- C. Analytics > Trends
- D. Main Dashboard > Email Results widget

After creating link categories underManagement > Link Categories, you can assign them to links within your email content. This categorization allows for more targeted analysis and segmentation.
Utilization in Contacts > Segments: Within theContacts > Segmentssection, you can filter contacts based on their engagement with links from specific categories. This enables the creation of segments that reflect user behavior related to particular link types, enhancing targeted marketing efforts.
Utilization in Analytics > Trends: In theAnalytics > Trendsarea, link categories help analyze trends in user interactions with different link types over time. This analysis provides insights into the effectiveness of various link categories, informing future content strategies.
