Latest 1z0-1057-24 Braindumps Files - Complete 1z0-1057-24 Exam Dumps

First and foremost, in order to cater to the different needs of people from different countries in the international market, we have prepared three kinds of versions of our 1z0-1057-24 learning questions in this website. Second, we can assure you that you will get the latest version of our 1z0-1057-24 Training Materials for free from our company in the whole year after payment on 1z0-1057-24 practice materials. Last but not least, we will provide the most considerate after sale service on our 1z0-1057-24 study guide for our customers in twenty four hours a day seven days a week.

Oracle 1z0-1057-24 Exam Syllabus Topics:

Topic	Details
Topic 1	• Configure Project Resource Management: This section measures the skills of resource managers and focuses on defining project enterprise labor resources to optimize resource allocation and utilization.
Topic 2	• Configure Project Foundation: This section assesses the skills of project foundation specialists and includes setting up project calendars and periods, defining types and categorizations, managing project resources, describing rate schedules, project types, setting up transaction sources, and managing labor schedules to establish a solid foundation for project management.

Topic 3	• Configure Project Performance Reporting: This section assesses the skills of performance reporting analysts and includes configuring and managing key performance indicators for project performance reporting to monitor and evaluate project success effectively.
Topic 4	• Configure Project Billing: Targeting billing specialists, this section involves configuring project cross-charging and transfer pricing, and managing project invoicing and revenue processes to ensure accurate and efficient billing operations.
Topic 5	• Describing Navigation, User Experience, Personalization, and Approvals: Targeting user experience designers, this section evaluates knowledge of business processes supported by approvals and workflows, setting up approval and notification tasks, and concepts related to navigation, user experience, and personalization within the application.
Topic 6	• Setting up Common Project Configuration: Targeting project configuration specialists, this section involves managing Subledger Accounting, setting up Project Financial Management Organizations, and managing Reference Data Sharing to ensure consistent and accurate financial reporting.
Topic 7	• Using Program Management: Targeting program managers, this section involves using program management and reporting tools to oversee multiple projects and ensure alignment with organizational objectives.

Oracle Project Management Cloud 2024 Implementation Professional Sample Questions (Q63-Q68):

NEW QUESTION # 63

After completing setups in a source environment, your customer wants to move the setup data to a target environment. Identify the two statements related to task list scope, which you must consider before taking a decision based on the customer requirement. (Choose two.)

- A. A scope value is used to assign users who can perform a task within an implementation project.
- **B. A task list can be segmented by a scope value and a task can be performed for each qualifying value of the selected object.**
- **C. Exported setup data can be filtered by specific scope values if the business object has scope enabled for the setup data export.**
- D. Exported setup data cannot be filtered by specific scope values if the business object has scope enabled for the setup data export.

Answer: B,C

Explanation:

Reference: https://docs.oracle.com/cd/E60665_01/common/OAFSM/OAFSM1166430.htm#OAFSM1166426

NEW QUESTION # 64

Your organization has decided to enable the common accounting and project accounting periods option while defining business unit implementation options.

Where will you maintain the accounting period statuses if this option has been enabled?

- A. General Ledger
- B. Subledger Accounting
- **C. Project Foundation**
- D. Project Costing

Answer: C

NEW QUESTION # 65

You are implementing Project Portfolio Management (PPM) for a professional services firm. The firm rents multiple buildings for its operations. At the end of each month, they review the rent expense for the month and want to allocate the rental cost to all the

projects and tasks that are executed by associates in each of the buildings. The source amounts must be proportionally allocated to the tasks based on the raw costs of the tasks from the previous month. Considering that all these costs are in General Ledger, what three allocation setups should you complete in PPM? (Choose three.)

- **A. Define allocation basis by using Actual Amounts with a period-to-date amount class.**
- B. Allocate rental costs once each accounting period by using the "spread evenly" allocation method.
- **C. Allocate rental costs once each accounting period by using the "full" allocation method.**
- **D. Allocate to all eligible tasks and prorate the allocation by the total actual raw cost accrued for each task during the previous accounting period.**
- E. Define allocation basis by using Actual Amounts with a project-to-date amount class.

Answer: A,C,D

Explanation:

To allocate the rental cost to the projects and tasks based on the raw costs of the tasks from the previous month, you need to do the following:

- * Allocate rental costs once each accounting period by using the "full" allocation method. This method allocates the entire source amount to the target tasks in one run.
- * Allocate to all eligible tasks and prorate the allocation by the total actual raw cost accrued for each task during the previous accounting period. This ensures that the source amount is proportionally allocated to the tasks based on their relative raw costs.
- * Define allocation basis by using Actual Amounts with a period-to-date amount class. This allows you to use the actual raw costs of the tasks as the basis for allocation and to use the amounts from the previous accounting period. Reference:

NEW QUESTION # 66

A project administrator is trying to assign a team member for a project but cannot find the person in the team member list on the Project Definition page. What is the reason for this problem? (Choose the best answer.)

- A. The employee is not assigned with a supervisor.
- **B. The employee is not assigned to a department.**
- C. Project roles are not assigned in the project.
- D. The employee is not assigned to the project-owning organization.

Answer: B

Explanation:

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2 Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

- * The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.
- * The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.
- * Persons assigned as project managers aren't active as of the project start date.
- * The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

NEW QUESTION # 67

You have been asked to set up one active person, who is not a team member in the project, as a quality manager for each quality task created under projects. However, when you try to assign the quality manager as Task Manager, you cannot find the person's name in the list of values. What is the reason for this problem? (Choose the best answer.)

- A. The quality manager belongs to a department that is not associated with the project.
- **B. The "Require Task Managers to be Project Team Members" profile option is set to Yes.**
- C. The "Require Task Managers to be Project Team Members" profile option is set to No.
- D. The quality manager is not assigned with a supervisor.

Answer: B

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/fapfm/introducing-oracle-project-portfolio-management-cloud-services.html#FAPFM428138> Topic - Project Foundation Profile Options Profile Option Name - Task Managers Must Be Project Team Members Description - Specify whether task managers must be project team members.

Values - No (Default) / Yes

Setup Task Name - Require Task Managers to be Project Team Members

NEW QUESTION # 68

.....
