

# Oracle 1Z0-771 Trustworthy Dumps, Exam 1Z0-771 Actual Tests

📄 Get the Optimal Oracle 1Z0-771 Exam PDF Questions  
— Qualify on Your First Shot!

Are you aiming to clear the Oracle 1Z0-771 exam questions on your very first try? Certification exams in 2025 are more difficult than ever, demanding extensive knowledge and practical experience. To increase your chances of achievement, you need reliable and latest learning tools. **HelloDumps** provides [Oracle 1Z0-771 dumps](#) and expert-reviewed study materials to help you study effectively. The top part? You can now enjoy an exclusive 35% deal on all study materials!

## Why Choose HelloDumps for Your 1Z0-771 Exam Preparation?

### ✅ Authentic 1Z0-771 Exam Questions – Obtain an Advantage Over Others

HelloDumps offers actual exam-like questions, closely consistent with the latest 1Z0-771 composition, difficulty level, and syllabus of the Oracle APEX Cloud Developer Professional certification. Practicing these questions helps you understand the test structure and enhances your achievement.

🔥 Retrieve Oracle APEX Cloud Developer Professional Exam Questions 2025 Here: <https://hellodumps.com/1z0-771-dumps.html>

### ✅ Three User-Friendly Learning Formats

We provide study materials in various formats to suit different learning styles:

📄 **PDF Composition** – Study on any device, anytime, anywhere.

💻 **Desktop Preparation Test** – Simulates real exam conditions with customizable mock tests.

🌐 **Web-Based Drill Test** – No installation required—practice directly from your browser.

BONUS!!! Download part of Dumps4PDF 1Z0-771 dumps for free: [https://drive.google.com/open?id=1HAq\\_9voeTUz8PFdp6o70SBiKpj5N7EhQ](https://drive.google.com/open?id=1HAq_9voeTUz8PFdp6o70SBiKpj5N7EhQ)

In order to let you understand our products in detail, our Oracle APEX Cloud Developer Professional test torrent has a free trial service for all customers. You can download the trial version of our 1Z0-771 study torrent before you buy our products, you will develop a better understanding of our products by the trial version. In addition, the buying process of our 1Z0-771 exam prep is very convenient and significant. You will receive the email from our company in 5 to 10 minutes after you pay successfully; you just need to click on the link and log in, then you can start to use our 1Z0-771 study torrent for studying. Immediate download after pay successfully is a main virtue of our Oracle APEX Cloud Developer Professional test torrent. At the same time, you will have the chance to enjoy the 24-hours online service if you purchase our products, so we can make sure that we will provide you with an attentive service.

## Oracle 1Z0-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• <b>Creating Progressive Web Apps:</b> This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Adding Computations, Processes, Validations, and Branches:</b> This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Adding Additional Pages to Your Application:</b> This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Creating Application Page Controls:</b> This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• <b>Creating and Using Dynamic Actions and Plug-ins:</b> This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• <b>Implementing Security in Your Application:</b> This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>Managing Application Data:</b> This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Getting Started with Oracle APEX on the Oracle Autonomous Database:</b> This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• <b>Using Themes and Theme Styles:</b> This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• <b>Implementing Navigation in Your Application:</b> This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.</li> </ul>

## Exam 1Z0-771 Actual Tests & Valid 1Z0-771 Exam Labs

Our 1Z0-771 real exam materials have high appraisal in the market for their quality and high efficiency. Because satisfied customer is the best ads, and the word of mouth communication by the customers give others more sense of credibility than any other form of marketing communication. We know a satisfied customer will come back again for the same or different need to the company, so we always provide high-rank 1Z0-771 real exam materials over ten years. They have experienced all trials of the market these years approved by experts. Besides, they are easy to assimilate so if you get stuck in the bottleneck of review, and under the guidance of our Oracle APEX Cloud Developer Professional exam question they are widely regarded as top notch in this area. Recently our 1Z0-771 Guide prep rise to the forefront in the field of practice materials. So if you need other 1Z0-771 real exam materials from us, we will not let you down not even once. Hope you pass the exam once successfully by our Oracle APEX Cloud Developer Professional exam question and recommend them to your friends. We are sure you will be splendid!

## Oracle APEX Cloud Developer Professional Sample Questions (Q45-Q50):

### NEW QUESTION # 45

Which two are prerequisites to use the REST-enabled SQL feature in Oracle APEX?

- A. Install ORDS 19.x or later on the remote Oracle Database.
- B. Install Oracle APEX in the remote Oracle Database.
- C. REST-enable the schema in the remote Oracle Database by using ORDS.ENABLE\_SCHEMA.
- D. Create a database link to the remote Oracle Database in the local APEX schema.

**Answer: A,C**

Explanation:

To use REST-enabled SQL in APEX:

Install ORDS 19.x or later: Oracle REST Data Services (ORDS) must be installed and configured on the remote database.

