

Oracle Study 1Z0-1195-25 Demo: Oracle Data Platform 2025 Foundations Associate - Pass4sureCert Free Download

BTW, DOWNLOAD part of Pass4sureCert 1Z0-1195-25 dumps from Cloud Storage: <https://drive.google.com/open?id=1RGvBxjZBu4dJTfY4GfNvRpzBPrAiMO8>

This is a good way to purchase valid exam preparation materials for your coming 1Z0-1195-25 test. Good choice will make you get double results with half efforts. Good exam preparation will point you a clear direction and help you prepare efficiently. Our 1Z0-1195-25 exam preparation can not only give a right direction but also cover most of the real test questions so that you can know the content of exam in advance. You can master the questions and answers of Oracle 1Z0-1195-25 Exam Preparation, even adjust your exam mood actively.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Resiliency: This section tests the knowledge of Database Security Engineers and Disaster Recovery Specialists in implementing Oracle's Maximum Security Architecture and Maximum Availability Architecture to ensure database resiliency and high availability.
Topic 2	Upgrades and Migrations: This section tests the knowledge of Migration Specialists and Cloud Architects in planning cloud migrations. It includes various migration strategies to OCI, as well as upgrade options for transitioning existing databases to newer versions or cloud environments.
Topic 3	Data Management Introduction: This section of the exam measures the skills of Data Architects and Cloud Database Specialists in understanding Oracle's data management strategy. It covers Oracle's database offerings, deployment options, and multi-cloud and hybrid cloud solutions for managing data using Oracle Cloud Infrastructure.

Topic 4	MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development.
Topic 5	Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (DOracle NoSQL Database ServiceBCS).
Topic 6	Converged Database: This section evaluates the expertise of Multi-Model Database Specialists and Application Developers in using Oracle's converged database for multi-model use cases. It covers JSON, graph, and spatial data capabilities within the Oracle Database.
Topic 7	- Developing on Oracle Database: This section measures the skills of Application Developers and DevOps Engineers in managing Autonomous Databases using REST APIs, Oracle's data toolset, low-code development with APEX, and CI - CD processes for database tools and APEX applications.
Topic 8	Autonomous Database and Tools: This section evaluates the expertise of Database Administrators and Cloud Engineers in working with Oracle Autonomous Database (ADB). It includes provisioning ADB instances, scaling CPU and storage, starting and stopping databases, and using tools to load data into ADB effectively.

Pass Guaranteed 1Z0-1195-25 - Oracle Data Platform 2025 Foundations Associate Perfect Study Demo

In the era of information, everything around us is changing all the time, so do the 1Z0-1195-25 exam. But you don't need to worry it. We take our candidates' future into consideration and pay attention to the development of our Oracle Data Platform 2025 Foundations Associate study training dumps constantly. Free renewal is provided for you for one year after purchase, so the 1Z0-1195-25 Latest Questions won't be outdated. The latest 1Z0-1195-25 latest questions will be sent to you email, so please check then, and just feel free to contact with us if you have any problem. Our reliable 1Z0-1195-25 exam material will help pass the exam smoothly.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q52-Q57):

NEW QUESTION # 52

Which Oracle Cloud Infrastructure storage platform is used by MySQL Database Service for all data storage?

- A. Block Volume Storage
- B. Flash Local Storage
- C. Object Storage
- D. File Storage

Answer: A

Explanation:

The "MySQL Database Service" on OCI uses "Block Volume Storage" (D) for all data storage, providing high-performance, persistent block storage attached to compute instances for database operations. "Object Storage" (A) is for unstructured data, "Flash Local Storage" (B) is temporary and instance-specific, and "File Storage" (C) is for shared file systems-none suit MySQL's needs. Oracle's MySQL Service documentation confirms Block Volume as the standard.

NEW QUESTION # 53

What is the most important reason to upgrade and patch?

- A. Fix bugs
- **B. Security**
- C. Upgrading and patching the database is not important
- D. Restructure the database

Answer: B

Explanation:

The most important reason to upgrade and patch is "Security" (A). Patches address vulnerabilities, protecting against exploits and ensuring compliance, which outweighs "Fix bugs" (C) in priority. "Restructure the database" (B) is unrelated to patching, and "Upgrading and patching the database is not important" (D) is false. Oracle's security guidelines prioritize patching for protection.

NEW QUESTION # 54

Which workload CANNOT be run on Oracle Database 19c?

- **A. Hadoop Clusters**
- B. Translytical
- C. Machine Learning
- D. Gaming

Answer: A

Explanation:

"Oracle Database 19c" supports "Machine Learning" (A) via in-database algorithms, "Translytical" (B) workloads combining transactional and analytical processing, and "Gaming" (C) through high-performance transaction support. However, "Hadoop Clusters" (D) cannot run directly on 19c, as Hadoop is a distributed framework requiring a separate ecosystem (e.g., Oracle Big Data Service), not a workload natively supported within the database engine. Oracle's 19c documentation details its converged database capabilities, excluding Hadoop as a direct workload.

NEW QUESTION # 55

What interconnect solutions are available to connect Oracle Cloud to other cloud providers?

- A. Cloud Router
- B. Virtual Private Cloud
- **C. FastConnect**
- D. Virtual Cloud Network

Answer: C

Explanation:

"FastConnect" (D) is the interconnect solution to connect Oracle Cloud Infrastructure (OCI) to other cloud providers (e.g., Azure, AWS) via dedicated, high-speed links. "Virtual Cloud Network" (A) is an OCI internal network, "Virtual Private Cloud" (B) is an AWS term, and "Cloud Router" (C) is not a specific OCI offering (though third-party routers like Megaport exist). Oracle's documentation confirms FastConnect for multicloud connectivity.

NEW QUESTION # 56

What self-service tools are available with the Autonomous Database?

- A. Encryption only in Object Storage
- **B. Oracle Machine Learning**
- **C. Low-Code App Dev, APEX**
- D. Business Objects

Answer: B,C

Explanation:

The "Autonomous Database" offers self-service tools like "Oracle Machine Learning" (B), enabling users to build ML models directly in the database, and "Low-Code App Dev, APEX" (C), allowing rapid application development via Oracle APEX.

"Business Objects" (A) is a third-party BI tool, not native to ADB, and "Encryption only in Object Storage" (D) is a feature, not a tool, and inaccurate (encryption is broader). Oracle's documentation highlights OML and APEX as key self-service capabilities.

NEW QUESTION # 57

.....

The great advantage of our Oracle 1Z0-1195-25 study prep is that we offer free updates for one year long. On one hand, these free updates can greatly spare your money since you have the right to free download Oracle Data Platform 2025 Foundations Associate real dumps as long as you need to. On the other hand, we offer this after-sales service to all our customers to ensure that they have plenty of opportunities to successfully pass their 1Z0-1195-25 Actual Exam and finally get their desired certification of 1Z0-1195-25 practice materials.
