HPE0-J68 Testdump - Reliable HPE0-J68 Exam Simulations

If you would like to use all kinds of electronic devices to prepare for the HPE0-J68 HPE0-J68 exam, then I am glad to tell you that our online app version is definitely your perfect choice. In addition, another strong point of the online app version is that it is convenient for you to use even though you are in offline environment. In other words, you can prepare for your HPE0-J68 Exam with under the guidance of our training materials anywhere at any time. Just take action to purchase we would be pleased to make you the next beneficiary of our HPE0-J68 exam practice.

HPE Storage Solutions Sample Questions (Q180-Q185):

NEW QUESTION # 180

You are planning a single-site Nimble solution with iSCSI connectivity. Two 10GbE SFP+ dual port NICS are included in the configuration. You designed an intelligent Resilient Framework (IRF) stack with HPE FlexFabric 5900CP switches. Which statements is correct when discussing the IRF limits for this configuration?

- A. The used IRF ports for iSCSI traffic have to be configured as 10GbE converged ports.
- B. In an IRF stack with storage connectivity, the 40GbE ports cannot be used.
- C. When connecting an iSCSI storage to an IRF stack, a minimum of four 10GbE ports must be used per switch.
- D. A maximum of two switches can be used in an IRF stack when connecting storage.

Answer: D

Explanation:

In a Nimble solution with iSCSI connectivity using an Intelligent Resilient Framework (IRF) stack with HPE FlexFabric 5900CP switches, there is a limitation on the number of switches that can be used in the IRF stack when connecting storage. Specifically, a maximum of two switches can be included in the IRF stack to ensure optimal performance and reliability when managing iSCSI

traffic. This configuration ensures that the storage network maintains high availability and efficient data handling without overcomplicating the stack.

NEW QUESTION # 181

A customer uses Recovery manager central for Vmware (RMC-V). They need to ability to perform granular recovery of application item directly from backups... Which solution integrates with RMC-V to provide the desired requirements?

- A. StoreOnce cloudbank
- B. CommVault
- C. Netbackup
- D. Veeam Backup & Replication

Answer: D

NEW QUESTION # 182

A large enterprise is experiencing exponential data growth of their existing Oracle databases.

They are concerned about their increasing backup windows and the risk of non-compliance with recovery time objectives increase of data corruption in primary storage. Their primary storage is an 3PAR Storeserv 8400, and their backup target is an HPE StoreOnce System.

Which HPE storage solution allow the customer to migrate this risk?

- A. RMC Express protect
- B. Catalyst in-Flight compression
- C. 3 PAR remote copy
- D. StoreOnce unified deduplication

Answer: A

Explanation:

RMC (Recovery Manager Central) Express Protect is the most suitable HPE storage solution for addressing the customer's concerns about backup windows, recovery time objectives (RTOs), and data corruption risks in their primary storage environment. RMC Express Protect integrates with HPE 3PAR StoreServ and HPE StoreOnce systems, allowing direct backup of Oracle databases from primary storage to the StoreOnce appliance. This reduces backup windows and ensures fast, efficient, and reliable recovery, mitigating the risks associated with data growth and corruption.
