1z0-1118-23 New Dumps Pdf & Valid 1z0-1118-23 Test Pattern

It is known to us that having a good job has been increasingly important for everyone in the rapidly developing world; it is known to us that getting a Oracle Cloud Fusion Analytics Warehouse 2023 Implementation Professional certification is becoming more and more difficult for us. That is the reason that I want to introduce you our 1z0-1118-23 prep torrent. I promise you will have no regrets about reading our introduction. I believe that after you try our products, you will love it soon, and you will never regret it when you buy it.

Oracle Cloud Fusion Analytics Warehouse 2023 Implementation Professional Sample Questions (Q11-Q16):

NEW QUESTION # 11

You have created several Data Augmentations.

What types of data refreshes are available for Data Augmentation?

- A. If refresh is required, you need to update the ADW tables related to Data Augmentation.
- **B. Data Augmentations follow the incremental refresh frequency and can also be refreshed ad hoc.**
- C. Only ad hoc refresh is available for Data Augmentation.

Answer: B

Explanation:

Explanation

Data Augmentations in FAW follow the incremental refresh frequency that is configured for the functional areas. You can also refresh the data augmentations manually by using the Refresh option on the Data Augmentation page¹. You do not need to update the ADW tables related to Data Augmentation, as FAW handles the data loading automatically²

NEW QUESTION # 12

Which two capabilities are available through Semantic Model Extensions?

- A. Create a union between two tables.
- B. Add additional data sources to the semantic model.
- C. Add a new fact.
- D. Add a new dimension.

Answer: C,D

Explanation:

Explanation

Semantic Model Extensions provide various capabilities to customize the semantic model, such as adding a new dimension, adding a new fact, extending a dimension, extending a fact, creating a new subject area, reorganizing a subject area, and adding additional data sources⁵. Creating a union between two tables is not supported by Semantic Model Extensions.

NEW QUESTION # 13

Oracle Fusion Analytics Warehouse (FAW) is built on Oracle Analytics Cloud (OAC). As a FAW Service Administrator, where do you manage the FAW application?

- A. You have two consoles: the FAW console and an OAC console. The OAC console is similar in functionality to the standalone OAC platform service.
- B. You have two consoles: the FAW console and an OAC console. The OAC console has limited functionality as compared to the standalone OAC platform service.
- C. You have only one console to manage and administer FAW, the FAW console.

Answer: B

Explanation:

Explanation

As a FAW Service Administrator, you have access to two consoles: the FAW console and an OAC console.

The FAW console is used to manage the FAW service, such as setting up data sources, loading data, monitoring data pipelines, and configuring users and roles. The OAC console is used to access the prebuilt dashboards and reports, as well as create and customize your own analytics content. However, the OAC console has limited functionality as compared to the standalone OAC platform service, such as restricted access to data sources, data flows, and data sets⁴

NEW QUESTION # 14

You have reviewed out-of-the-box data security through the configuration of context assignment. You need to create custom data security to meet your data security requirements.

Which FAW settings provide this functionality?

- A. The Security Configurations available in the Semantic Model Extensions through the FAW Console provide this functionality
- B. You need to modify the Data Security Assignment file with the values you want for the users.
- C. A combination of steps in Security Console and the Security Configurations in the Semantic Model Extensions available at the FAW Console provides this functionality.

Answer: C

Explanation:

Explanation

To create custom data security to meet your data security requirements, you need a combination of steps in Security Console and the Security Configurations in the Semantic Model Extensions available at the FAW Console. The Security Console allows you to create custom data roles and assign them to users or groups⁵. The Security Configurations allow you to define custom security filters

and apply them to dimensions, facts, or subject areas⁶. You do not need to use only the Security Configurations or modify the Data Security Assignment file for this purpose.

NEW QUESTION # 15

Which is a prerequisite for creating a data pipeline for any functional area?

- A. Configuring single sign-on
- **B. Setting up the Pipeline parameters**
- C. Completing data security assignments

Answer: B

Explanation:

Explanation

The prerequisite for creating a data pipeline for any functional area is setting up the pipeline parameters. The pipeline parameters define the global settings for the data pipeline, such as the source application URL, credentials, notification email, incremental refresh frequency, and retention period⁴. Configuring single sign-on and completing data security assignments are not prerequisites for creating a data pipeline, but they are recommended for securing access to FAW and Fusion Applications⁵

NEW QUESTION # 16

.....

About the upcoming 1z0-1118-23 exam, do you have mastered the key parts which the exam will test up to now? Everyone is conscious of the importance and only the smart one with smart way can make it. Maybe you are unfamiliar with our 1z0-1118-23 Latest Material, but our 1z0-1118-23 real questions are applicable to this exam with high passing rate up to 98 percent and over.

1z0-1118-23 New Dumps Pdf: https://www.braindumpsvce.com/1z0-1118-23_exam-dumps-torrent.html

Oracle Pass 1z0-1118-23 Exam It supports all web browsers, and you can also have offline practice, We provide you not only the high passing-rate 1z0-1118-23:Oracle Cloud Fusion Analytics Warehouse 2023 Implementation Professional exam torrent materials but also satisfying customer service, Without some kinds of time-consuming operation, just order the payment button on our website and pay for 1z0-1118-23 exam prep materials with affordable price, you can begin your practice immediately, Our 1z0-1118-23 test engine is very intelligence with the interactive function, which bring much interest for study.

One very important note about resource files: There are no 1z0-1118-23 capital letters allowed in the file names, Under Select a Layout, choose a template that will suit your options.

It supports all web browsers, and you can also have offline practice, We provide you not only the high passing-rate 1z0-1118-23:Oracle Cloud Fusion Analytics Warehouse 2023 Implementation Professional exam torrent materials but also satisfying customer service.

Pass Guaranteed 1z0-1118-23 - Marvelous Pass Oracle Cloud Fusion Analytics Warehouse 2023 Implementation Professional Exam
