Oracle Guided Learning Project Management Foundations Associate - Rel 1 Sample Questions (Q53-Q58):

NEW QUESTION # 53

In the Focus phase, which activity is the responsibility of the Functional Consultant?

- A. Collaborate with business process owners to customize OGL templates relevant to the client's application customization
- B. Complete relevant digital learning through online training resources and tools to become familiar with OGL content development
- C. Sign off on OGL content items to signal that content is ready for publishing and end-user consumption

Answer: A

Explanation:

During the Focus phase, which centers on aligning OGL with business needs, the Functional Consultant's role is to collaborate with business process owners to customize OGL templates (option C). This ensures content reflects the client's specific application customizations, enhancing relevance and usability. Signing off on content (option A) typically falls to project managers or content approvers in later phases like Refine, while completing digital learning (option B) is a preparatory step, not a core Focus-phase duty. The Functional Consultant's expertise in business processes and application configuration makes them pivotal in tailoring templates, bridging technical and operational requirements effectively.

NEW QUESTION # 54

Which of the following is not an OGL console role?

- A. Developer
- B. Editor
- C. Owner
- D. Analyst
- E. Viewer

Answer: D

Explanation:

OGL console roles include Owner, Viewer, Developer, and Editor, each with specific permissions. "Analyst" is not a standard OGL role, making it the correct answer.

NEW QUESTION # 55

How can OGL users with access to the OGL console provide content item and step-level feedback?

- A. By calling the developer
- B. Through email
- C. Directly in the OGL console

Answer: C

Explanation:

Users with console access can provide feedback directly in the OGL console (e.g., via Comments fields), ensuring efficiency and context. Calling (option A) or emailing (option B) are less integrated methods.

NEW QUESTION # 56

What is the correct order of how key activities occur during the Oracle Cloud Fusion quarterly update cycle?

- A. Test, Publish, Prepare, Update
- B. Prepare, Update, Publish, Test
- C. Prepare, Test, Update, Publish
- D. Test, Publish, Update, Prepare

Answer: C

Explanation:

The Oracle Cloud Fusion quarterly update cycle follows: Prepare (assess changes), Test (validate content), Update (modify as

needed), Publish (deploy to production) (option B). This logical sequence ensures readiness, verification, refinement, and final release, aligning with Oracle's structured approach to managing updates. Other options disrupt this flow, e.g., testing before preparing (option A) or publishing before updating (option C), making B the correct, systematic order.

NEW QUESTION # 57

Which permissions are associated with the Viewer security role in the OGL Console?

- A. Create, edit, and publish OGL content
- B. Edit OGL content item text and create messages
- C. Read-only access for content libraries, OGL content, and analytics
- D. Configure OGL application settings and deployment to the host application

Answer: C

Explanation:

The Viewer role in the OGL console has read-only access to content libraries, content, and analytics, limiting it to observation. Options B, C, and D involve editing or configuration permissions reserved for higher roles like Editor or Administrator.

NEW QUESTION # 58

.....

To keep pace with the times, we believe science and technology can enhance the way people study. Especially in such a fast-paced living tempo, we attach great importance to high-efficient learning. Therefore, our 1Z0-1126-1 study materials base on the past exam papers and the current exam tendency, and design such an effective simulation function to place you in the real exam environment.
