1Z0-1163-1 Practice Questions: Oracle Fusion Cloud Applications SCM

Foundations Associate - Rel 1 & 1Z0-1163-1 Exam Dumps Files

Perhaps you still feel confused about our Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 test questions when you browse our webpage. There must be many details about our products you would like to know. Do not hesitate and send us an email. Gradually, the report will be better as you spend more time on our 1Z0-1163-1 exam questions. As you can see, our system is so powerful and intelligent. What most important it that all knowledge has been simplified by our experts to meet all people's demands. So the understanding of the 1Z0-1163-1 Test Guide is very easy for you. Our products know you better.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q45-Q50):

NEW QUESTION # 45

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Manufacturing Execution.
- B. Supplier Portal.
- C. Global Order Promising.
- D. Cost Accounting.

Answer: C

Explanation:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

NEW QUESTION # 46

What is the primary function of the Supplier Portal in Oracle Fusion Cloud Procurement?

- A. It eliminates the need for supplier performance reviews.
- B. It only provides access to purchase orders but not invoices.
- C. It restricts suppliers from modifying their account details.
- D. It allows suppliers to manage purchase orders, invoices, and collaboration in real time.

Answer: D

Explanation:

The Supplier Portal (D) in Oracle Fusion Cloud Procurement enables suppliers to manage purchase orders, invoices, and real-time collaboration with buyers. Suppliers can view POs, submit invoices, update shipment statuses, and communicate directly, enhancing efficiency and transparency. For instance, a supplier can confirm a PO for 500 units, upload an invoice, and notify the buyer of a delay-all within the portal. Option A is incorrect-it includes both POs and invoices. Option B is false-performance reviews remain necessary, supported by portal data. Option C is wrong-suppliers can update details like banking info, subject to approval. This comprehensive functionality reduces manual coordination, accelerates procurement cycles, and strengthens supplier relationships.

NEW QUESTION # 47

What is the primary function of Receipt Accounting in Oracle Fusion Cloud SCM?

- A. It validates contract terms for procurement.
- B. It eliminates the need for cost accounting.
- C. It records the receipt of goods and services, creating accounting entries for financial reporting.
- D. It ensures supplier invoices are paid on time.

Answer: C

Explanation:

Receipt Accounting (D) in Oracle Fusion Cloud SCM records the receipt of goods and services, generating accounting entries that

reflect these transactions for financial reporting and cost tracking. When a shipment of 500 units arrives, Receipt Accounting logs the event, assigns costs (e.g., \$5,000), and creates entries like "Inventory Debit" and "Accounts Payable Credit," ensuring financial accuracy. Option A is incorrect-timely invoice payment is a downstream accounts payable process, not Receipt Accounting's role. Option B is false-contract validation occurs in procurement, not here. Option C is wrong-Receipt Accounting feeds into Cost Accounting, enhancing, not eliminating it. This function ensures compliance with accounting standards, provides visibility into goods received, and supports accurate financial statements, bridging physical and financial supply chain activities.

NEW QUESTION # 48

What is the main purpose of the Supply Chain Collaboration feature in Oracle Fusion Cloud SCM?

- A. It eliminates the need for supplier contracts.
- **B. It enables real-time communication between suppliers and buyers for improved supply chain visibility.**
- C. It automates internal financial reporting without supplier interaction.

Answer: B

Explanation:

The Supply Chain Collaboration feature in Oracle Fusion Cloud SCM facilitates real-time communication between suppliers and buyers through tools like the Supplier Portal, improving visibility into supply chain activities such as order status and inventory levels. Option A is incorrect as it involves supplier interaction, not just internal reporting. Option B is false-contracts remain essential. This collaboration enhances coordination and responsiveness across the supply chain.

NEW QUESTION # 49

What is the role of the Global Order Promising feature in Oracle Fusion Cloud SCM?

- A. It focuses only on local inventory availability.
- B. It eliminates the need for supplier collaboration.
- **C. It provides real-time order commitment dates based on supply and demand constraints.**
- D. It guarantees same-day delivery for all orders.

Answer: C

Explanation:

Global Order Promising (C) provides real-time order commitment dates by analyzing supply (e.g., inventory, production) and demand (e.g., orders, forecasts) constraints enterprise-wide. For instance, if 100 units are requested and 70 are available with a 3-day lead time, it commits to 3 days. Option A is false-no universal same-day guarantee exists. Option B is incorrect-supplier data often informs promises. Option D is wrong-it considers global, not just local, availability. This feature ensures reliable promises, reduces cancellations, and aligns customer expectations with operational capacity.

NEW QUESTION # 50

.....

Our 1Z0-1163-1 exam questions are very outstanding. People who have bought our products praise our company highly. In addition, we have strong research competence.
