

NSE7_SSE_AD-25 Study Guide Pdf - Exam Sample

NSE7_SSE_AD-25 Questions

1. Examine the IPsec configuration shown in the exhibit; then answer the question below.

The screenshot shows the configuration for a VPN connection. The 'IKE Version' is set to 'IKEv2'. The 'Source Interface' is 'eth0'. The 'IPsec Gateway' is 'Static IP address' with the value '192.9.10.1'. The 'Tunnel IP' is '192.9.10.2'. The 'IKE DPD' checkbox is checked. The 'IKE Statistics' checkbox is checked. The 'IKE Frequency' is set to '60'. The 'Tunnel Rekey Duration' checkbox is checked.

An administrator wants to monitor the VPN by enabling the IKE real time debug using these commands: diagnose vpn ike log-filter **src-addr 10.0.10.1** diagnose debug application ike -l diagnose debug enable. The VPN is currently up, there is no traffic crossing the tunnel and DPD packets are being interchanged between both IPsec gateways. However, the IKE real time debug does NOT show any output. Why isn't there any output?

- A. The IKE real time shows the phases 1 and 2 negotiations only. It does not show any more output once the tunnel is up.
- B. The log-filter setting is set incorrectly. The VPN's traffic does not match this filter.**
- C. The IKE real time debug shows the phase 1 negotiation only. For information after that, the administrator must use the IPsec real time debug instead: diagnose debug application ipsec -l.
- D. The IKE real time debug shows error messages only. If it does not provide any output, it indicates that the tunnel is operating normally.

2. Which of the following statements are true regarding the SIP session helper and the SIP application layer gateway (ALG)? (Choose three.)

- A. SIP session helper runs in the kernel; SIP ALG runs as a user space process.**
- B. SIP ALG supports SIP HA failover; SIP helper does not.**
- C. SIP ALG supports SIP over IPv6; SIP helper does not.**
- D. SIP ALG can create expected sessions for media traffic; SIP helper does not.
- E. SIP helper supports SIP over TCP and UDP; SIP ALG supports only SIP over UDP.

- The SIP application layer gateway (ALG) provides:
 - All the same features as the SIP helper
 - SIP TCP and UDP support
 - SIP IPv6
 - Rate limiting
 - SIP messages syntax checking
 - SIP HA failover
 - Detailed logging and reporting
- Session helpers run in the kernel
- SIP ALG runs as a user space process

Are you still worried about the complex NSE7_SSE_AD-25 exam? Do not be afraid. NSE7_SSE_AD-25 exam dumps and answers from our Itbraindumps site are all created by the IT talents with more than 10 years' certification experience. Moreover, NSE7_SSE_AD-25 Exam Dumps and answers are the most accuracy and the newest inspection goods.

Do you want to have a new change about your life? If your answer is yes, it is high time for you to use the NSE7_SSE_AD-25 question torrent from our company. As the saying goes, opportunities for those who are prepared. If you have made up your mind to get respect and power, the first step you need to do is to get the NSE7_SSE_AD-25 Certification, because the certification is a reflection of your ability. If you have the NSE7_SSE_AD-25 certification, it will be easier for you to get respect and power. Our company happened to be designing the NSE7_SSE_AD-25 exam question.

Pass Guaranteed 2026 Fortinet Updated NSE7_SSE_AD-25: Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator Study Guide Pdf

In contemporary society, information is very important to the development of the individual and of society (NSE7_SSE_AD-25 practice test), and information technology gives considerable power to those able to access and use it. Therefore, we should dare to explore, and be happy to accept new things. In terms of preparing for exams, we really should not be restricted to paper material, there are so many advantages of our electronic NSE7_SSE_AD-25 Study Guide, such as High pass rate, Fast delivery and free renewal for a year to name but a few. I can assure you that you will pass the exam as well as getting the related certification as easy

as rolling off a log.

Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator Sample Questions (Q52-Q57):

NEW QUESTION # 52

Which information can an administrator monitor using reports generated on FortiSASE?

- A. FortiClient vulnerability assessment
- B. **sanctioned and unsanctioned Software-as-a-Service (SaaS) applications usage**
- C. FortiSASE administrator and system events
- D. SD-WAN performance

Answer: B

Explanation:

FortiSASE reporting provides visibility into the usage of sanctioned and unsanctioned SaaS applications, enabling administrators to monitor cloud application activity and enforce security policies.

NEW QUESTION # 53

A company must provide access to a web server through FortiSASE secure private access for contractors.

What is the recommended method to provide access?

