Salesforce Certified OmniStudio Consultant Sample Questions (Q31-Q36):

NEW QUESTION # 31

A business process needs to perform a multi-step calculation on each contact record in a list.

Using an Integration Procedure to process the list, what feature can be used to meet this requirement?

- A. Conditional Block
- B. Batch Action
- C. Loop Block
- D. DataRaptor Transform Action

Answer: C

NEW QUESTION # 32

which two of the following use cases are best solved using Calculation Procedures & Matrices?

Choose 2 answers

- A. To determine the list of products to display to a customer
- B. To retrieve text data and convert it to an integer
- C. To return output that is calculated differently based on the date
- D. To apply the correct factor when determining a cost

Answer: C,D

NEW QUESTION # 33

A business has the following requirements:

* To display cases for an account

* The user should see all of the cases on the canvas

* The user should be able to create a new case from the canvas

The consultant decides to use states to enable this functionality.

Which type of state should the consultant recommend to allow users to create a new case from the canvas?

- A. New Card State
- B. Active Card State
- C. Blank Card State
- D. Edit Mode State

Answer: B

NEW QUESTION # 34

A pop-up window will display additional information about the campaign, such as details about the members.

A button must initiate a guided process to add new leads to the campaign.

Which two FlexCard features should the consultant recommend to meet these requirements?

Choose 2 answers

- A. Flyout Action
- B. Interaction Launcher
- C. Data Table
- D. Block Element

- E. OmniScript Action

Answer: A,E

NEW QUESTION # 35

A company needs a guided process for their internal support department that will provide the following functionality:

- * Allow the user to enter their employee id
- * Retrieve name, mobile phone, title, and email using the employee id
- * Display the user's details on a page
- * On another page, allow the user to enter case details, including subject, category, severity, and description Which three elements should the consultant recommend to meet these requirements using an OmniScript?

Choose 3 answers

- A. DataRaptor Extract Action
- B. Calculation Action
- C. Messaging
- D. Steps
- E. DataRaptor Post Action

Answer: A,D,E

Explanation:

The three elements that the consultant should recommend to meet these requirements using an OmniScript are: Messaging, DataRaptor Post Action, and Steps. A Messaging element is an element that can display a text message with an icon and a color, such as blue for information or yellow for warning. The consultant can use a Messaging element to display the user's details on a page. A DataRaptor Post Action is an action that can write data to a Salesforce object or invoke a Salesforce API. The consultant can use a DataRaptor Post Action to save the case details to Salesforce. A Step element is an element that can group related fields and elements in an OmniScript, and display them in a page or a section. The consultant can use multiple Step elements to organize the OmniScript into logical steps, such as entering employee id, displaying user details, and entering case details.
