We not only in the pre-sale for users provide free demo, when buy the user can choose in we provide in the three versions, at the same time, our IEPPE Training Materials also provides 24-hour after-sales service. Such a perfect one-stop service of our IEPPE test guide, believe you will not regret your choice, and can better use your time, full study, efficient pass the IEPPE exam

OACETT Internationally Educated Professional Practice Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51

What does "time-loss claim accepted" mean?

- A. An incident for which an employee is compensated for a loss of wages following a work-related injury or receives compensation for a permanent disability with or without any time lost in their employment.
- B. An incident and claim that is initially rejected but gets overturned and finally accepted.
- C. A fatal incident and claim that results in compensation to the employee's next of kin.
- D. An incident and claim that measures and compensates for the length of days that employment is affected.

Answer: A

Explanation:

1. What is a Time-Loss Claim?

- * A time-loss claim is a worker's compensation claim made when an employee is injured on the job and cannot work due to the injury.
- * The employer or worker submits the claim to the Workplace Safety and Insurance Board (WSIB) or a similar body.

2. How is Compensation Handled in a Time-Loss Claim?

- * If the claim is approved, the worker may receive:
 - * Wage replacement benefits (compensation for lost earnings).
 - * Medical treatment coverage (physiotherapy, surgery, rehabilitation).
 - * Permanent disability benefits if applicable.

3. Why Option C is Correct:

- * It correctly defines that a time-loss claim means the employee is compensated for lost wages or a disability due to a workplace injury.

4. Why Other Options Are Incorrect:

- * A (Fatal incidents)- A time-loss claim covers temporary and permanent disabilities, not just fatalities.
- * B (Initially rejected claims being overturned)- A time-loss claim is a type of claim, not a reference to appeals.
- * D (Compensation based on length of time off work)- Some injuries result in disability benefits even if the worker eventually returns to work.

NEW QUESTION # 52

What is a Request for Qualification (RFQ)?

- A. It is a call for vendor interest in completing all or part of upcoming projects.
- B. It is a call for vendor interest in being contacted in the event that a future project arises.
- C. It is a call for vendor information in order to rank vendors according to their suitability for upcoming projects.
- D. It is a call for vendor information in order to generate a pool of qualified vendors for a project.

Answer: D

NEW QUESTION # 53

Brown and Green have a concept for a new survey measuring instrument based on their many years in the Civil Survey field. They want to establish a business to raise capital, design, manufacture, and market this new instrument. Both Brown and Green are well established, are in their mid-50s, and have no family members who would be prepared to take over the business when they are ready to retire in about 10 years.

What form of business would the two entrepreneurs choose if they wanted the easiest and lowest-cost way to get it off the ground?

- A. A joint venture
- B. A sole proprietorship
- C. A corporation
- D. A partnership

Answer: D

Explanation:

A partnership is the easiest and lowest-cost way for two or more people to start a business together.

Step-by-Step Explanation:

* What Is a Partnership?

* A business owned by two or more people.

* Lower setup costs than a corporation.

* Profits and losses are shared between partners.

* Why a Partnership Works for Brown & Green:

* They share expertise and investment.

* Less paperwork and fewer legal requirements than a corporation.

* Since they plan to retire in 10 years, a partnership offers flexibility without long-term obligations.

* Why Option C Is Correct:

* Requires minimal startup capital.

* Simple to set up and dissolve.

* Why Other Options Are Incorrect:

* A (Corporation)- More complex, higher startup costs, and strict regulations.

* B (Sole Proprietorship)- Only one owner allowed.

* D (Joint Venture)- Used for short-term projects, not long-term businesses.

NEW QUESTION # 54

When were members of the previously unincorporated OACETT duly registered as Members of the Association?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

1. History of OACETT's Incorporation

* Before 1984, OACETT functioned without formal incorporation, meaning membership was informal.

* In 1984, the Ontario Legislature formally recognized OACETT, giving it legal status as a self-regulated professional association.

* This marked the official recognition of Certified Engineering Technologists (CETs) in Ontario.

2. Significance of Incorporation:

* Established professional certification for engineering technologists.

* Allowed OACETT to enforce standards, ethics, and professional responsibilities.

* Created greater industry credibility and public trust in CETs.

3. Why Option C is Correct:

* 1984 was the official year of OACETT's formal registration as a professional association.

4. Why Other Options Are Incorrect:

* A (1998)- Too late; OACETT was already fully established by then.

* B (1957)- While OACETT has roots before 1984, formal registration happened later.

* D (1962)- Too early; OACETT was still unincorporated at this time.

NEW QUESTION # 55

You are a member of OACETT, a principal in XYZ Company and also a member of a city council. The city council approves appropriations for projects undertaken by the city. One such project is an energy conservation project with a large potential reduction in energy costs. XYZ Company has established a good reputation in the energy conservation field. XYZ Company has submitted a proposal to the city council to provide services for this project under consideration.

Six months after resigning from city council, you receive a call from a council member asking you to review a competitor's project documents for free. What OACETT Code of Ethics principle applies here?

- A. Act with integrity towards clients or employers, maintain confidentiality, and avoid a conflict of interest, but where such conflict arises, fully disclose the circumstances without delay.
- B. Present clearly to employers and clients the possible consequences if professional decisions or judgments are overruled or disregarded.
- **C. Conduct yourself with fairness, courtesy, and good faith towards clients, colleagues, and others.**
- D. Promote public knowledge and appreciation of engineering and applied science technology.

Answer: C

Explanation:

Even though you are no longer in public office, you still have ethical obligations to maintain fairness, integrity, and transparency.

Step-by-Step Breakdown:

1. Ethical Issues at Play:

- * Reviewing a competitor's project for free could:
- * Compromise professional integrity.
- * Create a perception of bias or unfair treatment.
- * Lead to conflicts with your previous employer or professional obligations.

2. Why Fairness, Courtesy, and Good Faith Are Important:

- * Professionals must avoid using their influence unethically, even after leaving a position.
- * Example:
- * A retired CET should not provide confidential insights into a competitor's project without proper compensation and disclosure.

3. Why Option A Is Correct:

- * Fairness and professional courtesy require declining such requests or ensuring full transparency.

4. Why Other Options Are Incorrect:

- * B (Conflict of interest disclosure)- This is not a direct conflict of interest, but an ethical integrity issue.
- * C (Warning about overruled decisions)- Not relevant in this case.
- * D (Promoting public knowledge)- Ethical fairness is more important here.
