1Z0-1081-24 Latest Exam Guide, 1Z0-1081-24 Reliable Braindumps Pdf

Our Oracle Financial Consolidation and Close 2024 Implementation Professional (1Z0-1081-24) exam dumps comes in three formats: Oracle 1Z0-1081-24 PDF dumps file, desktop-based practice test software, and a web-based practice exam. These versions are specially designed to make Oracle Financial Consolidation and Close 2024 Implementation Professional (1Z0-1081-24) preparation for users easier. 1Z0-1081-24 Questions in these formats of Exam4Labs's material are enough grasp every test topic in the shortest time possible.

Oracle Financial Consolidation and Close 2024 Implementation Professional Sample Questions (Q141-Q146):

NEW QUESTION # 141

In the approval process, which four dimensions constitute an approval unit? (Choose four.)

- A. Account
- B. Data Source (Entity)
- C. Period
- D. Year
- E. Scenario

Answer: B,C,D,E

Explanation:

In the approval process, the four dimensions that constitute an approval unit are:

Year: This is the fiscal year for which the data is submitted.

Scenario: This is the type of data that is submitted, such as Actual, Budget, or Forecast.

Period: This is the time period within the fiscal year for which the data is submitted, such as Month, Quarter, or Year.

Data Source (Entity): This is the combination of Data Source and Entity dimensions that identifies the source and destination of the data.

The other options are not dimensions that constitute an approval unit. Account is not a dimension that is used in the approval process, as it represents all accounts in the application. Data Source (Entity) already includes Data Source as a sub-dimension, so it does not need to be specified separately. [Oracle Financial Consolidation and Close 2023 Implementation Essentials Exam Study Guide], page 15; [Oracle Financial Consolidation and Close Cloud Service User's Guide], page 2-13.

NEW QUESTION # 142

A new Sheet tab in Excel is copied from an existing tab that contains a Smart View query, but clicking Refresh does not refresh the data and the Smart View (Point of View) POV bar does not display.

Which additional step is required to pull data in the new tab and change the POV?

- A. Close out of Excel, and relog in to Smart View.
- **B. Change one of the Row or Column dimension members and click Refresh.**
- C. Disconnect from the Smart View connection, and relog in.
- D. Activate the Connection.

Answer: B

NEW QUESTION # 143

Financial Consolidation and Close Cloud Service (FCCS) provides a consolidation path through which dimension combination?

- A. Entity, Consolidation, Currency
- B. Consolidation, Currency, Account
- **C. Currency, Account, Movement**
- D. Entity, Currency, Account

Answer: C

NEW QUESTION # 144

What action requires refreshing the database?

- A. You deploy a new Configurable Calculation rule in Calculation Manager.
- **B. You edit the alias for a member in the Entity dimension.**
- C. You edit the Consolidation Operator for a member in the Account dimension.
- D. You change the ownership percentage for an entity.

Answer: B

Explanation:

The action that requires refreshing the database is editing the alias for a member in the Entity dimension. Refreshing the database is a process that synchronizes the changes made to metadata with the data stored in the database. You need to refresh the database after making changes to metadata that affect data aggregation or calculation, such as editing member names, formulas, consolidation operators, etc. Editing the alias for a member in the Entity dimension is one of such changes, because it affects how data is displayed in reports and forms. The other actions do not require refreshing the database. Deploying a new Configurable Calculation rule in Calculation Manager, changing the ownership percentage for an entity, and editing the Consolidation Operator for a member in the Account dimension do not affect data aggregation or calculation. [Oracle Financial Consolidation and Close 2023 Implementation Essentials Study Guide], page 21; [Oracle Financial Consolidation and Close Cloud Service Administrator's Guide], page 2-4.

NEW QUESTION # 145

Which statement explains why, in the Consolidation dimension, the data for an entity in the FCCS_Entity Input member might be

different from the data in the FCCS_Proportion member?

- A. An ownership percentage for the entity other than 100 was entered.
- B. A rate was entered into the FCCS Rate Override account.
- C. An intercompany elimination was performed.
- D. The parent entity has a different currency than the child.

Answer: A

Explanation:

The statement that explains why, in the Consolidation dimension, the data for an entity in the FCCS_Entity Input member might be different from the data in the FCCS_Proportion member is: An ownership percentage for the entity other than 100 was entered. This means that the entity is not fully owned by its parent, and therefore its data is adjusted by the ownership percentage when it is consolidated. The FCCS_Entity Input member shows the data before consolidation, while the FCCS_Proportion member shows the data after applying the ownership percentage. The other options do not explain why the data might be different. A rate entered into the FCCS Rate Override account affects the currency translation, not the consolidation. The parent entity having a different currency than the child also affects the currency translation, not the consolidation. An intercompany elimination is performed after consolidation, not before, and it affects the FCCS_Eliminations member, not the FCCS_Proportion member.[Oracle Financial Consolidation and Close 2023 Implementation Essentials Exam Study Guide], page 31; [Oracle Financial Consolidation and Close Cloud Service User's Guide], page 5-9.

NEW QUESTION # 146

.....

If you buy online classes, you will need to sit in front of your computer on time at the required time; if you participate in offline counseling, you may need to take an hour or two on the commute to class.
