Exam Dumps 1Z0-1114-25 Provider, 1Z0-1114-25 Exam Answers

Exams4Collection provides you with actual Oracle 1Z0-1114-25 in PDF format, Desktop-Based Practice tests, and Web-based Practice exams. These 3 formats of Oracle 1Z0-1114-25 exam preparation are easy to use. This is a Printable 1Z0-1114-25 PDF dumps file. The Oracle 1Z0-1114-25 PDF dumps enables you to study without any device, as it is a portable and easily shareable format.

Oracle 1Z0-1114-25 Exam Syllabus Topics:

Topic	Details
Topic 1	The Redwood Experience: This section of the exam measures the skills of UX Designers and Application Developers in understanding the need for a modern applications platform. It explains the building blocks of Oracle's Redwood design system, focusing on its role in delivering a consistent and intuitive user experience across applications.

Topic 2	• Designing and Developing Redwood Applications: This section measures the skills of Redwood Application Developers and Product Designers in designing and developing applications using Redwood patterns, templates, and components. It focuses on utilizing Redwood page templates, exploring specifications through the Redwood Reference Application, and building applications that align with Oracle's Redwood design system.
Topic 3	• Configuring Oracle Fusion Cloud Extensions with Visual Builder Studio: This section evaluates the expertise of Fusion Application Developers and Cloud Extension Specialists in using Oracle Visual Builder Studio (VBS) as a development platform for creating and modifying Oracle SaaS applications. It covers extending existing SaaS pages, creating new Redwood pages or apps for SaaS data, and building mashup applications that integrate SaaS and external data sources.
Topic 4	• Developing Fusion Apps with Visual Builder Studio: This section tests the knowledge of Fusion App Developers and Development Operations Engineers in leveraging Visual Builder Studio features. It includes configuring service connections, managing code with Git repositories, handling branches and merge requests, and managing builds, pipelines, and deployments to streamline application development workflows.

Oracle Redwood Application 2025 Developer Associate Sample Questions (Q39-Q44):

NEW QUESTION # 39

Which business areas can benefit from Oracle Fusion Cloud Extensions with Visual Builder?

- A. All business areas, regardless of their needs
- **B. Any business area with specific application requirements**
- C. None, as it is purely for entertainment purposes
- D. Only the IT department

Answer: B

Explanation:

Full Detailed in Depth Explanation:

Fusion Cloud Extensions benefit areas with specific needs (D), not entertainment (A), all areas indiscriminately (B), or just IT (C).

NEW QUESTION # 40

You are designing the UI to display information about a product and are asked to use the card layout, such that:

- * The card layout summarizes the available information about a product in a visually compact manner.
- * The card layout is used as an entry point from where users can access additional details.

Which card layout is suitable for the above requirements?

- A. Scoreboard
- **B. Object Card**
- C. Image Card
- D. Mini Card

Answer: B

Explanation:

Full Detailed in Depth Explanation:

Redwood offers various card layouts, each with specific use cases. The Object Card (Option A) is designed to summarize key information about an entity (e.g., a product) in a compact, visually appealing way while serving as an entry point to detailed views—perfectly matching the requirements. Mini Card (B) is too minimal for summarization, focusing on quick glances. Image Card (C) prioritizes visuals over data summary, and Scoreboard (D) is for metrics/KPIs, not product details.

NEW QUESTION # 41

How does Oracle Fusion Cloud Extensions contribute to business agility?

- A. By increasing the complexity of existing applications
- B. By enforcing rigid and unchangeable processes
- C. By slowing down business processes
- **D. By allowing businesses to quickly adapt and extend their cloud applications**

Answer: D

Explanation:

Full Detailed in Depth Explanation:

Fusion Cloud Extensions, built with VBS, enable rapid customization of applications (C), enhancing agility. They don't slow processes (A), add complexity (B), or enforce rigidity (D).

NEW QUESTION # 42

Which two statements are true about Web Components?

- A. Web Component is not composed of JET components, HTML, JavaScript, and CSS
- **B. A Web Component can be composed of JET components, HTML, JavaScript, and CSS**
- **C. A Web Component is a reusable piece of UI that can be embedded as a custom HTML element**
- D. A Web Component is a collection of Service Connections, Business Objects, and CSS

Answer: B,C

Explanation:

Full Detailed in Depth Explanation:

Web Components in VB are reusable UI elements (A) built with JET, HTML, JS, and CSS (C). They aren't collections of services/objects (B), and D contradicts C.

NEW QUESTION # 43

Which is the correct sequence of steps in the Design process?

- A. Understand the statement, articulate the problem, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- B. Articulate the vision, identify the Redwood Page templates, understand the problem, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- C. Articulate the vision, understand the problem, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- **D. Understand the problem, articulate the vision, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world**

Answer: D

Explanation:

Full Detailed in Depth Explanation:

The Redwood design process, as outlined in Oracle's Redwood documentation, follows a structured approach to ensure a user-centered and iterative design. The correct sequence starts with "Understand the problem" (to define the challenge), followed by "Articulate the vision" (to set goals), "Identify the Redwood Page templates to use" (to select appropriate patterns), "Add the detail and refine the design" (to iterate), "Specify the design for development" (to hand off to developers), and "Monitor engagement in the real world" (to evaluate post-launch). Option D reflects this logical flow. Option A reverses the initial steps, Option B uses incorrect terminology ("Understand the statement"), and Option C misorders understanding the problem after template selection, which disrupts the process.

NEW QUESTION # 44

.....

Our company aimed to provide you with professional team, high quality service and reasonable price on our 1Z0-1114-25 exam questions. In order to help most customers solve their problems, our company always insist on putting them first and providing