REST-enable the schema: The schema on the remote database must be REST-enabled using ORDS.ENABLE\_SCHEMA to allow SQL execution via REST.

A database link is not required, and installing APEX on the remote database is unnecessary since REST-enabled SQL connects APEX to a remote schema via ORDS.

### NEW QUESTION # 46

Which two Query Source types can be used to create a dynamic LOV?

- A. Procedure
- B. Select List
- C. SQL Query
- D. Function Returning SQL Query

**Answer: C,D**

Explanation:

A dynamic List of Values (LOV) in APEX populates options based on a query source. The supported types include:

Function Returning SQL Query: A PL/SQL function that returns a SQL query string (e.g., RETURN 'SELECT ename, empno FROM emp;'). This offers flexibility for dynamic conditions or complex logic.

SQL Query: A direct SQL statement (e.g., SELECT ename, empno FROM emp) executed at runtime to fetch LOV values. It's the simplest and most common approach.

Procedure: Procedures execute logic but don't return query results in the format required for an LOV (they don't produce a result set directly).

Select List: This is a UI component, not a query source type for defining an LOV.

Dynamic LOVs enhance user interaction by providing real-time, data-driven options, critical for forms and filters.

### NEW QUESTION # 47

You have an Interactive Grid component and you are enabling the Save Report functionality. As what can end users save the report type?

- A. As Private and Primary only
- B. As Primary
- C. As Private and Public only

**Answer: C**

Explanation:

In an Interactive Grid, the "Save Report" functionality allows end users to save customizations (e.g., filters, column order). The available options are:

Private: Saved for the individual user only, visible only to them.

Public: Saved and shared with all users of the application, if permitted by the developer.

Primary: This is a developer-defined default report, not an end-user save option. End users cannot overwrite the Primary report; they can only save as Private or Public (if enabled via the "Allow Public Reports" attribute).

This flexibility empowers users to personalize grids while allowing shared configurations, enhancing collaboration and usability.

### NEW QUESTION # 48

Which statement is true about importing an existing application into your workspace?

- A. The import process does not import the supporting objects defined during the export.
- B. You cannot change the application ID during the import process.
- **C. You cannot import an APEX application exported from the latest APEX version to an old APEX version.**

**Answer: C**

Explanation:

Importing an APEX application involves transferring its definition (exported as a .sql file):

C . You cannot import an APEX application exported from the latest APEX version to an old APEX version: APEX enforces backward compatibility limits. An app exported from 23.2 (latest features like AI Assistants) can't import into 19.2, as older versions lack support for newer metadata (e.g., APEX\_AI tables). The import wizard checks the version and rejects incompatible files.

A . You cannot change the application ID: False; the import wizard prompts for a new ID if there's a conflict or if you choose to override.

B . Supporting objects not imported: False; if included in the export (via "Include Supporting Objects"), they're imported (e.g., tables, triggers), unless skipped explicitly.

Technical Insight: Export files contain a version check (e.g., apex\_version = '23.2');, causing rejection if the target instance's APEX\_VERSION is lower.

Use Case: Moving an app from a dev instance (23.2) to prod (23.2) works, but not to an outdated test instance (19.1).

Pitfall: Always match versions or upgrade the target instance first.

### NEW QUESTION # 49

Which two statements are true about creating and using dynamic actions?

- **A. If a client-side condition is defined, the true action will fire when the condition is met.**
- B. After you create a dynamic action, you cannot add more true actions.
- C. If no client-side condition is defined, true actions will not fire.
- **D. You can execute JavaScript code by creating a dynamic action.**

**Answer: A,D**

Explanation:

Dynamic Actions in APEX enable responsive behavior:

If a client-side condition is defined, the true action will fire when the condition is met: A condition (e.g., this.browserEvent === 'click') ensures the true action (e.g., Show, Hide) executes only when true, enhancing precision in event handling.

You can execute JavaScript code by creating a dynamic action: The "Execute JavaScript Code" action type allows custom scripts (e.g., alert('Clicked!'));, extending functionality beyond declarative options.

Cannot add more true actions: False; multiple true actions can be added post-creation.

No condition, true actions won't fire: False; without a condition, true actions fire unconditionally on the event.

Dynamic Actions are a cornerstone of interactive UIs in APEX.

### NEW QUESTION # 50

.....

In our study, we found that many people have the strongest ability to use knowledge for a period of time at the beginning of their knowledge. As time goes on, memory fades. Our 1Z0-771 study materials are designed to help users consolidate what they have learned, will add to the instant of many training, the user can test their learning effect in time after finished the part of the learning content, have a special set of wrong topics in our 1Z0-771 Study Materials, enable users to find their weak spot of knowledge in this function, iterate through constant practice, finally reach a high success rate.
