

# Oracle 1Z0-1042-25 Web-Based Practice Test

P.S. Free 2025 Oracle 1Z0-1042-25 dumps are available on Google Drive shared by SureTorrent: [https://drive.google.com/open?id=1mNDnte\\_NGD6-Tlp-FdIVqgHD30V4uCay](https://drive.google.com/open?id=1mNDnte_NGD6-Tlp-FdIVqgHD30V4uCay)

Do you feel that you are always nervous in your actual 1Z0-1042-25 exam and difficult to adapt yourself to the real exam? If your answer is yes, I think you can try to use the software version of our 1Z0-1042-25 exam quiz. I believe the software version of our 1Z0-1042-25 training guide will be the best choice for you, because the software version can simulate the real test environment, you can feel the atmosphere of the 1Z0-1042-25 exam in advance by the software version.

The 1Z0-1042-25 exam questions formats are PDF dumps files, desktop practice test software, and web-based practice test software. All these 1Z0-1042-25 exam questions formats hold some common and unique features. Such as 1Z0-1042-25 PDF dumps file is the PDF version of Oracle Cloud Infrastructure 2025 Application Integration Professional exam dumps that works on SureTorrent all operating systems and devices. Whereas the other two 1Z0-1042-25 Practice Test questions formats are concerned, both are the mock 1Z0-1042-25 exam. Both will give you a real-time Oracle Cloud Infrastructure 2025 Application Integration Professional exam preparation environment and you get experience to attempt the 1Z0-1042-25 exam preparation experience before the final exam.

>> Test 1Z0-1042-25 Questions Pdf <<

## Free PDF Quiz Pass-Sure Oracle - 1Z0-1042-25 - Test Oracle Cloud Infrastructure 2025 Application Integration Professional Questions Pdf

Our 1Z0-1042-25 training prep was produced by many experts, and the content was very rich. At the same time, the experts constantly updated the contents of the study materials according to the changes in the society. The content of our 1Z0-1042-25 study guide is definitely the most abundant. Before you go to the exam, our 1Z0-1042-25 Exam Questions can provide you with the simulating exam environment. This not only includes the examination process, but more importantly, the specific content of the exam. In previous years' examinations, the hit rate of 1Z0-1042-25 learning quiz was far ahead in the industry.

### Oracle 1Z0-1042-25 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>Using OIC Connections &amp; Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.</li></ul>                                                        |
| Topic 2 | <ul style="list-style-type: none"><li>Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.</li></ul> |

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 3 | <ul style="list-style-type: none"> <li>• <b>Testing, Monitoring, and Troubleshooting Integrations:</b> This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.</li> </ul> |
| Topic 4 | <ul style="list-style-type: none"> <li>• <b>Creating Orchestrated Integrations:</b> This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.</li> </ul> |
| Topic 5 | <ul style="list-style-type: none"> <li>• <b>Creating Scheduled Integrations:</b> This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.</li> </ul>                                                                                                                     |

## Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q71-Q76):

### NEW QUESTION # 71

Which are valid considerations when leveraging the Oracle Integration Cloud (OIC) connectivity agent for high availability on-premises environments? Select TWO.

- A. You should install the connectivity agents on the same host as the target application, and then specify different agent group identifiers for each agent during its installation.
- B. File adapter is not supported in high availability environments. When using file adapter and if some groups have multiple instances, use a dedicated agent group (with one agent only).
- C. You cannot have more than two agent instances per agent group. Attempting to include a third agent instance in the same group during installation results in an error.
- D. You need to have the OIC ServiceDeployer role permissions to download and install the OIC on-premises connectivity agent.
- E. Each host on which the agent is installed must be configured on separate subnets and assigned to the same OIC agent group.

**Answer: B,C**

Explanation:

Comprehensive and Detailed Explanation:

HA Agent:

C, D: True-limit of two agents and File adapter restriction.

### NEW QUESTION # 72

You have an Oracle Integration Cloud (OIC) synchronous integration flow that updates external systems with several invocations. However, several of your OIC integration clients are reporting that they are experiencing timeouts waiting for the response confirmation from this processing. Which is a legitimate strategy to mitigate this issue?

- A. Change the implementation logic to invoke multiple fine-grained external API calls within a single loop.
- B. Increase the blocking timeout within the OIC integration settings to allow for extended time.
- C. Change the design implementation strategy to an asynchronous flow that provides a separate notification to clients when the processing is complete.

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation:

Timeouts in synchronous flows:

Option A: Increasing timeouts might help but doesn't address efficiency and risks longer delays.

Option B: Fine-grained calls in a loop could worsen performance, increasing latency.

Option C: Switching to an asynchronous flow decouples client waits from processing, using callbacks or notifications- a proven mitigation strategy.

C aligns with best practices for responsiveness.

#### NEW QUESTION # 73

You created a scheduled integration in Oracle Integration Cloud (OIC) that uses scheduled parameters named startDate and endDate to determine the data range for a data synchronization process. The default values for these parameters are set to the previous day for startDate and the current day for endDate. However, you now want to schedule a run of the instance with a different start date. What should you do?

- A. Modify the parameter value in the integration code and redeploy the integration.
- **B. Override the parameter value when scheduling the integration instance.**
- C. Create a new version of the integration by modifying the parameter value, and then deploy the new scheduled integration version.
- D. Modify the parameter value in the instance's integration properties and restart the instance.

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

Scheduled Parameters:

C:True-override at runtime is simplest.

#### NEW QUESTION # 74

One of your downstream applications is becoming overwhelmed with too many individual synchronous invocations from your current Oracle Integration (OIC) integration. It is recommended that you redesign the integration to take advantage of the batch processing capabilities of that application. Which approach is a valid OIC design best practice that will provide the best solution for this issue?

- **A. Use the Append option in the Write File operation of the Stage File action within a loop to create a single batch file to be sent to the application.**
- B. Throttle the individual synchronous calls by adding a wait activity prior to each invocation to the application within the loop, then fetch a batch response after the loop.
- C. Create a custom batch call function, register the function as a Library in your OIC environment, then use the JavaScript call action to invoke the application.
- D. Reactivate the integration and use the disable tracing and message tracking option, which will optimize performance for each invocation to the application.

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation:

Batch Processing:

C:True-Stage File batches efficiently.

#### NEW QUESTION # 75

Oracle Integration (OIC) integrations can be exported so that later they can be imported into another OIC environment. Which statement is NOT valid regarding the import and export of OIC integrations?

- **A. Integration must be exported as a project deployment if you want to import them into another OIC environment.**
- B. Imported integrations can be reconfigured to use different connection resources by using the OIC REST API.
- C. Imported integrations cannot be immediately activated if their dependent connection resources are not already present in the target OIC environment.
- D. Exported integrations include all their dependent connection resource information except URLs and credentials.

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation:

Exporting/importing integrations is key for migration or backup. Let's analyze:

A:True-exports (IAR/PAR) include metadata but exclude sensitive data.

B:False-no "project deployment" requirement; individual IAR or PAR files suffice.  
C:True-missing connections block activation.

## NEW QUESTION # 76

.....

There are three formats of the 1Z0-1042-25 practice training material for your preparation. You can choose as your needs. The first one is the pdf files: 1Z0-1042-25 pdf dumps can be printed into papers which is very suitable for making notes. The 1Z0-1042-25 PC test engine & 1Z0-1042-25 online test engine are all VCE format and can simulate the actual test environment. The 1Z0-1042-25 PC test engine is suitable for any windows system, while the 1Z0-1042-25 online test engine can be installed on any electronic device. All the 1Z0-1042-25 exam content are the same and valid for different formats.
