Infoblox NIOS Administrator Guide - Workflow Approval Notifications; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 15
If a Grid Master Fails, what can be promoted to take the place of the Grid Master? (Choose one.)

- A. A standby Grid Master
- B. A Grid Master Candidate
- C. Any active Grid Member
- D. The Grid Manager

Answer: B

Explanation:
Comprehensive and Detailed In-Depth Explanation:Grid Master (GM) failure recovery:
* B:A Grid Master Candidate (GMC), pre-designated in Grid Manager (Grid > Members), can be promoted (Grid > Promote GMC) to replace a failed GM, assuming its role. Correct.
* A:Grid Manager is the UI, not a device. Incorrect.
* C:Not all members are GMCs-only designated ones qualify. Incorrect.
* D:No "standby GM" role-GMC is the term. Incorrect.
* Practical Example:In an INE lab, promote a GMC after GM failure, test sync, and troubleshoot promotion issues.References:Infoblox NIOS Administrator Guide - Grid Master Promotion; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 16
The Grid is comprised of all single members. Which member will upgrade first?

- A. You can choose which member upgrades first
- B. The Reporting server upgrades first
- C. The Grid Master upgrades first
- D. The Grid Master Candidate upgrades first

Answer: A

Explanation:
Comprehensive and Detailed In-Depth Explanation:Upgrading a Grid of single members (no HA pairs):
* A:Admins define Upgrade Groups or schedules (Grid > Upgrade), choosing the order (e.g., "Member1 first"). Correct.
* B:GM typically upgrades last by default to maintain control, but this can be overridden. Incorrect.
* C:Reporting server (if present) has no priority-user-defined. Incorrect.
* D:GMC upgrades only if promoted, not inherently first. Incorrect.
* Practical Example:In an INE lab, schedule Member2 first, test upgrade, and troubleshoot sequence issues.References:Infoblox NIOS Administrator Guide - Upgrade Scheduling; INE Course Content:
NIOS DDI Grid Deployment.

NEW QUESTION # 17
Which system provides database synchronization to the passive node of an HA pair Grid Member?

- A. The DNS Primary
- B. The Grid Master Candidate
- C. The Active Node of the HA pair
- D. The Grid Master

Answer: C

Explanation:
Comprehensive and Detailed In-Depth Explanation:In an Infoblox High Availability (HA) pair, the active node maintains the live database and services (DNS, DHCP, etc.), while the passive node remains on standby, ready to take over if needed. Database synchronization between the active and passive nodes is handled directly by the active node using thebloxSyncmechanism over a secure connection (typically SSL). The Grid Master oversees Grid-wide synchronization, but within an HA pair, the active node is responsible for keeping the passive node's database up-to-date. The Grid Master Candidate (GMC) and DNS Primary are unrelated to this specific HA pair sync process. This is a key troubleshooting point in the INE course.References:Infoblox NIOS Documentation - HA Configuration; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 18
.....

TestsDumps addresses this issue by offering real Infoblox NIOS-DDI-Expert Questions. TestsDumps's team of professionals worked tirelessly to create the NIOS-DDI-Expert questions, ensuring that applicants have access to the most recent and genuine NIOS-DDI-Expert Exam Questions. With TestsDumps's help, you can pass the NIOS-DDI-Expert exam on your first attempt or claim a refund according to certain terms and conditions.