- A. Update the DNS records on the endpoint to access private applications.
- B. Configure a TCP access proxy forwarding rule and push it to the contractor FortiClient endpoint.
- C. Update the PAC file with the web server URL and share it with contractors.
- D. **Publish the web server URL on a bookmark portal and share it with contractors.**

Answer: D

Explanation:

The bookmark portal is the recommended method for providing contractors access to private web applications through FortiSASE Secure Private Access, as it offers a user-friendly, secure, and controlled access mechanism without requiring full network connectivity.

NEW QUESTION # 54

Which information does FortiSASE use to bring network lockdown into effect on an endpoint?

- A. The connection status of the tunnel to FortiSASE
- B. **The security posture of the endpoint based on ZTNA tags**
- C. The number of critical vulnerabilities detected on the endpoint
- D. Zero-day malware detection on endpoint

Answer: B

Explanation:

FortiSASE uses ZTNA tags to assess the endpoint's security posture. If the posture is non-compliant based on predefined rules, FortiSASE enforces network lockdown to restrict access accordingly.

NEW QUESTION # 55

Refer to the exhibit. Based on the configuration shown, in which two ways will FortiSASE process sessions that require FortiSandbox inspection? (Choose two.)

ENDPOINT PROFILE

Name Default

Profile Configuration

Connection Protection Sandbox ZTNA FSSO Settings

Sandbox Mode Disabled FortiSASE Standalone FortiSandbox

Region Global

Time Offset UTC+00:00

Wait for FortiSandbox Results before Allowing File Access

Timeout in seconds

File Submission Options

All Files Executed from Removable Media

All Files Executed from Mapped Network Drives

All Web Downloads

All Email Downloads

Remediation Actions

Action Quarantine Alert & Notify

Sandbox Detection Verdict Level Clean Low Medium High Malicious

- A. All files executed on a USB drive will be sent to FortiSandbox for analysis.
- B. All files will be sent to a on-premises FortiSandbox for inspection.
- C. FortiClient quarantines only infected files that FortiSandbox detects as medium level.
- D. Only endpoints assigned a profile for sandbox detection will be processed by the sandbox feature.

Answer: A,D

Explanation:

The sandbox feature applies only to endpoints assigned this profile, and the configuration explicitly enables the submission of all files executed from removable media (like USB drives) to FortiSandbox for analysis.

NEW QUESTION # 56

How do security profile group objects behave when central management is enabled on FortiSASE?

- A. Objects created on FortiSASE can be retrieved on FortiManager.
- B. Objects are considered read-only on FortiSASE.
- C. Objects that are only flow-based are supported.

- D. Objects support two-way synchronization.

Answer: B

Explanation:

When central management is enabled, security profile group objects are managed exclusively through FortiManager, making them read-only on the FortiSASE portal to ensure centralized policy control.

NEW QUESTION # 57

.....

The prominent benefits of Fortinet NSE7_SSE_AD-25 certification exam are more career opportunities, updated skills and knowledge, recognition of expertise, and instant rise in salary and promotion in new job roles. To do this you just need to pass the Fortinet NSE7_SSE_AD-25 Exam. However, to get success in the NSE7_SSE_AD-25 exam is not an easy task, it is a challenging NSE7_SSE_AD-25 exam.

Exam Sample NSE7_SSE_AD-25 Questions: https://www.itbrainedumps.com/NSE7_SSE_AD-25_exam.html

Fortinet NSE7_SSE_AD-25 Study Guide Pdf All of them are high-quality and valid, OK, I will introduce our advantages below: Firstly, Itbrainedumps Exam Sample NSE7_SSE_AD-25 Questions is the leading Fortinet Exam Sample NSE7_SSE_AD-25 Questions certification exam bootcamp pdf provider, Our NSE7_SSE_AD-25 study guide is known for the high quality and high accuracy, Fortinet NSE7_SSE_AD-25 Study Guide Pdf You need to prepare well to face the challenges.

As I got deeper into the course, the commands got longer and more NSE7_SSE_AD-25 complex, For example, it would be easier to remember the IP addresses of shared computers, All of them are high-quality and valid.

Features of Fortinet NSE7_SSE_AD-25 Desktop and Web-based Practice Exams

OK, I will introduce our advantages below: Firstly, Itbrainedumps is the leading Fortinet certification exam bootcamp pdf provider, Our NSE7_SSE_AD-25 Study Guide is known for the high quality and high accuracy.

You need to prepare well to face the challenges, After purchasing Latest NSE7_SSE_AD-25 Test Pdf software version you can download and install this software, candidates can use this software offline for several years.
