Test4Engine offers authentic and up-to-date study material that every candidate can rely on for good preparation. Our top priority is to help you pass the Certified Information Privacy Manager (CIPM) (CIPM) exam on the first try. The key to passing the CIPM exam on the first try is vigorous practice. And that's exactly what you'll get when you prepare from our material. Each format excels in its own way and helps you get success on the first attempt.

IAPP CIPM (Certified Information Privacy Manager) Exam is a certification exam that tests the knowledge and skills of individuals who manage privacy in an organization. CIPM exam is designed to assess a candidate's ability to create, implement, and manage an effective privacy program within their organization. CIPM exam covers a broad range of topics, including privacy laws and regulations, privacy program governance, risk management, and data security.

IAPP CIPM certification exam is an essential step for privacy professionals who want to advance their careers and demonstrate their expertise in privacy management. CIPM exam covers a range of privacy management topics, and candidates must have at least two years of experience in privacy management or a related field. The benefits of obtaining the CIPM Certification are numerous, including increased job opportunities, higher salaries, and recognition as a leader in privacy management.

The CIPM exam is designed for professionals who are responsible for developing, implementing, and managing privacy policies and procedures in their organizations. It covers a broad range of topics, including privacy governance, privacy program management, privacy risk assessment, and privacy program evaluation. CIPM exam is intended to measure an individual's understanding of privacy laws and regulations, as well as their ability to implement privacy best practices within an organization.

## **IAPP Certified Information Privacy Manager (CIPM) Sample Questions (Q89-Q94):**

### **NEW QUESTION # 89**

"Respond" in the privacy operational lifecycle includes which of the following?

- A. Privacy awareness training and compliance monitoring.
- B. Information security practices and functional area integration.
- C. Communication to stakeholders and alignment to laws.
- **D. Information requests and privacy rights requests.**

**Answer: D**

### **NEW QUESTION # 90**

Formosa International operates in 20 different countries including the United States and France. What organizational approach would make complying with a number of different regulations easier?

- A. Data mapping.
- **B. Rationalizing requirements.**
- C. Fair Information Practices.
- D. Decentralized privacy management.

**Answer: B**

Explanation:

Rationalizing requirements is an organizational approach that involves identifying and harmonizing the common elements of different privacy regulations and standards. This can make compliance easier and more efficient, as well as reduce the risk of conflicts or gaps in privacy protection. Rationalizing requirements can also help to create a consistent privacy policy and culture across different jurisdictions and business units. References: CIPM Study Guide, page 23.

### **NEW QUESTION # 91**

All of the following would be recommended for effective identity access management (IAM) EXCEPT?

- A. Biometrics.
- B. Credentials.
- C. User responsibility.
- **D. Demographics.**

**Answer: D**

Explanation:

Step-by-Step Comprehensive Detailed Explanation with All Information Privacy Manager CIPM Study Guide References Identity and Access Management (IAM) is essential for securing access to systems and data. Let's evaluate the options:

A . User responsibility:

Ensuring users understand and comply with IAM policies is crucial for effective implementation.

B . Demographics:

Demographics (e.g., age, gender) are not relevant factors in IAM practices, as they do not contribute to authenticating or authorizing access.

C . Biometrics:

Biometric identifiers, such as fingerprints or facial recognition, are commonly used for secure authentication.

D . Credentials:

Credentials, such as usernames, passwords, or tokens, are fundamental elements of IAM systems.

### NEW QUESTION # 92

In privacy protection, what is a "covered entity"?

- A. Hidden gaps in privacy protection that may go unnoticed without expert analysis.
- B. A privacy office or team fully responsible for protecting personal information.
- C. Personal data collected by a privacy organization.
- **D. An organization subject to the privacy provisions of HIPAA.**

**Answer: D**

Explanation:

A covered entity is an organization that is subject to the privacy provisions of the Health Insurance Portability and Accountability Act (HIPAA) of 1996. HIPAA regulates how covered entities use and disclose protected health information (PHI) of individuals.

Covered entities include health plans, health care clearinghouses, and health care providers that transmit health information electronically. References:

[HIPAA for Professionals], [What is a Covered Entity?]

### NEW QUESTION # 93

Which of the following is the optimum first step to take when creating a Privacy Officer governance model?

- A. Leverage communications and collaboration with public affairs teams.
- B. Develop internal partnerships with IT and information security.
- C. Provide flexibility to the General Counsel Office.
- **D. Involve senior leadership.**

**Answer: D**

Explanation:

The optimum first step to take when creating a Privacy Officer governance model is to involve senior leadership. Senior leadership plays a crucial role in establishing and supporting a privacy program within an organization. They can provide strategic direction, allocate resources, approve policies, endorse initiatives, communicate values, and demonstrate accountability. By involving senior leadership from the beginning, a Privacy Officer can ensure that the privacy program aligns with the organization's vision, mission, goals, and culture. Senior leadership can also help overcome potential barriers or resistance from other stakeholders by endorsing and promoting the privacy program.
